Me & Mr. Write

Cassandra P. Lewis

Me & Mr. Write Cassandra P. Lewis

After a whirlwind romance, Rosie & Jackson are in love, engaged and ready to create a life together...

Or are they?

Rosie still has some trust issues and now Jackson has to return to Thailand. This doesn't help her insecurities, but she's willing to fight her own demons for the sake of their relationship.

Jackson has some of his own fighting to do, however, when he's faced with an old flame, who has set her sights firmly on rekindling their fire...

The rocky road to happiness continues as Jackson tries to learn how to be in a relationship, and Rosie tries to learn how to fully trust her feelings, and the man she loves.

Nellster says

Good read as I was dubious because I couldn't see where the book would go after book one but enjoyed this and getting to know the other characters better. It's not intended to be a deep book but neither is it flighty. Good solid read!

Tara Marie says

Wow I really hate cliff hangers!!! I hope Rosie and Jackson fix the issues between them but I can't wait for the next one

Kathy Coopmans says

I believe you will live the continuation of Rosetta and Jackson in this book. It has a lot of emotional roller coasters. Their relationship has its ups and downs as Jackson loved Rosetta but struggles with being in a relationship as he has never been in one before. And the cliffhanger at the end begs you to want to read the third book.

Sparkling Pink Bookshelf says

I was looking forward to reading this book after devouring Meeting Mr Write! It lived up to my expectations, which I find can be quite difficult in a sequel.

Rosie's and Jackson's relationship is full of ups and downs and keeps the reader enthralled throughout.

Jackson really loves Rosie but he does seem to be struggling with being in a long term relationship as he has not been in one before! I like the way that Jackson is not afraid of admitting that he has been an idiot and backing down in an argument.

Cassandra Lewis really keeps the reader hooked with the emotional rollercoaster and also the cliff-hanger at the end of the book. This really makes you want to read the third instalment, even though without the cliff-hanger you would still want to read it as you just need to know what happens to Rosie and Jackson and will they get their happy ending!

As with Meeting Mr Write, I have recommended this book to my friends as I believe they would enjoy the journey of Rosie and Jackson!

Stacey Medak says

Wow, can this series get any hotter? The Author has continued the steamy scenes and the emotion that is built up in the moment. I love how Cassandra writes with passion and you feel like you are in the story with Rosie and Jackson. You just love her whole family and how they all interact with each other.

I did think it was a little awkward when Rosie went to meet Jackson's father and he took her out. Running into old flames that never thought he would settle down. I think I would start questioning things. I mean we all know Jackson was a man whore, but does it just stop like that..I would probably have it in the back of my mind...especially if I was previously left at the alter...but we will see...

OMG...my emotions are all over the place. One minute I am loving this and excited, but then the next minute I am pissed and want to kick Jackson in the balls! What a freaking roller coaster ride. I don't think either one of thought this was going to be an easy ride...I am excited to see what happens in the next book and see how the story ends with Rosie and Jackson! NEED to Read BOOK 3!!

Jennifer says

This is the second book in The Mr White Trilogy. Will Rosie and Jackson both find what they are looking for? Cassandra again got me engrossed and lost in this amazing story. Her writing skills are superb, you will not be disappointed!

Lydia H says

I freaking LOVED this sequel! It had romance, passion, angst!!!, delicious sex scenes, and even moments where I wanted to throw my Kindle against the wall!!! And holy crap.. That ending!!!!??? I-NEED-BOOK-THREE-NOW!!!

This is a definite must read!!!

The characters were even more amazing. They developed perfectly through out the story line. There were secrets revealed from Rosie's past, and if I thought she was a strong person before, hell.. She impressed me even more after reading this book. Wow.

Jackson was very swoony.. a true romantic, protective of Rosie and very alpha-male-like. Simply yummy!!! BUT..... I have to say, every time I felt like throwing my Kindle against the wall, it was thanks to him!!! There were moments I found myself hating his guts!!!

This book had a lot of page-turning moments where I simply, for the life of me, could not stop reading!

I really need the third book! Dying to know how Jackson and Rosie's story ends!!!!

5 stars!!

