**THE GREATEST WESTERN WRITERS OF THE 21ST CENTURY**

Bestselling Western writers William W. Johnstone and J.A. Johnstone introduce lawman Jess Casey, a rodeo-hard, stubborn, Texas cowboy with a knack for laying down the law—with a very fast gun...

## **ONE DAY TO LIVE. SEVEN DAYS TO DIE.**

Sheriff Jess Carey and his oddball band of sidekicks have pulled off the impossible, taming Hell's Half Acre, the most lawless town in Texas, infamous for murder, mayhem, prostitution, and every random act of bloodshed imaginable. Now the no-good politicians in Austin have decided it's cheaper to dump hordes of criminals on Jess Carey's town than hanging 'em. In one dreadful week it seems as if the gates of Hell have burst open. Freed outlaws, gunslingers, bandits, rapists, desperados, drifters and miscreants are roaming Hell's Half Acre—and Jess and his deputies are running out of bullets fast. As the fighting rages, some ruthless, powerful men see their chance to kill Sheriff Jess Carey and take the town for their own...

Brilliant! A very fun read. Lots of action and excitement, the Hell's Half Acre books contain a myriad of colorful characters - the good, the bad, the questionable. No spoilers, but at one point, my jaw actually dropped and I would have whooped aloud had it not been 5 in the morning. I am very much looking forward to more book in this series.

#### **"JESS CASS NEVER SAY DIE"**

A bit of the paranormal mixed in this western adventure. Lots of action, keeps you wanting more. Very enjoyable a good plot, great characteristics characters who you feel a kin ship to There's even mention of Jack The Ripper, one of the soiled doves was returning to London, England and she would become his fifth victim. This western has a lot going for it; you feel like your there with the people of Fort Worth, Texas.. Hell's Half Acre, it reminds me of people who live in the bottoms or cross the tracks..makes you think, how hard and violent life was in the west, and they were considered civilized. Also gives you input about the infamous Huntsville Prison..a touch of prison reform..was in the air also, how to convert convicts into meaningful contributors to society..

I enjoy all if the Johnstine books. I especially love the "Hell's Half Acre" series. It is about the historic red-light district of Fort Worth, Texas, which existed from the 1870s until the early 20th Century. Growing up near Fort Worth, I heard tales about Hell's Half Acre many times. It is enjoyable to read the Johnstone books about this historic area.
