**Nova** Rebecca Yarros

He's got one shot to make it right...

He's Landon Rhodes.

The Renegade they call Nova.

Sinfully gorgeous, broody, tatted-up, professional snowboarder.

They say a girl broke him once--

That's why he's so reckless, so driven, so careless with his conquests.

But *I'm* that girl.

They can call me his curse all they want.

He and I both know the truth--

He's the one who destroyed *me*,

And I'm too smart to let that happen again.

I LOVE second chance romances but I'm not exactly a fan of them when the hero becomes a manwhore during the time he and the heroine are broken up. We previously met Landon, aka "Nova," as Wilder's best friend and a major player. We knew he was hurting from a past relationship and drowned himself in women to ease the pain, but when the truth comes out, it turns out that Landon was the one to break his heart and the heart of the girl he loved. I went into Nova a little wary of Landon because I wasn't sure he'd be able to redeem himself and his past mistakes. I was prepared for the angst and the groveling, and thankfully, Rebecca Yarros delivered just that. If you're a fan of the second chance romance trope, then I would definitely recommend you give this book a try!

My entire world narrowed to the woman standing in front of me. Even my heartbeat stilled in reverence to the moment. How was she here? After all this time, she was close enough to touch, and all I could do was stare at her, like if I blinked she would disappear.

The last person Landon expects to show up on the cruise ship he and the rest of the Renegades are on is Rachel – the love of his life, the girl he abandoned, and Wilder's ex-girlfriend. So messy, right? But Landon sees this as the second chance he thinks he doesn't deserve, but he's taking it anyway. There is no other girl for him but Rachel, and this time he's going to prove it to her and win her heart again.

I was going to win her back. Not just her friendship. Her heart. Her love.  
Maybe I wasn't worth of any of it now, but I could be. I could earn her.

Rachel was utterly destroyed when Landon chose the Renegades over her and their future. She vowed to never let him into her broken heart again, so she would've never accepted getting onto the cruise ship if she'd known he was onboard. Surprised is an understatement when she discovers that she'll be around the boy who abandoned her again. She's determined to stay away and not let him get under her skin, but how can she resist a Landon who is finally fighting for her love and their future?

"I'm not going anywhere. If I have to tell you that a million times before you'll believe me, then I'll do just that. You and me—we're own little infinity. Our forever is wrapped up in everything that's between us."

I have to say I enjoyed Nova just a little more than Wilder. I LOVED Rachel and how she didn't cave easily

to Landon and made him honestly WORK to earn her forgiveness. She's tough on him, and rightly so. My favorite part about the second chance romance trope is when the hero has to grovel and fight to win back his heroine, and Landon did an amazing job of that. I didn't quite love the book as much as I wish I could've though, because I'm still not entirely invested in the Renegades and their story. BUT! I have high hopes for the rest of the series, and can't wait to read Rebel's book!

Nova was a wonderful, entertaining and page turning read. And I loved it!

In Nova, Landon gets his second chance with the one girl who's ever touched his heart, no slash that, the only girl who's ever owned his heart. The girl who takes his breath away, the only girl who can see past the all flirting to see the real Landon, and not Nova (Casanova) and the one girl who just gets him. Now, if only he can make Rachel forgive him for the way things ended, for breaking her heart and trust in him...

I loved Rachel, she was such a wonderful, entertaining, honest, passionate character.

From the first few pages I connected with her. I got her pain, never once did I feel like she was over stating things. This girl had loved him unconditionally and while she may come to forgive Landon for what went down in the past, trusting him again with her heart won't be easy.

And nor should it be, just saying lol

I loved watching these two reconnect, they made me smile, they made me laugh, they made my heart hurt and they made me swoon.

And then there was their chemistry... O.M.G talk about HOT!!!

Rebecca Yarros is a talented author who has once again delivered a beautifully written and heartfelt storyline with captivating, endearing characters that will take you on a emotional rollercoaster while getting to their happily everafter.

In closing, if you're like me and enjoy second chance romances, then you will love Nova.

*Nova is the second book from The Renegades series, and I highly recommend this book and series.*

I absolutely loved this "second chance" romance. The only problem I had, was that I jumped straight into it, skipping book 1. I think that if you want to enjoy this story to the fullest, you should read book 1 first. Because I didn't, the beginning was pretty confusing to me, which was totally my fault and not the author. Thankfully things started falling into place more and more, the further I got.

