## **Heaven's Embrace** Erin R. Bedford , J.A. Cipriano

Jane has a problem. She can see angels, and not just any angels, but archangels.

There's Michael, tough, gorgeous, and smarter than Sherlock Holmes.

Lucifer, the bad boy you love to, well, love.

And Gabriel? Well, he's like the best friend she always wanted, only with washboard abs.

Together they make an awesome team when they aren't trying to figure out a way to screw like bunnies. Or, at least, they will when a girl goes missing.

Now it's up to Jane and her angels to crack the case, bring the girl home, and save the day.

...and this time, she might find that helping gets her what she's really wanted all along.

## From Reader Review Heaven's Embrace for online ebook

### Nicole Heffernan says

Note: I received an advanced review copy in exchange for my honest review.

I wasn't all too sure what to expect. First off I enjoy reverse harem concepts, and have come to love the combo work of both authors. So I knew I'd MOST likely like it.

So let me tell you....warning, NO spoilers - which is VERY HARD to not do.....I LOVE LOVE LOVED IT! I loved the angels, I loved the overall concept and plot lines. I really liked the snarky, sarcastic main girl. I think this is one of what I think will soon be a big quick win for J.A. Cipriano & Erin Bedford. I love a lot of books, but I would totally put this at a 6 star. My only, and they are so small, downsides: Want another book PRONTO, I wish \_\_\_\_ and I wish \_\_\_\_ and I wish \_\_\_\_\_. > NO spoilers. See!

The writing is on par, the flow of the story is great. I mean there isn't really anything bad about it. I can see SO many more possibilities of fun to come from this book cause I enjoyed so many characters (both Big and Small). I am not normally a fan, and while I love the show Lucifer, it doesn't mean I had a lot of high hopes...but this writing duo sold me within the first 2 chapters.

So YES: buy the book. YES: review and share the book, and YES: PUSH WITH ME FOR SEQUELS AND THIRDS AND FOURTHS...etcetc.

---

### Sairaika Naidoo says

An (not so) angelic read!

Three archangels...

That only she can see...

A missing girl...

Can she save the day?

Can she get wanted she really wanted all this time?

Oh. My. Word. The MC is absolutely incredible and hilarious. I adore her and her personality. I officially can say I have a woman crush on her - she's funny, entertaining and takes no sh\*t from anyone. I claim her as my book best friend. For life.

The MC may seem or be annoying at times but she is lovable and hilarious. She is a great character that will keep you entertained and laughing throughout the reading of this book.

All I can say is this: sit back and enjoy this helluva wild, wild ride because you are in for one bumpy, lusty and witty ride!

Full of angels, fallen angels, psychic powers, a missing woman, secrets, discoveries, steamy moments and hilarious moments.

Perfect for readers of reverse harem fantasy romances.

---

### **Penny Noble says**

I've already been a fan of both of these authors for a while, and I'm always eager to see what they will come up with. Reverse harem isn't my favorite of the genres, but I am always willing to try, especially with authors I like. And, what a wild ride this was! I found Jane to be an annoying yet loveable protagonist who has the power to see angels, and boy does she ever. They drive her mad with their sexual teasing (she can look but can't touch), and in the midst of the teasing, she's hired on at her friend's police department to help in a missing persons case, because, you know, she has help from beyond. And, yes, Jane can be a little immature, but I think now with the events at the end of the book, she will settle down a little. I hope not too much because that is part of her charm. This was a funny, well-written book with great characters that is sure to please reverse harem fans. Highly recommend! I was provided the e-book which I reviewed voluntarily.

### **Charlotte Houghton says**

wow i really did enjoy this book, it was so funny and very enjoyable and I can't wait to read the next books.

---

### **Marguerite (Lady RH) ☺ says**

#### **Rating : TBA**

I thought at first I was going to drop it but it was actually quite fun. I didn't like the angels, the mystery totally sucked and the main character was quite obnoxious and seriously horny h24 but she was fun and had enough sarcasm to make up for the rest.

---

### **Lene Blackthorn says**

Hot, immature, and temperament read with lots of steamy scenes and sarcastic, pushy humor. Jane is a bartender who claims to be a psychic, but truth be told, she sees angels. At least, three of them - Michael, Gabriel, and Lucifer,- regardless if they are fallen or not. But if you think it makes her life easier, think again. Her surroundings consider her insane or weird, no one believes her, and the three little devils in angelic bodies torture her 24/7 with their sensual teasing but no real touch. Desperate for release, Jane would give everything to be able to touch them. However, her life gets even more messy when her best friend, Mandy, asks her for assistance with a case of missing girl, and Jane's three angelic companions tag along to help.

All in all, I admit I enjoyed the book with its sharp humor and head-smacking moments. Yes, Jane is totally immature, impulsive, sharp-tongued, and sometimes I truly wonder how she even survived without aide with her attitude. I would probably slap her face and tell her to grow up. But her careless spirit has certain charms, and for the sake of the angels I really hope she has extremely good looks, otherwise I would not stick around in their place. On the other hand, these three unconventional angelic creatures are what really makes the book interesting, with their distinctive personalities and unique gifts. The mystery and its investigation included in the story raise the tension and speed up the pace a bit, sometimes taking sharp turns and

providing unexpected surprises.

I am curious to see where this hot reverse harem series will take us in the next book.