Angela Fristoe says

Please either hire an editor or take another read through before self-publishing. The constant lack of correct punctuation or even ANY punctuation was a complete distraction. Every time I saw dialogue cut off with no period, question mark, or comma, or when I came to a paragraph ending in a comma just made me wonder why I was spending time reading a book the author didn't even want to read a second time. I have a very high tolerance for errors in self published works, but page after page of the same errors just doesn't pass. There are a lot of good reviews for this and yes, I could see some potential in the plot and characters. That said the lack of editing just drove me nuts.

H.J. Bellus says

How dare you???? This book made me fall even more in love with this series!

Philomena Callan Cheekypee says

This is book two in the Mr Write Trilogy. Make sure you read these books in order to get the most out of Rosie and Jackson's story.

I couldn't read this book fast enough. The twists just kept on coming and had me gripped.

Really great well written emotional roller coaster of a story. There is a cliff hanger but I'm not complaining as book three is already out. Loved it.

Claire Pengelly says

WOW..... I was getting really impatient waiting for the arrival of this book but the wait was well worth it!!

At the end of book one Jackson and Rosie are together but boy does that change in book 2 with ups and downs, like you get with nearly every relationship but this relationship proves harder than others when this is Jackson's first so he has alot of readjusting to do.

I love this book from start to finish and was very impatient for Marrying Mr. Write as soon as i was finished with Me & Mr. Write. I very much recommend this trilogy to everyone because i believe it will draw you in like it has done with me.

If reading the Mr. Write Trilogy is a drug then i am addicted and its not one addiction habit i am ready to kick any time soon. Love them all, Big Thankyou to Cassandra for writing these for us to read :D

Lyndaa says

A good romance story but I was surprised at the sudden ending. Hopefully I won't have to wait too long for the third book in the trilogy.

Natasha says

When "Me and Mr Write" ended it was so wonderful and I wonder what could book 2 possibly be about? They are together, all should be well, right? Every relationship has its ups and downs and this one sure has them too. Everything is still new and Jackson and Rosie, they maybe in love but they have a lot to learn about each other. In this book we learn more about the characters, about their pasts. Rosie hasn't always had it easy, she had things to overcome, not only from her lack of luster relationship from Michael, but also from when she was a teenager. Jackson's still learning how to have a normal relationship with one woman and how not to mess thing up and root back to the old Jackson ways. We also learn about his past his love for mom, and the women... or one in particular Sasha, I didn't not like her at all from the moment her name came up, I knew trouble was coming. This time I found myself wanting to smack Jackson a lot. I screamed "NOOOO!!" and "Be honest Jackson!! Tell Rosie!" You know I really love a book went I start talking to the characters. I get sucked in and I love it. Oh but that Sasha really pissed me off, my heart broke for Rosie, once she found out what happened and what she did to Jackson and how he went to go see her. I don't want to give any spoilers so I won't say what happens, you'll have to read it to find out. Even though Jackson had me screaming at him, I love his alpha-male-like ways, he's a true romantic, very protective of Rosie, sexy and yummy, so it's hard to stay mad at him. In this book Rosie and Jackson are really being tested, there are a lot of uphill battles. Rosie is lucky enough to have Pippa, Rafe and Matthew, to give her support. This one even made me cry and even though it was 3am, I had to start book 3.

Some of my favourite parts & quotes:

"I just love you sis, it's more than I could have hoped for that we would be here together like this, both happy and in love with our men by our sides. I'm just happier than I've ever been." I smile and squeeze his hand,

"Trying to get me into bed Alvez?" he laughs and I blush when my family join in,

"Yes, because its half one in the morning and you're drunk. Shift it James, upstairs!"

"What are your plans then Mr James? Lock me up so that I can't run and then ravish me all weekend?" Rosie is playful as she turns to face me and takes her coat off. The yoga trousers are back and all of a sudden the ravishing sounds like a perfect idea.

It's a gorgeous sunny mid-April Sunday morning as Rosie rolls over and smacks me in the face with her forearm,

“Oh god Jackson, did I just hit you?” she wakes with a start and I pretend to hold my nose in pain, “Oh my gosh, I am so sorry!”

Rafi says

This was such a cliffhanger. Everything was going so well between Rosie and Jackson and what the hell just happened??? But I definitely loved the sequel and couldn't wait to get my hands on the 3rd and final book! The author better make sure that the final installment is worth the wait!!! 10 freakin' stars for this book.