Landon "Nova" is professional daredevil, specialized in snowboarding. He is also a 4 times X-Games medalist. Him and some fellow adrenaline junkies, are part of a team, they call "The Renegades".

For 9 months, he and his teammates, along with a bunch of other people, are on a "Study at Sea" cruise. The Renegades are also filming a documentary, capturing their stunts and their live at sea. Landon is a real casanova, fucking around with everything that moves. He is doing this, because he is lost and inside there is a big black empty hole, where the love of his life used to be. They call her "the curse". But he is the one that has been cursed, ever since he left her behind.

Rachel is a beautiful, sweet and feisty girl. She's is also quite broken. She was happy in love with her soulmate once, that is until he shattered her heart into a million pieces.

After some trickery, from another "Renegades" team-member, the both of them are stuck on the same cruiseship for the next 6 months. They will have to come face to face and confront their pasts.

They never got over one another. But where Landon wants to make amends and get back the girl he still

loves so much, she just wants him to fuck off.

Damn, but I loved Rachel. Now this girl knew how to stand up for herself !! I love a good grovel and this book gave me plenty !! She made him work his ass off to get back in her good graces. And Landon...he made some shitty mistakes, but he never once gave up and he was willing to do anything to get her forgiveness and love.

I really thing these two belonged together and I ended this book with a huge smile on my face. Now I will just need to go back and read book 1. I'm also very curious about the next book in this series. This was definitely one of the best "second chance" romances I have ever read.

*Nova* takes place after Rachel boards the cruise ship that the Renegades are currently controlling for their film. After finding out that her ex, and the man who destroyed her heart, is on board with his friends she wants to jump ship and swim a way from her problems. But seeing as that isn't an option she chooses to suck it up and just do her best to avoid Landon. Too bad he has way different idea's when he learns that Rachel is on the ship and that he may finally have his shot at getting her back.

I really enjoyed that Rachel made Landon work for her forgiveness and that she didn't just hand it to him. It made the story really interesting since we got to see Landon chase her. I do wish it didn't go on as long as it did, though, since it made the story drag a little. There were a few times that I was just hoping that she would just forgive him already or push him away for good since they went back and forth a few too many times for my liking.

Once we got over that hump of slowness the story really picked up and I loved seeing these characters together. They were both great characters and it was fun to see how they could match each others crazy. Landon was amazing and I honestly thought it was so swoon worthy how he refused to give up on Rachel again.

Bottom line, I would recommend this book for anyone that likes a second chance story. It can easily be read as a standalone but I would also recommend *Wilder* because of how much I liked that story also.

### **MAJOR GROVEL ALERT**

Anyone who follows my reviews with any kind of regularity knows I'm super picky about second chance romances. One of my biggest pet peeves is lack of communication/the characters quickly falling into bed together. Also, if necessary, I like my grovels to be damn good, with the aggrieved party being appropriately angry and not forgiving too quickly. And the grovel in this one? One word...

Nova absolutely delivered. To the point where even *I* wanted to beg her to give him a break, and that NEVER happens... so if you like a good, long grovel, you'll definitely want to check this out <3 It wasn't necessarily amazing in terms of *what* he did, his actions were fairly basic, but I was so greedy for a lengthy grovel that I didn't really care.

There were so many great one-liners, and the writing and the emotions were SPOT ON. Here are a few of my absolute favorites:

*You're like a supernova—an explosion so bright no one can see past you, I'd told him once after he'd won a competition. But like my love, that name had been twisted into something entirely different. Now he was Casanova... and no longer mine.*

*"I was putting myself back together piece by jagged, ripped, bleeding piece. So you're going to have to forgive me if I'm not ready to let him tear me apart again just so he can feel better about himself. If he thinks I'm a bitch, I'm okay with it. He doesn't get to argue with what he turned me into."*

*He slipped inside like he'd never left, his taste and touch overwhelming as he filled the cracks in my soul he'd put there in the first place.*

And while I loved the beginning and all the feels, I didn't like the shakeup at the end. It felt unnecessary and unrealistic, and to be honest some of it just confused me. Maybe someone who's read it can clear it up for me?

