Wonderfully emotional and suspenseful debut novel!

This full-length novel is the first in a planned serial trilogy. Abigale Hayes, Abby to her family and friends, is twenty two years old, engaged, finishing pre-med at UCLA and starting work for a popular magazine. On the surface this sounds idyllic but the truth is much more complicated. Abby continues to deal with survivor guilt after the crippling loss of her twin sister in a car accident when she was sixteen. Addie had planned to follow their parents' footsteps in the medical profession while Abby had planned a career in journalism. Feelings of guilt and parental expectations caused Abby to temporarily abandon her own career path but she was now at a crossroads with her schooling. She has to make a decision before she starts medical school in the fall – the last place she wanted to be. Her fiancé returned to Brazil at the end of the school year and she hasn't heard a word from him since despite countless voicemails and attempts to contact him. Abby was teetering under the stress and was not prepared for Evan Young to walk into her life. She was instantly and deeply attracted to Evan and their relationship developed quickly despite the uncertainty in her life. The twists and turns to the story, however, are not finished and Abby is again thrust into a life and death situation in which she emerges to another new reality. Was everyone and everything around her just an illusion? And would she survive it?

I knew this was the first in the serial so I was prepared for the cliffhanger ending. What I hadn't expected was such an explosive and intriguing end to this debut novel. The writing style was interesting and had a unique flavor which I enjoyed. The main characters, as well as the secondary ones, continued to evolve throughout the chapters as the story's point of view switched between Abby and Evan. Amy, Abby's best friend, is that girlfriend we all want to have – one there for you through the good and the bad. And Amy was up to the challenge as Abby faced so many highs and lows. While the first part of the book did seem to lag slightly the tempo quickly picked up until I thought the story was racing along almost too quickly. I did not want it to end so I tried, unsuccessfully, to read slower. Assumptions made at the beginning were totally turned around by the end. The author kept me reading each sentence for any new clue or nuance, any hint to which way the story may lead. I really don't know what is to come in the next book but I can't wait to find out!

***** 4 Oblivion Stars *****

After reading the blurb, I wasn't sure what I was getting into. I thought it was going to be an easy romance, but I was wrong. **His Angel** had some mystery, suspense, and darkness.

Abigale lost her twin sister in a car accident and is going through survivor's guilt. She feels absolutely broken. Her boyfriend also left for Brazil and never came back. No phone call. No email. Nothing.

Evan is a man with many secrets. He's been watching Abby for years. From a distance, he fell in love with her innocence, beauty, and kindness. If he wasn't so handsome and wealthy, I'd consider him a stalker. But because he's hot, it's totally okay.

Anyways...

With perfect timing, Evan inserts himself into Abby's life. Their relationship is so hot... it will fog up your bathroom mirror. But all the secrets become an issue that the couple need to tackle together.

On to the 2nd book!

~*~ Obsessed by Books arc given in exchange for an honest review ~*~

Where to begin...this is a full on read. I did not put it down until I had finished and now I'm disappointed as I can't continue the story. I need the other two books, but I get ahead of myself.

Abby is "His Angel," tragically being the lone survivor of a car accident that took her twin she has fought the encroaching darkness grief has left within her. Guilt at being the one that lived tinges her day to day thoughts and makes her cautious. Recently deserted by her enigmatic fiance Marco she is trying to find her place in the world. Decisions to follow her dreams and be a writer, risking being disowned by her Father or becoming a doctor to be who her sister was destined to be. Abby is naive to her own beauty and her blind to her inner strength.

Amy her bubbly, take no prisoners BFF, waltzs back into her life and is determined to make Abby see there is more to life than Marco. Amy is Abby's rock, supporting her and giving her the push she needs in tough times. She adds much warmth and depth to the story. A casual set up gives Evan the opportunity he's been dreaming of...

Evan...phwoarrr! Sorry got lost in a day dream of him in his snug t-shirt, rippling muscles, piercing blue eyes...awww I'm drooling again! Have I mentioned his dimples!?! Ok so you can tell I'm team Evan. The man is dark, in control and has some demons travelling on his back. Fighting between his secrets that he knows will tear his Abby apart and his all consuming love for her we watch as fate takes the decision out of his hands.

