Confessed Lisa Cardiff

Revenge will be sought.

Love will be tested.

Lives will be lost.

One minute, I could see my future with Hattie and our baby. The next, moment cured me of the illusion. Vargas blood ran through my veins and regardless of what I wanted, the darkness would always win.

Make no mistake. I will save Hattie.

I will kill every last person affiliated with the Alvarez Cartel. But then, I will set her free...

Because that's the only way to save her from me.

Tahsin says

Hattie, Hattie, Hattie - where do I start with this one? She's kind of the whole reason they're in this mess. I'm sure she means well, but holy fuck, someone sedate this girl otherwise she'll kill everyone around her. There are times to speak up and others to remain fucking quiet - this girl just does not get that concept. You tell her not to do something and she will do exactly fucking that. Honestly, she annoyed me beyond comprehension. I don't really know why I read the whole series. And LOL, everyone was so cute and naive for having lived in Washington their whole lives. Really though, that naivete was not real.

Paula says

4.5

Gostei muito desta série.

AleJandra says

Vargas Cartel Captura y Ejecuta Traidores

Ryker al frente del vargas Cartel, esperare lo que tenga que esperar.

Kallie says

I'm going to sound like a bitch when I say this but, all 3 books weren't necessary. 1 would've done the trick, I think. Book 1, even with it's cliffhanger, was the best by far.

Mindy Martinez Borda says

What a powerful yet surprisingly sweet ending for a complicated and drama filled story like this one. I have enjoyed Hattie and Ryker 'so story so much it's difficult to put my feelings into words. I have cried, suffered and hoped with the characters and my heart just melted in the end. Amazing series .

Maris Altma says

So I'm going to review the whole series. I really like the series. It was good but there were some errors. I read lot of people hated Hattie for missing a backbone. I actually understood why she was like this I mean she was kidnapped and Evan met her and saved her bla bla so gratification I would say. She grew a lot from book one to three that was good, I liked how everything slowly unraveled and how Hattie came out of her shell. Also smut was so good in a first book and then it kind of lost that oh wow with some smart intel on things like government, how cartels are working. Very fascinating!

Julia says

5 star cool cartel read

I liked this series a lot. I loved the heroes and their willingness to fight for their happiness. What seemed impossible at first became their hea. An action packed cartel novel that I recommend to everyone interested in this genre.

Maria11 says

After all the twists...

After all the twists and turns it settles just like that poof. The whole series kept it ramped to 10 and then it just pitters out like no big deal.

I have to say I read till it was done on all three books. I didn't love them, but I didn't hate them either.

Cyndi Hackett says

Not bad.

Selene says

I loved every book in this series!

Judy Garrett says

We are never disappointed. Thank you for your much appreciated efforts in providing an amazing closure to Ryker and Hattie's story.

?Complimentary Copy? Provided by the author " **Lisa Cardiff** " in exchange for an honest review..Thank you!!

TITLE: Confessed

SERIES: (Vargas Cartel, #3)

AUTHOR: Lisa Cardiff

GENRE: Contemporary Romance

RELEASE DATE: October 06th, 2015

MY RATING:5 STARS

This starts right off where the previous book Unveiled (Vargas Cartel, #2) ended..

I remembered fighting with that man on the street. I remembered him striking my head with his gun, but after that, everything is blurry like a fragmented nightmare. A long car ride with a musty pillowcase over my head. Arguments about where to take me. Being pulled out of the car as my knees scraped across the dirt. A phone call to Ryker, then nothing...until now.

He was my weakness, my achilles heel, my krytonite, my everything..

This book like the rest in this series just keeps you on the edge of your seat with the grittiness of it, the angst, the what the f*ck is going to come at me next, are they going to get their HEA or is that just an illusion..

Loyalties shifted like the wind. money and power spoke louder than blood ties.

She'd always be my soft spot. My enemies wouldn't hesitate to use her to get to me.I had to eliminate them before they eliminated us.

I knew as soon as I hit half way that like the previous books this was going to be another 5 star read for me, mafia reads are another genre I jump on, this whole series has exceeded my expectations, it's got the blood, the gore, the romance, the grit, and at times a little bit of darkness was thrown in to spice it all up..