(view spoiler)

I didn't \*hate\* the things that confused me, but I do think the execution could have been better. Despite this, there was still a lot to love and if you enjoyed book one--although I will say there is less action in this one, which I personally preferred--and you like loooooong grovels, you should definitely look into this ;)

### 4 – “I’m hers” – stars!

This was the second book in the Renegades series, and boy, was I pleased!!!

This was pretty much one long grovel fest... it was beautiful and for a serious grudge-holding b!tch face like myself, Landon gave fantastic grovel. We learn in book one that he left Rachel high and dry and pretty much shattered her heart into smithereens. Two and half years later, they end up on the same cruise ship and Landon, who has been living the life of a CasaNova (screwing every woman on board in an attempt to fill the void), is now dead set on getting Rachel to forgive him. Rachel is the most stubborn, unforgiving h and she throws his manwhorish lifestyle in his face every chance she gets. If you like sweet, innocent, quiet and forgiving heroines – this is not your book.

Landon was sweet, swoony and a groveling puppy dog just dying to get back Rachel.

(Yes, I know that's a cat.. but you get my point!)

His dedication was admirable. And there were even times where I felt kinda sorry for him and found myself wishing Rachel would just forgive him and give me the fun nookie times! Buuuut then I remembered that Landon was a turdcanoe and that I’m a mean grudgeholding b!tchface.

Here’s a quote that made me swoon:

*“Is this guy bothering you?” Meathead asked Rachel.*

*“Everyday of my life,” she answered.*

*“Look, I don’t know who you think you are,” Meathead started.*

*“Hers. I’m hers,” I finished. There. Line drawn in the fucking sand. I was here to fight.*

I will say, though, that the storyline in book one was more interesting than in Nova. There was not much story other than Landon winning Rachel back.

For the safety gals: H was a manwhore for 2.5 yrs and OW are present, but no descriptive sex scenes with OW. The h was not celibate during their separation either (slept with two guys). After they are reunited there are no OW/OM interactions (aside from friendships).

First person dual POV. HFN. No epilogue. Third book in the series underway with Rebel (Penna and....?),

which I can't wait for.

## **Wil Loves Books! says**

I love this author. I love her writing, her well developed characters, her attention to detail and her thorough research. I also love how she never stops surprising me with the twists and turns of her stories. I also have to say, again, that she writes the swooniest heroes. You know that although flawed, when it comes to romance and being in love, her heroes are hands down the best of the best. And Landon (Nova) is no exception, this man is capital letters SWOONY!

Nova is book 2 in The Renegades series, which follows a team of daredevils while they're studying abroad in a Semester at Sea type of program. I freaking love the concept of the series and as you know I loved Wilder (Book 2).

I have to say that Nova is not as exciting as Wilder. It's a second chance romance, there's a heavy history between the main characters and so the book has a more serious tone. Nevertheless, I enjoyed it a lot.

***"Yeah, she'd been an eight. Problem was I wanted an eleven, and I only knew of one in the entire fucking world. One with hair blacker than night, a tight, toned body that had fit mine to a T, and almond-shaped chocolate eyes that made me forget my name, but never hers."***

So Landon aka Nova and Rachel have a lot of convoluted history. If you've read Wilder you know most of the story. If you haven't, you can still read this as a standalone. Years back Nova did something really stupid that broke Rachel's heart. Now they're together and forced to share the same space since Rachel is now part of the Semester at Sea program with her best friend Leah (the h of Book 1).

We find out pretty quick that Landon is totally not over Rachel and he wants her back. There's no wavering or hesitation. He wants her back and will pull all the stops to get her back.

***"She was a puzzle I'd never figured out. She'd never bored me, always left me craving her, wanting more, and chasing her down. Given the physical reaction I'd had the minute I'd realized it was really her—the way my heart lurched toward hers like a damned magnet—it was safe to say that hadn't changed."***

But Rachel is a tough cookie. Even though she clearly loves Landon she was pretty hurt by what he did so she will give him a really tough time. Her struggle is real.

