Look But Don't Touch Cara Dee

Nicholas Ford, a successful club owner in his mid-thirties, decided a while back to deny his Daddy nature in order to follow his family's advice and settle down. The day before he is to attend his girlfriend's sister's wedding, he makes an appearance at his BDSM club and runs into Kayla, a bubbly Little Girl who captures his undivided attention. Look but don't touch, Nicholas tells himself. What he doesn't know is that Kayla's in town to go to her cousin's wedding...

Steelwhisper says

Whether erotic romance or erotica, I have to root for the main characters. I don't mind secondary characters being arseholes, cheaters or worse, but if I need to "slip into" a character to enjoy the story, then this character had better behave in a manner I find acceptable.

I do not find cheating acceptable. Especially not in a romance, because cheaters never change. Neither a HFN nor a HEA are plausible, because the cheater will just go on cheating on the new partner, immediately or eventually. Nicholas cheats like a prime arsehole. He still is very much in a relationship while he has sex (this can't even be called "just scening") with a stranger at a BDSM club he owns. A stranger whom he falls for in instant lust. This is worsened by the fact how his girlfriend is painted a "bitch" by him and the author, while Nicholas actually is the fecking arsehole who engages in a vanilla relationship - knowingly! - and then gets disgruntled with Amanda for being simply what she is. A vanilla girl with vanilla dreams of a marriage, children and a loving husband.

At this point I call this out as massive kinkster-shaming and BDSM-shaming of the author. Few kinksters I know will enter a relationship when they know 100% that they are and will stay unsatisfied with their vanilla partners. Consent, sanity and safety extend to the vanilla partners as much as to playpartners. The done thing is to inform the vanilla partner and back off if they are not agreeing to play-relationships on the side.

Amanda didn't have a figment of a chance to consent: she doesn't even know Nicholas is kinky himself. She doesn't know he cheats while at the club, whether just mentally or actually. He didn't even tell her that he owns the club for a reason other than making money. And at the end he shut her out of his flat without even finding the backbone to tell her about it. What a fecking louse! And I am supposed to root for that arsehole?

The writing of this story is quite askew. Nicholas voice was curious. Not just that the book was written in present tense first POV, which screams "bad fanfiction" loud and clear, he also sounds very much like a woman having quite female-centric thought processes. Which is, well, curious in a guy. There also was quite the typical, lazy "erotica-speak" (my inner beast, ghosting hands, ...) which current betas and editors appear to be tone-deaf about, and so sorry, but a vulva can't be soaking in juices while submerged in a jacuzzi. No way, no how.

The story moved far too fast, from meeting to casual sex to wanting to marry, and missed out on basic sex-ed and precaution/prevention right along with it. I don't know many SSC BDSMers who don't use dental dams and condoms, or who would engage in sex without even asking about the STD status. Which made the protagonists utterly stupid buggers.

Lastly, I found it rather funny that the author relegates fire and blood play to the edgeplay activities without acknowledging that in many BDSM communities Daddy/Little play is regarded as exactly that and not even rarely frowned upon. There are enough kink-friendly psychiatrists and therapists even who closely scrutinise

DD/LG-play as potentially overstepping the linear reach of what can be and is being considered a harmful fetish. Not all kinks can or should be exploited as handy plot devices for mass market erotica, at least not without awareness of the inherent problems.

So, not positively taken with this story and not recommended.

Kitten Mercer says

3.5 Stars!

This short novella was by far the naughtiest Age Play/Daddy book I've read. Really enjoyed this. If you're looking for a quick, steamy, angst-free book to read in your spare time, look no further! Daddy/little girl kink, smexin' oral, hot bathtub-sex action, bunch of dirty talks, etc.—this novella has it all!

The intimate scenes were very descriptive and Filthy with a Capital F, definitely worth ~~masturbating~~ for.

Warning, explicit scenes ahead!

At one point, this happened—

"You want Daddy's cock in your greedy kitty."

"But it's so big," she whimpers. "I don't—I'm not sure..."

I tsk her and drag my erection along her soaking slit. "Now you want to change your mind?" I chuckle darkly, pushing the head of my cock inside of her. I stifle a groan at the sensational feeling. "I'm afraid that's not how it works, sweetheart." Another inch. She grits out a moan.

"You've teased Daddy, and now he wants this."

I slam my cock inside of her, causing water to splash around us.

Kayla cries out.

I moan and let my head roll back.

—without using *protection* whatsoever. And then throw in a little bit of cum play scene, too.

Thrusting shallowly and impatiently into her tight pussy, my climax takes over, shooting through my entire being at a lightning speed. A strained groan slips out. My fingers dig into her flesh; I go rigid. Pulsing streams of come stroke her inner walls which creates a sloppy sound as I fuck my way through one of the most spectacular orgasms of my life.

Yep, they did it totally *bare*, and it was only their second encounter seeing each other!

My only complain is that I wish this was turned into a full-length novel. Nicholas and Kayla have a chemistry so strong you could feel it while indulging in this book. I only wish we get to read more of them together. I want to see them grow as a Daddy/little girl couple. The readers would have probably enjoyed this

a whole lot more if that was the case.

That said, I'm not ashamed to say that I liked this book. A lot.

If you're worried about cheating or any sex with OW, there's absolutely none in this book. However, the hero did have a "vanilla relationship" with a woman his age in the beginning of this novella, one he didn't love at all. He didn't officially end things with her though throughout the book, but there was *zero* feelings he had toward her.

There were also mentions of his intimate pasts (D/s relationships) with other women he also treated as his "little girl" but it was just that, there were no emotional attachments/feelings involved whatsoever. At the age of thirty six, he never thought about settling down with anyone. Until he meets Kayla, and all tables have been turned.