We need to expose their connections to the cartel. Then they'll be discredited or worse. Senator Deveron won't have any power to hurt you anymore, and you won't have to worry about Evan. ~ Ryker

Kathy Wideman says

This is the third and final book in this series and they must be read in order. I loved this book and it was a great completion of the series. Hattie has been kidnapped by the Alvarez Cartel because Rever and Ryker took Anna Alvarez. It doesn't matter that they didn't kidnap Anna Alvarez, that they were just doing what she asked them too. Ryker is going out of his mind, yet another reason Hattie is better off without him. He is determined to get her back and make this right. He makes the ultimate sacrifice to rescue Hattie; he agrees to join his father's cartel in order to get the help he needs to rescue her. Ryker is torn between what he has promised Hattie and the deal he has made with his father. He can't risk Hattie's life be in danger anymore. Ryker is learning that more is going on with his father's cartel than anyone knows. He may have to risk himself and Hattie to get the future they both want. Will everything work out? Is there a traitor in the cartel? This book is a bit less emotional than the others. However there was that one part where I was hesitant to read because you know Ryker is going to do something stupid that could end his relationship with Hattie for good. I have loved this whole series and look forward to reading other books by Lisa in the future. The characters in this series are great. I felt like I was pulled into the book and a part of their world. The books were wonderfully written and engaging. I can't say enough about this book or the series.

I was given this book in return for an honest review.

Kelsey says

I had the pleasure of reviewing the entire series in one go, and I have to say I am very grateful for that. I don't think I would have been able to wait for the ending of Hattie and Ryker!! The entire series focuses on Hattie Covington, and Ryker Vargas. The daughter of a high-profile U.S. politician, and the bastard son of Ignacio Vargas - Mexican Cartel Drug Lord - makes for an interesting story if I do say so myself!

I feel that Confessed was completely different from The Bargain. This time around, Hattie is abducted by the rivalry cartel, and things aren't looking great. When she was abducted the first time I didn't feel the sense of urgency that I did in Confessed. This time around, Ryer was struggling to get what he needed, and in a timely fashion. Is he able to let her go for good when it all comes down to it? Does Ryker get what he wants? What sort of deals, and hoops will he have to jump through before enough is enough?

SO MANY QUESTIONS!!!

Lisa Cardiff once again throws her readers into the mind of Hattie Covington, and Ryker Vargas. I cannot get over this authors keen mind for keeping things interesting as she flipped between the two main characters. In Confessed we see a side of Ryker that I wasn't sure the reader would get to see. It was refreshing to see the "bad boy" get what he wanted, and what he ultimately deserved in the end. Hattie stole the show though with her own happy ending. Lisa did a wonderful job bringing this story to life, and for that, I award her an amazing FIVE bars!

Candace says

Please check out more of my reviews at www.bookaddicthaven.com

Picking up where 'Unveiled' left off, 'Confessed' has Ryker working on a plan to rescue Hattie. Still being held hostage by a rival cartel, Hattie is experiencing the poor treatment that she was spared with her first kidnapping. This time around, violence and the fear of far worse are a grim reality for Hattie.

While there continue to be some issues with this story, I do think that the author has shown some improvement with each book. This book was much closer to the "dark" romantic suspense that I had anticipated when I started this series, which was a big plus for me. The first book didn't deliver on the promises of dark content, but this book certainly did.

Although I did have many of the same problems with this book that I had with its predecessors. The storyline seems to progress in a rushed, and often disjointed, manner. Major turning points in the story seem to warrant little more than a snap of the fingers and aren't fleshed out.

Ryker and Hattie's relationship also needs a little more work to be believable to me. I need more to support their connection if I'm to believe that they're as deeply in love as the book says. I'm not sold on their undying love. I need more.

That being said, this book did move at a faster pace for me. It had plenty of action to hold my attention. There was never a dull moment with this one.

Overall, this was an "okay" book for me. In fact, that is how I'd rate the whole series. It seemed to get a little better as it went along, but it needed a lot more work. Not one of the better stories of this type that I've read, but definitely not the worst either.