***"Everything was familiar and yet new. His scent was the same, the undertones of his skin unchanged by whatever cologne still managed to cling to his clothing. His voice still slid over my nerves like silk, his eyes the same ever-changing hazel that held me captive. His hands cupped my face with the same tenderness while the strength in his arms had only grown. He was my Landon underneath all that Nova, only ten times more... everything."***

So you know I love second chance romances, it's hands down my favorite trope. And I love this author a lot, but I had a really hard time connecting and understanding Rachel as the story went on. I understand she was in a lot of pain and that she was badly hurt by Nova, but her actions sometimes didn't match her thoughts.

She does a lot of back and forth and plain refuses to listen like an adult, which makes her sound like a petulant child at times. She gave me serious whiplash. I felt like it dragged at parts. I was extremely frustrated by her, as was Nova.

*"I was frustrated that she couldn't just fucking talk to me like every other girl on the planet."*

But Landon/Nova, he was everything. He made the book for me. He's sweet, he's patient, he cares so much and he grovels like no other. He's a man's man, all actions to match his talk. Swoony to the max!

*"God, she'd tasted like summer days in the middle of January, like hope, and home, and everything I'd been searching for since the last time I'd kissed her."*

*"You're it. You've always been it, and I don't care if I have to prove it to you over the rest of this damn year—you're the only girl I'm going to touch."*

*"I'm not going anywhere. If I have to tell you that a million times before you'll believe me, then I'll do just that. You and me—we're our own little infinity. Our forever is wrapped up in everything that's between us."*

The romance is slow burning in this one because their backstory is super heavy but it definitely has some really hot moments. It's also extremely romantic as all Rebecca's books are. Definitely lots of feels!

*"You chose me."*

*"I always will."*

Overall, I liked this book a lot. Even though it has less action than Wilder, there were some pretty cool adventures I loved and some twists I never saw coming. And well Rebecca's writing is always beautiful. Next up is Penna and I can't wait! I'm dying to meet the guy that will steal the coolest Renegade's heart. Absolutely recommend Nova!

*"There was never a moment that I didn't love you. There will never be a moment that I don't love you. You can love me or not, but that will never change the way I belong to you."*

**4.5 -I did it all for the grovel- Stars**

My name is Jewelsy and I'm a grovel & chase addict. It's no secret. Some people get off on alpha gazillionaires, some people get off on kinky BDSM or threesomes, and Jewelsy gets herself off on masochistic grovellers who don't know when to give up.

This story started off sooooo good and stayed that way, up until the last 15% where it wasn't all bad, but kinda just plateaued for me (hence my 0.5 star drop). I still got to get my grovel & chase fix (because the H damn-well deserved it IMO) and boy did Nova give good chase!! Unfortunately, my grovel bar is set pretty damn high and although poor Landon/Nova grovelled like a champ, in my head, he was competing with the likes of Jensen (from Paper Hearts) and didn't quite reach that unachievable bar. So if anyone can pleeeaaase recommend me a book that supersedes the tall order that is Jensen, Jewelry will definitely give it a go!

Thank you, my darling TheresaDK for introducing this book to me. I too, am an unforgiving b!tchface, when it comes to wanting my H's to work super hard for their redemption and I don't mind my h's testing their patience for it. Happy to say that this one delivered in all those aspects and I actually enjoyed it much more than book #1 Wilder.

Told in dual POV and can be read as a standalone in this series, however, if you want the full experience and introduction to this couple, then I would recommend reading book #1 first. Ends in an abrupt HFN like book #1, because I guess we will see them all in book #3 (Penna's story). I'm keen to continue onto book #3, but I'm not really gagging for it.

## **Carmen Rae says**

I feel like I have been waiting forever for Nova. Ever since the climactic reveal of who Rachel was I knew I had to know their story and damn it was a ride. But of course Rebecca Yarros always knows exactly which strings to pull to wrap me up in a ball of nerves and anticipation.

There was so much to this story that I don't know what to say without spoiling anything for you. It felt like every time I got to an aha moment there was a whole other layer that still needed to be peeled back for me to cry a little more over. Not that this was a book that had me in floods of tears just that the writing is so perfect that I felt every emotion these characters went through.