This is more than boy meets girls, insta lust then a happily ever after after a few bumps along the way. This story has real twists and turns, undercover agents, bad ass sidekicks and a Cartel or two. There are some dangerous characters that have been introduced and I fear we will see more of them in the next book. The secrets and the lies all begin to unravel and ultimately this is just the beginning as Ethan provides her with the devastating truth.

A powerfully written, suspense filled read that left me breathless and needing more. I fear the flames of destruction are only going to burn brighter in the next one...but I can't wait to find out!

A 4.5 star read.

**Thank you to the author for giving me an eARC in exchange for a honest review.*

This is the one book that I have been wanting to get my hands on way before its release! The synopsis itself makes me wonder just how much pain and suffering Abigale Hayes went through if the secret Evan holds could destroy her!

Can I just say, His Angel is one of those novel that will make you cry, cry and more crying at the end?

HIS ANGEL LITERALLY JUST TAKE MY FEELS SO HIGH UP AND SHOVE IT BACK TO ME BY BOMBING MY FEELS!

(I'm aware that sentence doesn't make much sense but that's what happened to me...*wails*)

Oh god, the pain Abigale goes through is just too much. She makes me feel so much and that doesn't usually happen to me. She is so broken inside but no one sees it and it just pains me to see how she is able to hold up the façade!

Of course, that's where dear hotness-god Evan Young comes in. They're both attracted to each other and **OH. MY. GOD. THEIR. BANTER. IS. MY. LIFE.**

Literally. His Angel is just too much for me to do anything else except to continue reading!

THAT ENDING THOUGH.

I want to punch something.

One of my favourite quote from Evan, “She is my Angel and this is my heaven”.

THIS QUOTE MAKES ME WANT TO CRY. Even more so at the ending...

MORE WAILING AND SOBBING

Highly recommended for readers to get a box of tissues and some soft ground in case you want to roll over your feels after crying!

Oh wow. This is so not what I was expecting. I can't even say what I was expecting but it certainly wasn't this heart squeezing story.

Like most of my reviews I refuse to go into the storyline. I feel you need to jump into this blind and experience this read. I started this book last night. Finding it a tad slow I put it down and went to sleep. After doing some housework I picked my kindle up & settled down with a coffee. Although it took a bit to get into its so worth it. Looking back now I felt the author teased me slowly then threw me into the pit. When secrets started to unfold... Oh and that twist... Seriously I felt as if my heart was gonna bang out of my chest. I was literally gripped to this story. Actually I wanted to jump into my kindle and eat the words like Pac Man.

Can you see I loved this book lol I thoroughly loved it. But what an ending!! I'm not keen on cliffhangers. I prefer to know that the next book is out soon but can't find any date except coming soon. So please author I'm hoping your busy writing as I NEED book two now:)

Cathy Guadagnino dotson says

This story was absolutely amazing. I received a copy of this book in exchange for an honest review. I was hooked from the first page.

This story is full of mystery, tragedy, suspense, drama, love, and heartache. For a debut novel Kimberly Blalock is off the hook. I hated to go sleep not having finished this book. The chemistry between Evan and Abby is pure.

Abby is a 22 yr old young woman who is broken. She lost her identical twin when they were 16 in a tragic accident that took her from Abby. She has tried to get over it but is so guilt ridden that she thinks that she is the one who should have died. Then her boyfriend/fiance leaves her and goes back to Brazil never to be heard from again.

Her best friend Amy comes back to town, she talks Abby into a night on the town where she meets Evan. She knows from the first look at him that he is different. She knows he will affect her like no one has before. She falls in love with him, but his secrets tear her apart.

Evan has his demons, but has been in love with Abby since that tragic night that took her sister. Evan's love for Abby is pure and powerful. He loves her hard, so hard that she is the air he breathes. He will do whatever it takes to keep her safe and happy, that is why he keeps his secrets. For now. He also knows that Marco and friend Donovan are going to try to use or hurt her. Not OK with him. End of!!!