---

### **Sabine says**

That was quite funny to read and I really hope there will be another book in this series soon. Jane is a great character and the three angels are a yummy delight. Can't wait to read if the corporeal thing happens again - this time hopefully with Lucy..

---

### **Jordan says**

This was one of the best impulse book buys that I have read in a while!

Jane is just a normal twenty-something trying to get by with her bartending job.... who happens to be able to see angels, the good and the fallen :). Constantly harassed (and aroused) by none other than Michael, Gabriel, and Lucifer, people either think Jane is crazy or psychic. While she doesn't have any power of her own (other than the sight), the guys certainly do, and she uses those as her "psychic" gifts. When her friend, a cop, asks for her help on a missing persons case, Jane agrees and, with the guys' help, tries to discover the truth.

I really loved the guys. Micheal the archangel was so serious and not quite up to date on some modern colloquialisms. Gabriel is the playful one you can't help but love. Lucifer, well.. he's the devil ;). He was funny and hot and I couldn't get enough of his interactions with Jane. Actually, all of their interactions with Jane were great!

I am definitely eagerly awaiting the next book!

---

### **Andrea Heltsley says**

#### **Wow!**

Blown away by this book from two new to me authors! I loved it! Horny Angels? Yes please! Already dying for the sequel! Five glittery stars!

---

### **Linda Levine says**

This is a fun story to read. Jane is someone who can see angels. They seem to be there to turn her on rather than keep her safe or encourage her to be good. One of them is even the fallen angel, Lucifer.

She works in a bar as a psychic bartender. It gets her pretty good tips.

Poor Jane really has to struggle as she can see the angels and no one else can. Looking like you are talking to yourself doesn't make a lot of friends. Her best friend is a detective that reluctantly asks for her help finding a young woman. She needs her angels' special skills and they are happy to provide them as long as they get a reward.

It is very well written with a lot of fun dialogue. Jane tends to like to say what she thinks and torment others just like her angels treat her.

I liked Jane and her mom was really funny too so you saw where she got it from.

I am looking forward to reading more about these angels. They know how to do temptation just right and have you and Jane ready for more.

I am voluntarily reviewing a copy I received.

### **Mo says**

#### **Heaven's Embrace**

2.5: Fun at first, but then not, 2 many subplots and Jane was not likeable. Will not continue this series.  
Happy reading!

---

### **Siri says**

At first I didn't really like it, it was a lil boring and I thought the story would be different from the actual story(if ya know what I mean) but it turned out to be a Interesting read

---

### **Melissa says**

I really enjoyed this book, I thought it was a really good story and plotted out very well. I cannot wait until the next book to see what happens. I loved it what happened to Michael I could not stop laughing, I even started laughing before it happened because I had an idea of what was going to happen and then it did. I would recommend Heaven's Embrace to others.

---

### **Victoria says**

Meet Jane, bartender and resident psychic at the Heavenly Arms. Not that she has any powers, but she sees angels... well 3 to be precise: Michael, Gabriel and Lucifer. They are however not as you would imagine angels to look, or behave. Nope, they are drop dead gorgeous (and they know it), horny as hell and seem to really enjoy torturing Jane 24/7 (and put a dent in her stock of panties). You see... they are incorporeal, so they can't touch her.

When her best friend and detective asks for aid on a missing persons case, the angels agree to help Jane with the case in return for a kiss, should they ever find a way to touch.

My take on the book:

The first half of the book I wasn't convinced. At the start it felt like I missed a prequel, or other info because it pretty much went straight to Jane getting turned on (and on, and on and on) by the angels.

I must admit that this really bothered me :( There was no insight in things like: how did Jane get this 'power',

has she always had it, does she see other angels, why these three, ... ? As you read further you get some info, but not nearly enough (in my honest opinion).

Jane herself is an immature adult, working is overrated and serving drinks is pretty much it. I'm still not sure how she got her degrees with that attitude, but yeah... as a main character she was a tad shallow.

Good news though... the book gets better :) it feels as though the authors got into it by the second half, things got interesting and the flow was good. It even had me laughing at a few points. We had a story :D It didn't have any errors that I noticed and just to be complete: this book contains sexual exploits (if that is important to you, though to be honest, you wouldn't be reading a RH if you weren't up for that, right?).

I voluntarily read an advanced reader copy of this book and all in all, I have mixed feelings. The story has so much potential, but unfortunately feels lacking. When this series continues, I really do hope for more depth to the characters and story.

---

### **Lisa says**

I keep telling myself that I will stop looking for further RH books. I have a set of my favorite series I plan on continuing as they come out.

This I thought I would give a try.

#### **PROS**

- I liked Jane she is a strong character and tough. She is not the typical RH heroine who has been abused in her past and has a bad family life. She doesn't need saving.
- She doesn't have any psychological problems. And, I don't feel like the guys are taking advantage of her.
- Also, there is no insta- love, because she has seen the angels for a long time
- I liked the storyline didn't focus on sex the whole time and the book did not feel like a full on erotica novel. Some RH books are full of smut?? If that's the right word. But, this had an interesting storyline of her helping solve a missing girl case and the guys helping her

#### **CON**

- To me I have to see the guys in a rh be protective of her and love her as a friend first. I did not get that from the guys. I needed something more from the guys when it comes to their affection for her rather than just lust.
- I needed something more to happen in the story. Because to me this wasn't a true "page turner". I found myself taking breaks because I was a bit bored.