For a lot of the book I didn't like Nova and to be honest I don't necessarily know that I like him now. Don't get me wrong he did make up for his mistakes and I completely understood why he did it I just wouldn't be able to get passed it personally. Unless there was a lot more grovelling, but that's just my personality and I do understand why Rachel did and it didn't take anything away from the story but I still really want to kick his arse.

Rachel was amazing and for me this whole book was all about how beautiful she was and how strong. I really couldn't have asked for a more kick arse heroine. Every time I wondered how much more could she go through without curling into a ball and crying for the rest of the book she rallied and did something that just made me love her more.

As always the characters were great and the story was even better and I am so glad I sat down and read it as soon as the pre-order hit my kindle. If you haven't read Wilder yet I highly recommend reading that first, you can find my review for it [here](#).

***You're like a supernova-An explosion so bright no one can see past you, I'd told him once after he'd won a competition. But like my love, that name had been twisted into something entirely different. Now he was Casanova...and no longer mine."***

I love me a good 'love lost and then found again' book and this book was no exception!

Some of my favorite scenes of the book were in the beginning when Landon sees Rachel for the first time in 2 1/2 years and the pretty much all other scenes in which they run into each other (either accidentally or on purpose). You could feel that the love is still there with them, but 2 1/2 years is a long time. People change-especially Landon or *Nova*, whose female conquests are no secret to anyone. Can Rachel see past the *Casanova* and find the Landon underneath again?

I loved the progression in the book and the romance and the adventure and the list goes on! Great book and I highly recommend it!

#### **4.5 "I Belong To You" Stars!**

Landon Rhodes aka Nova is a gorgeous 22 yr. old guy who's a professional snowboarder that's all about speed, adrenaline & the rush. He's an extreme sports junkie & a four times X Games medalist. He's part of a team called the Renegades that are like family to him. They are currently filming a documentary while on a Study at Sea program on the cruise ship the Athena. They perform stunts for their You Tube subscribers & are all over social media.

Landon is especially reckless since he made the difficult decision to walk away from the love of his life about two and a half years ago. He screwed up his only chance at love, & now only has endless hook ups. Nothing could fill the hole in his soul, but sex seemed to momentarily dull the pain. He was forever haunted by her memory & what could have been. She was still all he could think about. Then suddenly he see's her, and it feels like he can finally breathe again.

-There wasn't a single nerve in my body that didn't come alive at his nearness.

-This intense connection that strung us together would always be there. Buried, burned, or frayed, but never destroyed. Landon was always going to call to me.

-The things this man did to my body with just his voice were criminal.

Rachel Dawson is stuck on a Study at Sea program for the next six months with the only guy she's ever loved. The one she gave up everything for & then he broke her heart. When she was eighteen he didn't choose her, & made her feel she wasn't good enough. He abandoned her & it destroyed her. She won't be vulnerable again, or let him close enough to hurt her. Her plan is to ignore him & avoid him, but it's easier said than done when he's everywhere she turns.

Landon wants a second chance with Rachel. He wanted her to forgive his stupid mistakes & was determined to win her heart again. He sets out to prove to her he's not going anywhere this time, & she's his top priority. He wants a fresh start & is prepared to be patient. He makes it his mission to remind her how good they are together. Soon Rachel can't resist him or deny her feelings any longer. Things heat up between them and we get some angst, seriously delicious moments and a beautiful love story.

-My heart reminded me that I was going to have to fight for this woman with every weapon in my arsenal if I wanted her. And damn, I wanted her. Craved her. Needed her.

-I was still fucking wild over her.

-"There's no one in this world who loves her like I do."

-She owned me.

## Bev says

Ugh this one annoyed me so much. I read for the romance so Rachel still pushing Landon away at 60 odd percent drove me bat shit crazy. Then when all in the garden is rosy(ish) the author throws yet another spanner in the works and yep, you guessed it, she's pushing him away AGAIN. I love a grovel, I'm all for an epic grovel but do you know, this one was just too much. Poor Landon worked and worked and worked again to get back in with her and it got to the point I wanted him to walk away.

I don't believe she will ever really forgive and trust Landon, despite him turning himself inside out to prove he was sorry and had LEARNED from what he did as a young adult. If I'm honest I didn't like Rachel much at all despite her being the wronged party, she just got on my wick too much.