Abby is hit by a car and wakes up with out any memory of the last year. She has no idea of her relationship with Evan and he is heartbroken. Will she remember the love they have for each other. Constantly asking him to leave her alone, he does. Leaving him crushed and broken.

Will she remember you will have to read this amazing story to find out what happens.

I received an arc from the author in exchange for an honest review

I wasn't sure what to expect from this author, this being her debut novel, but DAMN!

The beginning is a bit slower but I don't think that's a bad thing. It sets up the story and what a story! Secret, lies, hidden agendas...it's like an episode of Revenge!

The characters are well developed and Abby is a doll. I heart her! I wasn't quite sure what to make of Evan at first but now I want to lick him. He's so hot. I'm not sure if that was intentional or not but I love that there was a sliver of doubt with the hero. It heightened the suspense.

The only spoiler you will get from me is that there is a cliff hanger. But with this being a trilogy, well, I was kind of hoping everything wouldn't be taken care of in the first book ;)

A solid 4.5 star read from me and I cannot wait for the next book!

Marie's Tempting Reads ARC Review:

His Angel is Kimberly Blalock's debut novel. I absolutely adore this cover. Its sexy, sensual, and oh so intriguing. The book itself was good too. The one thing that I had a hard time with was I thought the beginning was a tad slow and the story didn't pick up till about half way through. But once Evan and Abby meet, the story perks right up and the passion soars high and strong. Add in the secrets, and this story is filled with suspense, some drama, and tons of passionate hot sex and the kind of romance I like in my books.

I LOVED and I mean LOOOOVED Evan! He was what I always considered the perfect man. He is gorgeous, loyal, protective and hotter than HOT!!! I really liked his personality and I truly loved the fact he was really drawn to Abby. I thought Abby was a very likeable character as well. Sweet, kind, leery and of course attracted to the sexy Evan. I could feel the tension between these two from the moment they met. I think Kimberly Blalock did a truly great job with her first book.

I give His Angel a FOUR OUT OF FIVE STARS! Its a great debut novel and is written well with lots of high points in the story and VERY few low points. The passion and tension is strong and there is a perfect balance of romance and suspense to keep things interesting. I HIGHLY recommend this book!

Erin Paige Bixby says

WOW! Just WOW! I have to say, for this to be a debut novel, I was left speechless! The story was amazing. I did think it started a little slow, but it more than made up for it by chapter 4. I love the complexity of this story. There is suspense, drama, twists and turns you don't see coming, and lots of passion. Of course being Book 1 of a trilogy, it has a cliffhanger. And what a doozy it is! I can't wait for the next installment to come out! I love the character relationships and hope to see more of that in the next book as well. I am wishing all my best to this new author and hope to be reading more from her in the future!

ARC Review so stop now if you don't want to read the ***SPOILERS***

Abigale (Abby) is a twin to Addyson (Addie). They are in a car accident on their 16th birthday and Addie doesn't make it. Abby has been tortured by this for years. She feels like she is not able to have a happy life because her twin passed away before she could get her happily ever after. Her parents, both surgeons, move to Colorado and Abby stays behind in LA to go to UCLA. Abby meets Marco, a Brazilian drug dealer (unknown to her), and falls in love with him. Of course, he is just using her and after 2 years together he leaves for Brazil to never be heard from. When her best friend Amy comes back to town, she talks Abby into a night on the town where she meets Evan. She knows from the first look at him that he is different. She knows he will affect her like no one has before. She falls in love with him, only to have his secrets tear her apart.

Evan has loved Abby from afar for a while now. He has just been waiting for his chance. He gets his opening and takes it. There is nothing more powerful than what he feels for her. He will do whatever it takes to make her happy and keep her safe, including keeping his secrets. He knows he has to tell her eventually, he just never expects it to happen the way it does. He also knows that Marco and his buddy Donovan are going to try to use or hurt her. He is not okay with that.

When Abby gets hit by a car and wakes up with no memory of the last year, he is heartbroken. She doesn't remember him or the love they feel for each other. When she asks him to leave her alone, he does. He knows that she deserves way more than being lied to. He doesn't deserve her. He is no good for her. But that doesn't mean that he is not crushed and left desolate. She was everything to him and now he is nothing.

