I had been anxiously awaiting my chance to read this book. I love books published by Scholastic's Wish company. This one though, it was okay. I wasn't too satisfied with the middle, I had mixed feelings about it. The ending was nice and I loved the notes Clara kept finding. The first one was so cheesy, I loved it! Lol, this book was nice, maybe not the best, but still nice. I had a great outcome and I'm happy Clara got her Dream Guy.

This book was pretty fun to read. The main character Clara was very relatable every time she was afraid to confront her own feelings about people. I would recommend this book.

I really liked this book. It was funny even though it was very predictable. It also taught lessons not to act a certain way just because your friends want you to act like that. It also taught a lesson that you aren't always right and you can't always just count on yourself. I really recommend this book. It was very interesting and fun to read.

It was ok...

Had some weird romance, and good friendship realization storyline, but all in all, it was not my favorite book.

I was a little disappointed with the ending of the story, because it was a bit unexpected. But I would recommend this to anyone who likes love stories.

I really liked how Clara thought that Mateo was her secret admirer, but it turned to be her next door neighbor and secret crush! Also I really loved how it showed her being scared of her past and trying to cover it up. It really shows how we all have things we don't want to be seen.

Clara Martinez has a knack for gauging people's interests and fixing them up with each other, which she and a friend occasionally do at the mall. When she has to come up with a business idea for a school project, she decides to run a matching service for students at her school so that everyone can have someone with whom to dance at the Hot Chocolate Social. There are a lot of other things going on in Clara's life-- her mother left "to find herself" when Clara was young, but Clara's father is concerned that he isn't the best one to raise her. Her friendship with Alivia is fraught with difficult social situations, made more difficult by the fact that Clara only had one friend at her previous school. She has a secret admirer, but doesn't know his identity. Her friend Emily is in danger of being marginalized out of the group. Add to that her struggles in school, and a lot is riding on the success of her business project!

Strengths: This reminded me, in the best possible way, of the Betty Miles' books I read as a tween. Realistic problems, friend drama, school setting-- very fun. I have a lot of readers this year who like light romantic fiction, and this is perfect for those readers.

Weaknesses: This is listed as a Wish Novel, but the others are written by Suzanne Nelson. I wish that Scholastic would publish hard cover versions of these, but I guess I'll have to stick with the prebinds. By the time the pages turn yellow and start to smell, the fashions and technology are probably outdated.

What I really think: Purchasing all the Scholastic books like this I can find, especially You're Bacon Me Crazy, since it involves food trucks!

This book talks about how Clara starts a matchmaking service for her fellow classmates. Her matchmaking service ended up successfully earning a lot of money, and Clara made a whole group of friends. Things started to get messy when her grades started to fall and her father wanted Clara to live with her mum instead. The book is suitable for all ages, and I definitely recommend this to my best friend Jofelyn, because the book is exciting and heart-warming at the same time.

So cute. I loved how it ended and I love happy endings. The girl that thought she knew everything about relationships learned that she didn't.