I liked the extreme sports theme which surprised me, it's not something I've ever been interested in - actually

I was fascinated by just how risky the sport is. Those kids must be absolutely fearless to do half the stuff they do.

I don't believe in their happy and I hate that in my books. I need the loved up happy ever after feel when I finish a book, sadly I didn't get those feels here.

2.75 "all for Landon" stars.

**People who are meant to be together find their way back. They may take a few detours, but they're never lost.**

I LOVE SECOND-CHANCE ROMANCES SOOO MUCH! These love stories are my absolute favorites!!! Soul mates who have always loved each other are granted a do-over...another chance. There is no greater love like second-chance love, this special love that finds its way back to two broken souls, this special love that summons the soul...MY SOUL. Second-chance romances speak to my soul like no other love story, and oh did *Nova* by Rebeca Yarros speak to mine. ***Nova*, the spellbinding and spine-tingling second-chance romance, was my heart...my soul...MY KRYPTONITE.**

This heart-pounding and heartwarming romance claimed my heart from the start. **My heart caught fire, a slow burn seeping into my soul, as *Nova* bled into me...becoming me.** My emotions were amplified as I was ON EDGE, entangled around every part of *Nova* as this soul-searing story embedded itself into every part of me. A fusion of hope, heartbreak, and happiness swirled around in my head like a tsunami waiting to collide. My feels flooded all over this book...ALL OVER ME.

These characters claimed me, captivated me, and catapulted me into their lives. I lived this dare-devil adventure through these compelling characters...through *Nova*. I wanted to free-fall off a cliff into the sea, climb the tallest mountains, and float away with The Renegades crew...with *Nova*.

Landon 'Nova' Rhodes with his dark blond hair, green-blue-hazel eyes, ink, and body of a Greek God is fast and furious, a dare devil who snowboards like he owns the mountains. This professional snowboarder collect X Games medals like they are candy, and oh is he melt-worthy! Landon may be Casonova to the women who he conquers like those tall mountains, but only one woman has conquered his heart, and will forever hold his heart in her hands: Rachel.

Rachel Dawson, beautiful and petite with dark hair and dark eyes, gave her heart away to who she thought was the love of her life, until he shattered it to smithereens and never looked back. Landon Rhodes, oh how she wished she could get the supernova out of her head and heart. When Rachel lands on the ship where The

Renegades, the X-Games competitors, are filming, Landon is more determined than ever to reclaim the woman who has always been his.

Does she still hate me? I hope so. I deserved it. Lord knew I hated myself enough for the both of us. The problem with love was that once it was gone, there was no filling that hole, no substitute for that euphoria.

These words broke me...so hopeless and heartbreaking.

“You’re like a supernova – an explosion so bright no one can see past you.”

Now he was Casanova...and no longer mine.

I felt Rachel’s pain through the pages, oh was it heart-wrenching.

She could try to ignore me all she wanted, but somewhere under all that hatred and ice, she was still my Rachel....I just had to find a way to break through to her.

From beginning to end, oh did Landon POSSESS ME!!! This amazing alpha made me swoon and smolder. This man is pure perfection. *Nova* is PURE PERFECTION. I was owned by Landon. I WAS OWNED by *Nova*.

“You win this round. But I’ll win the war.”

My feels were at war, emotions rearing up to battle, as they threatened to explode...all over this soulful story...all over me.

“That Rachel – the silly eighteen-year-old you said was your infinity – you killed her.”

Those heart-wrenching words hit my heart hard, a sword to my chest, as I felt the hurt everywhere.

“I loved you. I broke myself... You and I are inevitable, no matter who we hurt – even if it’s each other.”

I broke as I bled for both the hero and the heroine. Two broken souls who should be one. I had to catch my tears as I willed them not to fall. Tears that teased the dam of waterworks waiting to burst from the words that clutched my soul, extracting every emotion. Beckoning me. Binding me. Becoming me.

“Rachel, don’t look at me like that.”

“Like what?”

“Like you used to.”

Swoon collided with soreness, hurt fused with hope. The pain turned into promise as I melted all over pages, warmth seeping into my heart that was bleeding. Words of sweetness and nostalgia kissed me where I felt butterflies dancing in my belly, a feeling of hope, happiness, and freedom fused with love.