Michelle says

Wow!! Now that's a quickie before bed!!!

Mirjana **DTR - Down to Read says**

Um, whoa! Note to self: read blurbs more carefully and don't jump on a freebie like an ebook slut. This was not what I was expecting. Totally my fault and not the book.

Mercedes says

This was a quick smutty read about a DD/lg couple. It was well done but it was shorter than I would have liked. There was definitely an interesting plot, it was just way condensed in this short novella. I think the condensed plot would have supported a longer story had the author wished to write one.

The encounters between Nicholas and Kayla were hot, some of the terminology used in a DD/lg relationship is a bit weird for me but regardless, it was an enjoyable quick read. I would definitely check out more stuff from this author, I would be particularly interested if this story was expanded.

I read this as part of my Kindle Unlimited Subscription

? BookAddict ↗ La Crimson Femme says

Short, sweet and adorable, just as age play little girls can be. This is a nicely written ageplay with a little girl looking for a good Daddy. It's romantic and embodies the parts about littles and Daddies I enjoy. There is no humiliation in here. Instead it's good relationship developing that I could read more about. It's way too short. Where's the rest of it? I do like that there is no drama with the break up which the reader had to sit through. It does however leave the story feel a bit unfinished.

Amy Spector says

Have you ever gone to Disney World and come home with a Mickey T-shirt that a few weeks later had you wondering what the hell you were thinking?

Yes? No?

Have you ever read a kink book that for at least a little while had you thinking *That's for me!* ?

I guess I was kind of hoping for that.

I'm actually torn about rating this one at all. I knew going in that it would take a great deal of character development for me to embrace the *Little* thing and this is a short read. A very short read. And in a world where most readers what sex, this instant, now, we all know the shortcuts that sometimes need to be taken. Add to those things the fact that this book looks to be Cara Dee's first? Well, good lucky honey.

(view spoiler)

All said and done, I'm not throwing the idea of another *Little* read completely out.

I think maybe this stories just needs to be read with its sequels and judged as a whole. And since I'm not opposed to maybe doing that in the future, that probably says something.

Meret Punk says

3 stars :(

When I started this book, I didnt know what I was getting myself into xD..

I just really liked this book's name, and when I realised it was short, decided to read it right away xD..

I really enjoyed the begining of the book, when Nick talked about himself and when he met Kayla.. But then I dont know what happened, I wasnt enjoying it much as the pages went by..

And I dont think I will be reading the rest of this series soon :(..

jenTed says

Loved it!

That is all :)

And loved it just as much the second time too!

Val Shameless ?? Steamy Reads ?? says

So I should probably be embarrassed that I liked a book where the H wants to be called Daddy and have his partner pretend to be a schoolgirl with a "kitty."

But I'm not.

In fact, I learned from this book that there is a whole genre dedicated to this age-play thing and I have already found my next ~~completely inappropriate smut fest~~ research project.

Toodles!

Angela says

I really liked it, I did. Nickolas was Uber Alpha, to me and soooo hot. Yes, I found him HOT!!!

I usually get so pissy with these type of stories because the girl is always overly bratty and I can not stand reading page after page of overly bratty girl. Having said that, this story is so NOT that! Well except for Amanda, Nickolas' current girlfriend who ends up being a nasty person but, she gets what she needs in the end....promise!

Then there is Kayla, she is a sweet girl who deserves to find a man like Nickolas. You know there is a HEA but, I wish there was just one more chapter to take me just a little bit further.

J. Kahele says

Well!

That was most definitely the hottest short I have every read. Forty eight pages of raw, unadulterated, heavy doses of smut!

warhawke says

Genre: Erotica

Type: Standalone Book 1 from Touch novella series

POV: First Person - Male

Rating:

Nicholas Ford was being pressured by his family and girlfriend to settle down. He wanted that but not in a way everyone had in mind. After leaving behind his true nature a few months earlier, his other side was desperate to come back especially after meeting a perfect Little Girl.

Kayla Brandon was the black sheep of her family. Being different from others made her wary about being what naturally came to her. She wanted to be taken care off and be free of decision making. Luckily, someone was already waiting to take the role.

I haven't read a lot of DD/lg kink, but this one is definitely my favorite. It was fun and sexy, without being too... weird.

What turns me on the most is a girl's submission and her vulnerability. I have a need to be in total control: to protect, to possess, to care for. Affection is very important to me, both giving and taking.

Nicholas seemed like a good Daddy. He was caring and stern enough without being too much. I could work with someone like him lol!

"Oh, Daddy." She looks away, embarrassed, and that giggle comes out as a squeak. "Why are you touching my girly parts?"

Kayla was adorable. The big part of me liking her instead of being annoyed is because she wasn't some naive innocent girl. She had it in her and expressed it through role playing.

*"Um..." I'd say she's noticed my erection now. "What's that?" A shiver runs through me.
"Unzip and find out. It's best if you get down on your knees."*

The story was simple and for a short novella it was enough. I just wish for a little bit more of the characters' background.

I find it slightly disturbing that I'm liking the DD/lg dynamics more and more each day. But rest assured, I'm not hanging up my red riding crop anytime soon. Besides, I can always be the Mummy hahaha!

Note: This book made me giggled like a Little Girl lol! :p

CasPerfitz~SLiTsReaD says

I just finished reading this.... It's really a short read and I gotta say I find the terms/lines they use kinda funny... like :

"And now your kitty's all needy and achy?"

"Tell me, where do you want Daddy's ****?" "In my kitty," ...

lol... here kitty kitty, lol...

But it's hot if you're into Daddy/Little girl rule play AND it's a short read!
