Bandicoot Cove, Book 1

There's something magical about Bandicoot Cove. It's where Kylie Sullivan's dream of managing a luxury, five-star resort is about to come true. And it's where people tend to fall in love. Kylie should know. She's fallen hard—for three very different men.

There's Brad, who knows just how to relieve her stress and send her body on a crash course through pleasure. Hemi, her untamed Maori, who awakens her primitive side. And Finn, the sexy bartender whose specialty is Screaming Orgasms.

The three men fulfill all her sexual fantasies, but Kylie knows reality will eventually set in and she'll have to choose. But how? For now she decides not to decide—at least until she makes sure the resort's soft opening comes off without a hitch.

As far as Brad, Hemi and Finn are concerned, Kylie's life is too much work and not enough play. The only choice they plan to give her is to say *yes* to their wildly passionate proposal...

Warning: Three sexy men pleasing one uninhibited woman—how much more warning do you need? This short story is long on heat, with a drool-worthy setting and sexual interludes in the office, at the beach and the bar. You want a day job like this.

A fun, smutty read. I'm guessing this is an excerpt from a longer work, as it is very short and very low on characterization and plot. As long as you're just in it for the foursome, it's an entertaining read. Gloss over the cheesetastic dialogue and enjoy the sex.

This would not make me want to continue the series. I got it because I really like the individual authors, but I don't think this was a good representation of their skill. I just felt like so much was missing! It was very short, and I didn't get a feel for the personalities of Brad or Hemi or Finn, beyond that they were drop-dead gorgeous and they all wanted Kylie. There wasn't really any pre-story about how she met up with them or the dynamics of their relationship(s). It was just screw all of them separately, waffle a bit about having to pick just one, and then they surprise her and tell her they want to continue their relationship all together so she doesn't have to choose. And then that was it. So I'm really hoping the next ones are better than that.

Elizabeth (Liz) says

Very short, but not bad.

Tilly Slaton says

This book is a quickie.

It's hot and steamy. It's sexy and thrilling. It's fast and ... predictable. What more can you ask for of an erotica book? Everything

But as quickies go, this book wasn't too bad.

Lonely manager screws and falls in love with three men who work for her.

She has one meeting with dude #1, has an orgasm. She has another meeting with dude#2, has an orgasm. She has another meeting with dude #3, what's that again? Oh .. another orgasm.

The only good thing about this book was the descriptive writing. Totally hot! Well that, and the ending flat-out did it for me.

Can't say though! No spoilers here Not that you really have to avoid spoilers in a review. Hmm. .. Nope, I just cannot bring myself to tell you about the ending. Double yummylisious!

I recommend this book to adults only who are in need of a quick erotic fix. No violence that I remember. Strong and hello baby! sexual content.

~Happy reading

Exotic Indulgence is a novella full of steaming hot sex. If you're looking for character development or a plot, then this book isn't for you.

However, this is *exactly* what I was looking for. I was in the mood for erotic romance and this was perfect. It's **H.O.T.**

I do enjoy the way these ladies write, so I'll have to go back and finish this series.

Really it's 3 1/2 stars

Kylie is having a having rather a stressful week. In-between setting up the brand-new, exclusive Bandicoot Cove resort for a “soft” opening, she has to contend with her feelings for the three separate men she is sleeping with on the Island. All the men are colleagues; Brad is the gorgeous harbourmaster, Hemi is the rough Maori diving instructor and Finn is the smooth, laid-back bartender at the club. The men know that she has been seeing them all and have no compunctions about sharing her. Unfortunately, she feels that she has to choose. Her feelings are affecting all of their relationships, how can they prove to her that she has no need to pick one of them?

This very short read sets up the future books. This story is centred on sex, pure and simple. In the space of this uber quick read Kylie shows us the different side to each of the men in a very carnal way (I'm a Brad fan :D) and then they show us exactly how the men intend to “share” her. It's an unapologetically kinky read and I loved it! There is very little character development due to the length; it didn't bother me in the slightest. I got to know Kylie; I didn't really need to see her change. If I had one complaint, it would be I know very little about the men aside of their feelings towards Kylie. The sex scenes were steam-up-the-windows hot; for such a short read, it did a good job on my pulse rate! I have always been a fan of ménage (hence why I love this series) and this is certainly a good example of that genre.