His mouth find mine, and I was home.

“It didn’t mean anything. The kiss.”

“Maybe to you.”

“To you?”

“Everything.”

My heart was hit so hard, it spun right into my soul. These words SHOOK MY SOUL!!!

Rachel and Landon are each other's air. Each other's heart. Each other's hope. Each other's salvation. Rachel

is almost ready to take that leap again, no longer caring if she falls for she knows that Landon will catch her and keep her this time.

In seconds she had rebuilt her walls that had taken me months to break down, and once again it was me who sliced her to the quick.

The painful past brings smoke, which causes Rachel and Landon to veer off course, possibly sending them into a collision where their rekindled love may crash and burn. Oh how these two broken hearts needed to be whole...one again.

“You’re it. You’ve always been it.”

This line is EVERYTHING!!!

**This explosive, emotional, and epic second-chance love story is EVERYTHING!!! I was ENRAPPED with *Nova*** This story held my heart in its hands from the start...hijacking it...hijacking me. I LOVED NOVA SO MUCH!!!

***Nova* is devastatingly beautiful and perfectly poignant, an explosion of emotions that penetrate the heart and soul.** Oh did *Nova* penetrate me EVERYWHERE! I was a prisoner to these passionate pages that pounded that passion straight through me. I was broken. I was breathless. I was branded. I became everything *Nova*.

This spellbinding and spine-tingling story surged through me like lightning where its touch was felt everywhere. OH THE FEELS!!! My feels were free-falling through this story. **I felt every word I read in *Nova* where I rode this roller coaster of a romance, the adrenaline and angst coursing through me like a rush of wind...fast and furiously. I FELT EVERYTHING.**

***Nova* is not simply a broken and beautiful romance; it’s a story about LIFE AND LIVING.** It’s about taking that LEAP OF FAITH...LIVING FOR THE MOMENT...LIVING LIFE NOW. Rebecca Yarros is one of my favorite authors because you can feel her emotions through her wondrous words. EVERY WORD MATTERS that Rebecca Yarros writes: magical, meaningful, sweet, spirited, and soulful...just like her.

Every day is a new beginning. A chance to love. A chance to live. A chance to dream. A chance to do! We live through our actions. We live through our memories. Sometimes we live through stories. **I lived and loved through *Nova* where I went on the emotional adventure of a lifetime—one of hope, heartbreak, and happiness. *Nova*, this beautiful and broken love story, will stay with me...to infinity and beyond.**

### 3.5 stars

After a promising start to the *Renegades* series with *Wilder*, I couldn't wait to dive in and see what Landon 'Nova' Rhodes' story would bring.

*"I was going to win her back. Not just her friendship. Her heart. Her love."*

Whiplash anyone?

When it comes to women who have had their hearts broken, you can understand the pain and anger that goes hand-in-hand with being crapped on from a great height. You can understand the lack of forgiveness and the wish never to speak to that person ever again because it *hurts*. But you can take anger too far, to the point where my empathy will begin to wain and I'll start becoming frustrated with you. And that was how I felt about Rachel.

Landon, on the other hand, was a surprise, much more of a sweetheart than I anticipated. He made mistakes. He was young, his career just starting, he made a decision that broke both his and Rachel's hearts, and he subsequently installed a revolving door directly into his pants in an attempt to *ease* his pain. So yes, he needs to redeem and prove himself when Rachel re-enters his life and I'm all for a bit of grovelling, but the first half of this book was dragged out too long--half could have been omitted with no particular detriment to the story.

*"I want you not to hate me. I want you not to think that I'm some heartless bastard who didn't love you."*

I know it sounds like I disliked this, but I actually didn't. Even though there's less action than in *Wilder*, what we are given leaves you holding your breath and the second half was tighter: I began to warm to Rachel--even though I rolled my eyes at her a few times--and enjoy her and Landon as a couple. And I liked the path the story took with regards to Rachel's family. It was simply a case that the push pull between her and Landon was repetitive and drawn out and it didn't hold the depth of emotion that I've become accustomed to when I pick up a book by Rebecca Yarros. But with no hints this time around, I'll be interested to see where she takes the *Renegades* next.
