### Patrick says

Better than the last couple issues. also I'm the first to rate this on goodreads! :-)

### Teresa says

This was, by far, the biggest let down in this series to date. I'm as much a fan of 'to be continued' storylines as the next gal, but this was a bit contrived, even for Harley. Are they TRYING to make her look like a stupid clown???

### Connie says

4/5 stars

ACTION. EXPLOSIONS. SEVERED HEADS. OLD PEOPLE MAKING OUT. LOADS AND LOADS OF ANIMALS. THIS ISSUE HAS IT ALL.

Gotta say, the violence and gore in this issue was much appreciated. Harley's humane side with the animals is mixed with her psychotic murderous side, which I also dig a lot, because I too love animals (minus the whole killing people thing, of course). I think the rhino panel, KO-SHERR scene and the magic severed head really stole it for me, though.

However, I didn't really understand the reasoning behind the last death, and how that guy in particular effed Syborg over- I mean, I have an inkling, but I'm still quite confused over it.

Harley's (and my own) favourite girl has returned, and for that I am grateful.

### Mandy says

I was stuck in a reading funk and decided to give a comic a shot. Little did I know I would become a huge fan of Harley Quinn that I have been devouring all her comics. I love the art and the stories paint her in a light I never expected. I have enjoyed every installment so far and looking forward to reading them all. Highly recommend she's quickly become my favorite DC character.

### Elizabeth ? says

Enemy: Any last words?

Harley: Pneumonoultramicroscopicsilicovolcanoconiosis!

Enemy: What is that?

Harley: Longest word in the dictionary. As far as last words go, it's a doozy.

### **Magdalena aka A Bookaholic Swede says**

Harley Quinn is such a sweet little psychopath. A great friend to animals, not so much friend to the people on the hit list that Cyborg has. A violent issue, well all the Harley Quinn issues are violent. A bit better than the last one, but I'm pleased that this issue concludes the Cyborg missions and Harley can go on to more interesting missions.

So amazing!! Just completely wonderful! :D <3

### **Phoebe says**

[Harley pulled off all the rings from the woman. Totally something Harley would do and links with her love for fashion, clothes and looking classy and cute. (hide spoiler)]

### **Jessica says**

I was really glad to see Poison Ivy at the end and definitely ready to put this episode arc behind me----as we are back on track to who is putting hits on Harley.
