Kids Are Turds: Brutally Honest Humor for the Pooped-Out Parent Jenny Schoberl

When do you know for sure that you've become a parent? For Jenny Schoberl, it wasn't when a human fell out of her lady parts or the first time her baby said "Mama." It was when she found herself, a grown woman, hiding in the bathroom to eat a candy bar, just so she didn't have to share.

Parenthood changes people's lives in horrifying and inevitable ways. No matter how hard you resist, you soon find yourself being *that* parent far too often to deny it. It won't be long before mom jeans and minivans are calling your name.

Discussing bowel movements over dinner? Guilty. Peeing with an audience? Check. Grocery shopping alone? Sounds like a tropical vacation! Watching cartoons hours after the kids have gone to bed? Now your only hobby!

What do you do when motherhood turns you into someone you hardly recognize? When you open your mouth and, holy hell, *your* mother comes out?

Kids Are Turds proves that you don't need to be Super-Mom to be a "good" mom (whatever that is), but you absolutely do need a sense of humor to get through the hard days. Either that, or you can give in, yank up your mom jeans, and rock a mile-long camel toe. So for the love of retinas everywhere, *be strong!*

This book is not for first time parents whose children are younger than 2. That's just my opinion. It's also not for those who don't like crass humour and/or searing. I'm actually one of those people which is why the book is not rated higher. I like to laugh about parenting too but I can do without all the constant crass and unfeminine words and the constant poop talk.

However if that's more your style, I'm sure you'll find the book extremely hilarious. The stories are funny and relatable (since I have 4 kids at home.)

Here are some story titles:

MINE is a 4-letter word
How My Vagina Birthed a Nudist Colony
I Hope You Step on a Lego
One Bin of Baby Sh&t Away From an Episode of Hoarders
Oh My God, I AM My Parents!
Unless You Are Dying, Do NOT Bleed on My Carpet
The Poo Whisperer

If you have multiple kids you can probably relate with some of those. Unfortunately those are the nicer titles. The book is a bit too crass for me.

This book is so funny and relatable! Have you ever hidden from your kids because their superhero hearing heard that candy bar wrapper through the tv blaring from upstairs with their door closed? Yeah.. This puts parenthood into terms I could relate to. I laughed so hard!!! Funniest parenting book ever! Definitely worth the read!

My daughter asked me the other day what I was reading.

"A book I should not have started," I answered.

I mean it, and I will tell you the same answer if you are asking about a humorous book on parenting.

And in case you want to find a better (much much much better) one, listen.

I would recommend Carry On, Warrior: Thoughts on Life Unarmed by Glennon Doyle Melton.

Truthfully Hilarious

Jenny tells it like it is! It's nice to know that all of the crazy things that happen as a parent doesn't just happen to me! Thankfully she is brave enough to share with the rest of us the wild world of parenting so we know we're doing ok. Parenting is not easy and she lets you know that your not alone in your thoughts and feelings about it. Thanks again Jenny for making me feel better about parenting! Another great read!

remind me again why people choose to have kids?!