Marci says

Abigale Hayes has not been dealt a fair hand in life. Suffering from PTSD, due to the tragic loss of her twin sister, abandoned by her fiance, the so called love of life, and expected to walk in the shoes of a dead person, to satisfy her father's emotional suffering and high expectations, she lives her life mundanely. That is until her best friend Amy comes back to town and she spends a night on the town with Amy and her main flame, Dom. So that Abby doesn't feel like a third wheel, she is introduced to Evan, and there's an instant connection. Maybe that's because Evan already knows Abby very well. Their connection derives from tragedy and dark secrets.

STORYLINE... 5 books

Great story line, filled with passion, sentiment, action and surprises. Just when you think you can predict where the story is going, it takes a turn.

CHARACTERS.... 5 hearts

Abigale/Abby's character is so lovable. You cannot help but to want her to find happiness, because of the life she's had to live before meeting Evan. It seems like she lives on edge just waiting for the rug to pulled from her at any moment. There were moments in the book (actually, the last third) of the book) where I found myself reading through tears, feeling awful for her character's situation.

Evan is dark, strong, sexy, protective, and an insatiable "DIMPLE DESTRUCTION." He's your typical ALPHA. His love for Abby runs deep, deeper than she could ever imagine and when it taken away from him in an instant, in the hospital, your heart just bleeds for him. It seems like every step he's taken to be closer to her means absolutely nothing (at least to her). I want to reiterate the fact that I read the end of this book through tearful eyes.

SEX/SCENES OF INTIMACY - 5 drippin' wet panties

Evan certainly brings the heat, in more ways than one, end of...

5 STARS and an amazing start to a series. Bring on Book 2!

Amazeballs Book Addicts says

I was very honored to be asked by Kimberly to read and review this book. As with all new authors, you never know what to expect, but I was very pleasantly surprised by this book. The two main characters, Abby and Evan, are written amazing. I instantly liked Abby and felt for all that she had been through. Losing her twin sister, Addy, in a car wreck, a hit and run no less, has ripped her apart and made her basically live in hell. She has a "relationship" with Marco, who up and leaves and she has no idea when or if he will ever come back. Then her comes Evan, who is friends with her best friend, Amy's boyfriend. They instantly have a connection and you feel that in spades on each page. It was like I was sitting right there in the room with them and could feel the electricity. Evan is every woman's perfect man. He is fierce and intense, majorly protective and all alpha and makes no bones about the fact that he wants Abby and will do anything and everything in his power to make her his forever. I mean really what woman doesn't want that, right?

However, there are secrets that he is keeping that threatens to tear them apart. This book really had it all for me. It was full of steaminess, intense ups and downs, with a few twists and turns. WARNING....This book ends in a cliffhanger. I am one of those people that usually says, "if the next book isn't out yet, I don't want to read it yet" but for some reason this book said "READ ME NOW" and I am so glad I did. I NEED the next book ASAP to find out what happens next. This series is going to be a reread trilogy for me for sure. Really, really enjoyed this book. This is an easy rating for me with 5 AMAZEBALLS stars!!!!

Helena Rizzuto says

What a whopper of a book. Mystery, heartache, intrigue, bad ass secondary characters, one HAWT hero, one very sexy and like able heroine. Could you ask for anything more? How about yes! Give me the 2nd book!

Abby is dealing with the death of her sister, and the survivors remorse. It's reasonable. It's honest but her world is about to be turned on its axis and everything she knew or thought to be true... Isn't

Evan is hot. There's no getting around it. But he's also full of secrets and has one whopper of a secret. His world is very much entwined with Abby's... And it could be his downfall, again.

These two are scorching hot together! While this isn't an overtly sexual book, it's there. However, my biggest draw on this book is the unexpected twists and turns and the very well written complications in this book. In what I likely my top mystery romance read of this year, hats off to the author! I downed this book hoping to see what else could possibly happen. Kimberly nailed this book! She's managed to take all of my favorite genres of a book and put it into one book! I can't wait to read book 2!!

I received a copy of this book in exchange for an honest review.

