## A Surreptitious Relationship Jordan Lynde

Chris and Holly's relationship is finally perfect. With no gangs to harass them, the only thing they have to worry about is keeping their relationship a secret from the student body and faculty at school. Simple enough. However with the appearance of two new students, new troubles arise. The new girl isn't who she seems, but no one will believe Holly, and the new boy seems to enjoy causing Holly problems. Meanwhile Chris is finding it harder and harder to stay away from Holly in school. Keeping their relationship a secret suddenly becomes ten times harder. And to top it all off, Jeremy has a big surprise for every one.

# From Reader Review A Surreptitious Relationship for online ebook

## Courteney Fisher says

I just feel like this sequel didn't really need to be written. Like nothing really happens in terms of the plot. Lexi was my fave character and she got no development she was sort of just thrown in. It just overall felt like it was written chapter by chapter without an overarching theme/plot.

---

## Lobna Assem says

3.80 ??

---

## ????z????? ?\*????????????\*? says

The ending was just... Ugh. But I seriously love Holly and Chris' relationship, it's soo cute! I'M SO HAPPY THEY'RE ENGAGED. That is literally the only reason I'm going to read An Everlasting Relationship. After reading the plot for AER, I didn't want to read it... At all. It was just too cliché for me.

---

## Carrie says

### Actual Rating: 2.5 stars

A Surreptitious Relationship was alright... I was kind of expecting a lot more. I realize Jordan Lynde warned her readers that this book would be a lot more laid back than the first one in this series with this one mostly focusing on day to day life between Chris and Holly and I thought I would thoroughly enjoy that but the book is fifty four chapters with only a couple chapters of actual action and the rest is very laid back. Almost too laid back for me... I'm totally okay with this book focusing primarily on Holly and Chris but I'd be lying if I said I wasn't aching for something more exciting to happen than them waking up in the morning, doing some daily errands and being cutesy and then going to bed.

Don't get me wrong... It was still a good book but there just wasn't enough action for me. I liked A Proscriptive Relationship a lot better.

P.S. I know Jordan voiced her opinion about "not reading it if we found it too boring" but like I said, it was still a book worth reading. It just turned out a lot differently than I thought it would.

---

## Hollie says

Once again, I was pleasantly surprised by this book. I thought I couldn't be more content with Chris and Holly after the first book, but this one made them so much more. This book managed to make me feel

nostalgic for the the first one, even though I read it only a week later. It even managed to bring me to tears at one point. Overall, a book which managed to turn me into a shameless romance loving teenage girl.

---

### **Darci Taylor says**

The story of Chris Heywood and Holly Evers is one I love to read about.

This book provides a very suspenseful and satisfying closing to their story (for now, since An Everlasting Relationship is currently in the works). The characters are skillfully written and the traits are consistent throughout the book.

This is a read that I recommend to everyone who likes a good love story!

---

### **Kazza says**

Read this on Wattpad.

It's been a while since I read this, so I've probably forgotten a lot of things. (But there is a Jeremy in here, right? And he's a joker? I'm pretty sure I'd come across this character in the novel.) I might revise the rating at some point in time.

---

### **Emmalie says**

The school year is almost over and holly and Chris cant wait to tell everyone there together. But the school year isn't over and they still have to wait . Being a little over half the year new kids come . They come with trouble of gang and this doesn't help Holly and Chris's relationship become stronger. They deal with them and they destroy the gang . Holly and Chris sign up for the end of the year activates . But all they want to do is be together for there last days of school . But they still are able to get in trouble with the school . They come close and something happends to holly . Chris sets out to find her.

---

### **Moe says**

This was my favorite series in Wattpad before but now I realized the flaws of the book. Esp. the part about the gangsters and when Holly recorded Mikey's confession. It just seem stupid and so not realistic. But still, I enjoyed reading it despite the errors which I understand given that this was written by a student, not a professional. Jordan has so much potential though. Also I liked the characters.

---

### **Kristen says**

3.5 Stars — Read on Wattpad

---

**Ann Tran says**

After A Proscriptive Relationship, this sequel was not a disappointment. Even though it was based on Holly and Chris' relationship more than the plot, I didn't really mind because they are just too darn cute. So yeah. Read this people if you've read the first one.

---

**Apple12350 says**

Even though there wasn't as much action as there was in the first book it was still pretty cool, it had a bit more detail on the other character's (love) life instead of just focusing it on Holly and Chris.

I love how there is always something you don't expect in the following or current chapter so you wouldn't get bored. Time to read the third book! The description for the third book sounds interesting, though, it hasn't been updated for around four months...Oh well...

---

**Kristine Cuevas says**

This is the book of 'A Proscriptive Relationship' and this is the first story I read before the book 1. As expected from Jordan, this was able to get me hooked the first time I read this. I love all the new characters and the plot twists that happens. And another favorite!

---

**EJ says**

Book 2. Double the trouble.

---

**Rowan says****FIRST IMPRESSION**

Looks pretty good.

What the hell does 'surreptitious' mean... Should I look it up in the dictionary...

## WRITING STYLE

Goooooooood and err good?

I personally felt it was written well and didn't spot any errors...

Or I can't remember any (I read it last week and didn't bother writing a review.

Apart from it did drag on a teensy bit, it was so long and I just wanted to know the end... I'm an impatient person.

## PLOT

Quite interesting.

A lot of things I didn't expect.

A lot I did.

I would have preferred it if Holly didn't go on about sex so much. I may crack a lot of dirty jokes and most of the songs on my iPod may be about sex, but I still feel uncomfortable reading about it. Or just if people are being serious about it and not joking about it.

Innocent (though my friends don't believe that) little fourteen year alert.

## CHARACTERS

Holly, tone down a bit about the sex and you have an okay main character.

I'm yet to find the perfect main character to read through... I've read some who are pretty close.

My search goes on.

Chris. Meh he's okay, although I do feel he's a bit of a dickhead.

I have warmed up to him quite a bit though, I mean I no longer want to slap him... Big improvement.

If my biology teacher was like him... Well then biology would probably be no different. I hate that subject.

Why did I take it?

Jeremy, I want to marry him? Can I? Like pretty please, he is a character I'd love to read through...

He's funny but, occasionally, serious. By occasionally I mean once in a blue moon.

He reminds me of Julius from Waist Deep in Walmart... (A story I want to write a song on... When I stop

being lazy).

Casey, she's pretty cool. Love it how she's still upset about not getting to shoot anyone. The whole time I felt like yelling at her and Jeremy, just freaking get together already! She reminds me of some of my friends.

Lance, he's British like me, so automatically makes him awesome. He really does love Lexi so much... It's cute.

Aaron, even until the end I was still calling him a dickhead. Urgh he's so full of himself and just annoying. A character I really don't like, like really really don't like.

Even though Lexi leads on about five hundred different boys at a time, I still like her. She's just so.... innocent? Wrong word but whatever.

I love the part when she didn't expect Lance to wait for her and then she goes and calls him and stuff. It's cute - I like cute things. A lot.

And she keeps Chris and Holly a secret which is always good. So yeah, I like her.

## OVERALL

Good read, I'd recommend it to y'all (at the All Time Low concert, the lead singer from one of the support acts, The Maine, said y'all. It was funny... So was his accent...).

Anyway it is supposed to be boring and stuff, but I enjoyed it!

Good luck in the Watty Awards!

## AMOUNT OF STARS (OUT OF FIVE)

Four.