Exotic Indulgence is the starting point to the Bandicoot Cove story and its FREE people! Go get it and have a taste of what's to come! I was very impressed that three authors wrote this one tale; it was pretty seamless. I would recommend you take the time to download this one, as Kylie is pivotal to all the other books (who do you think invites the other guests :D).

If you like your romance hot and your men in multiples, this series is a must-buy. This quickie introduces us

to our hostess and her men...they certainly are a fun bunch :D

This was a fun read... Like a 3.5 Will read the rest of the series.

FREE FROM AMAZON. my favourite kind of price.

This first book for bandicoot series is short but very mighty. With three very sexy guys fighting for Kylie's heart but then they realise to have everything they have to work together. Really great ending to a amazing short book. Really nice easy read.

3.5 Stars

I think this short story accomplishes what it has set out to achieve. In my opinion it's a story to get your motor running. Say for instance if you had a guy who didn't know the meaning of foreplay – this is the sort of book you would read to crank your own engine. It doesn't have a huge amount of story line and this is little time at all to build a connection between the characters – but there is a whole heap of sex.

Totally random, naughty sex.

So if you are looking to crank your engine this is a good story to do it. In little over 100 pages there is vaginal sex, oral, anal then the finale is quite intense with a mixture of all of the above.....all at the same time.

Saunders says

Not sure what this series was trying to achieve or the authors who had a part in writing it, but it was poor a really bad storyline with mediocre characters

Kimberly Graham says

Whew..."his 6 foot shoulders and wash board abs turned me into a puddle of need! Wow, very sexy...3 1/2 stars for this steamy island resort fantasy.

Jill says

very short sexy read.

Caro says

I flip-flopped between 2 or 3 stars. I really liked the way this was written. It really got the feelings across and had some really good steamy scenes, but towards the end I wasn't feeling it anymore. I think this is an opinionated thing, but I don't much care for more than two participants. And four seemed a little overload. The writers did really well writing though and if this was an erotic with just two it would have been a dynamite book, even if it was a shorter book. So three for the actual book but two because of my personal perspective of not being into more than a pair. Although I would give four to five stars if this was the story of just a pair. (Kindle freebie) Enjoy

Kelly says

Definitely on the sexy side, this was a nice introduction to the upcoming Bandicoot Cove series. Seeing as how I like menage books and I like books where good things happen to the main characters, this novella ended up being a win/win situation for me.

All three of Kylie's men are sexy, hot, hot, and hot. Also, they all appear to be extraordinarily gifted with their tongues and/or fingers. I appreciate that in main men. Kylie enjoys each of her men for the *ahem* joy they bring to her life. She can't decide between them and, really, who could in her shoes?

Short, but sexy as hell and well worth settling in with for a quick read.

Auntee says

Not bad for a smutty, fantasy read--just don't expect a whole lot of plot or character development.

Kylie's the manager of an exclusive, 5-star luxury resort (Bandicoot Cove) set to open soon on Bilby Island (Australia). Despite being swamped with work and under the gun, she's managed to carry on 3 sexual relationships with three of the resort's employees (none directly under her supervision, natch). Darkly sexy, blue-eyed Brad (who I *think* has something to do with the resort's harbor?) is her oral-pleasure buddy; tall, dark, and over-endowed 'Maori warrior' scuba instructor Hemi can give her pleasure with just the right 'touch'; and shaggy blond 'bad boy' with abs-of-steel Finn *Hardy* is the resort's oh-so-talented bartender. Kylie's got relationships going on with all three men, and can't decide who to choose. How can she? Maybe she won't have to...

Yep, as you can imagine, this little quickie leads up to one big fantasy sex scene starring all four (m/f/m/m...no m/m action) of them. And it's *hot*, of course, but would be a whole lot hotter if the rest of the story/characters were further developed. Don't know if this is a one shot deal or not, but I can imagine there being additional erotic stories centered around the guests and/or employees of this resort. 3 1/2 stars