Abigale (Abby) and Addyson (Addie) are twin sisters with both parents being successful surgeons. Both girls are sort of expected to go into the medical field, which for Addie is no problem as she wants to find a cure for cancer (bless her heart), but Abby has dreams of her own. She wants to become a writer.

One night all their hopes and dreams come to a crashing halt when the girls are involved in an accident, it ends tragically. Addie dies leaving Abby shattered and devastated. Abby can't face starting the medical program without her sister and finds herself an job as a "newbie" journalist, unknown to her parents. Abby's attitude saddens me though she feels her parents will disown her. I hurt for her parents, she shouldn't underestimate them.

Abby has also been dating Marco, a Brazilian, they were engaged actually. He leaves for Brazil and she hasn't heard a word from him in months! What a douche! He's a shady character if you ask me, hell's bells, who just up and leaves his fiance and never makes contacts!? Good riddance I say!

Abby's life isn't all doom and gloom though. Her bestie, Amy, is coming home from school. Amy is a real live wire and brings Abby out of her shell a bit. She's a good friend and very patient and understanding. Amy is dating a fellow named Dominic, and of course, he has a friend that's lonely and so they go on a "group date". Abby's life is about to change, drastically, when her path crosses with Evan!

Hell's bells! Evan is pure kryptonite! A delicious speciMAN! ".....lean and muscular....Dark, unforgiving tousled hairbright blue eyesdimples on either side of his cheeks.....perfect amount of dark stubble....fabulously hard muscles pulsinground bottom and thick muscular thighs". OMW! This man is a god! As if he hasn't won me over already, he seals the deal when he comes to her rescue when she attracts some unwanted attention from a real ass!

Evan has the upper hand though knowing more of Abby than she does of him and also he's had feelings for much longer. He has secrets that could break Abby in more ways than one.

Evan takes control in so many ways, and the first time he ties Abby up, I feel like I'm intruding on their very intimate and private moment. Yes, there is pleasure, but for me it was so much more. By Abby giving her control to Evan, it felt like she was letting go and learning to heal and trust. Evan may be a hunk and a hulk of a man but he has a soft, compassionate, patient, and loving heart when it comes to Abby. I find myself both crying and laughing, crying because what they have is so real, raw, and honest, and I'm laughing because trust me to reach for the Kleenex while there's passion and erotic scenes going on!

Secrets have a way of catching up to you. Evan and Abby have made mistakes along the way, but they belong together, they're soul mates with an undeniable chemistry that's been there from the very beginning!

A very tragic incident takes place and very nearly rips Evan and Abby apart. It was no accident that's for sure, and I've my suspicions as to who the culprit is.

The last few chapters render me an emotional cripple! I can't wait for the next installment!

Another shout from the rooftops 5 bomb read!

Secrets, love, suspense, heart break and much more is waiting for you between the pages of His Angel. The author will take you on a ride that will leave your head spinning by the end of the book. It is a cliffhanger and WOW what a cliffhanger it is.

I found the first half to be a bit slow with getting Abby and Evan together, but by midway through the book, the slow pace had been forgotten because once the author flipped the switch, the action began and the secrets started to spill.

Abby had a twin sister who died when they were in a car accident during their teen years. Abby has tried to move on in life. She went to college to fulfill her sister's dream of medicine but her heart was really in journalism. She met a man, had a two year relationship with him and then he suddenly disappeared from her life. Protecting her heart and struggling to find a reason to look forward to the next day, she agreed to go out with her best friend who just returned from college. This is where she will meet the sex God named Evan.

Now I can't go into much detail because I won't spoil this book for you, but Evan has known Abby for a long time and he has wanted to be her man since he saw her. The secrets you will learn, are what kept him from her, but now the road is clear and he can move in to not only love her but protect her from the danger she will soon face.

The ending of the book was unpredictable for me. After all Abby has strived for in the last year, the love she was beginning to find with Evan, it is all wiped out in a few minutes. We see the angel Abby become more in touch with the demon that has begun to grow in her fueled by the truth she just learned, revenge, anger and years of pain due to the loss of her sister.

Grab your copy now and buckle up for the second book My Demons.
