## **Inseparable** Brenda Jackson

Living under Reese Madaris's roof makes LaKenna James the envy of every woman in town. But Reese's offer of a place to stay is strictly platonic--just until Kenna's new condo is completed. He has no idea that his best friend has been attracted to him since college, and Kenna plans to keep it that way.

Ever since his cousin Blade got married, Reese has become Houston's most eligible bachelor--and a magnet for gold diggers. Reese turns to his temporary roommate for dating advice, and suddenly sees Kenna for the beautiful, voluptuous woman she is. Though Kenna's afraid to give her heart to the man who could so easily break it, when her life is in jeopardy, she'll discover just how far a Madaris man will go when love is at stake...

It was nice to see Brenda Jackson switch up her style again. The suspense that she added was a welcomed change, but the love story was the typical Brenda Jackson deal. This is the last book I am going to read from her this year. I am just tired of the same love story over and over again.

Another Madaris male bites the dust to true love. Reese Madaris and his best friend LaKenna James had to go through layers of their friendship to finally realize that they were truly in love and inseparable. Another awesome love story in the Madaris series. "Where on earth can I find one of those men for myself"?

Love a friends-to-lovers story :) This is part of her Madaris family series, but I was able to read it as a stand-alone. (There are clearly characters who starred in previous books, and some that may be in coming stories mentioned.)

So Reese Madaris is now THE hot bachelor because another cousin recently married, leaving him the dubious title. He invited his best friend, LaKenna James to stay at his place until her condo is finished. They've been best friends since college, and while Kenna has secretly longed for Reese for years, they've both been in relationships over those years and she's firmly tamped down her attraction for him into that little "I can't have him so don't go there" space.

For once though, neither of them is involved with anyone else, and Reese's blinders to Kenna's many feminine attractions are suddenly gone, and his lack of resistance to her stuns him.

A bit of a suspense plot involving a serial killer and a great supporting cast of characters rounds out the story nicely. Ms. Jackson does a great job with the emotional intensity of their attraction and balances it with the warm cushion of their friends and Reese's loving family.

I am a fan of the Madaris series and this was a darn good book. There is a killer on the loose in Houston and he is harming innocent women. So of course the Madaris men and friends try to lock down their women! Seriously though this book focuses on Reese Madaris and his bestfriend Kenna. There is not much I can tell you without spoiling the book for you. I can tell you that this is a who done it to the bitter end! Enjoy and let me know what you think of the book.

### **The Book Junkie Reads . . . says**

Inseparable is most certainly what this is. Suspense around the corner and in the next new friend. Jackson is very good when it comes to putting a little suspense in romance. This was not lacking at all in this story. Romance abound for the two unsuspecting best friends.

Kenna learned that being best friends made the loving a lot better and improved their friendship. As usual the man is a little slow on the uptake. But Reese made of for it in style.

#### **Awesome**

I love it the romance, the danger it's a must read. Reese and Kenna best friends turn lovers is always a good foundation for long lasting relationship.

Another great romance novel of Brenda Jackson

When it comes to romance novels I tend to stick with writers whose work I have enjoyed before. This was my first reading of Brenda Jackson's work and I want more. The characters were likeable and the romantic situation believable. This novel is part of a family series and there are teasers about the secondary characters that will urge you to read more of this family's saga. So be warned!

### **Shh I'm reading! says**

It was a good story and I liked Reese and Kenna. My biggest issue was the repetitiveness of the writing. It felt like every other page she was telling me how attracted they we're to each other or that they were friends and only friends so why couldn't other people understand their relationship. It was frustrating.

Yes!!! This is the story of two best friend Reese and Kenna who move their relationship from being best friends to lovers. Let's just say when they get to lovers they were combustible together, on and popping. The love scenes are super hot and sexy (love the hot tub). Reese is one Madaris man you don't want to mess with and I loved Kenna she was sweet, she loved Reese and was willing to let him go just so they wouldn't lose their friendship. Now she has it all the man and the friendship. This is a favorite of mine now. Will have to re-read soon.

How special is the relationship and friendship between Reese and Kenna. Not only did their friendship survive the test of time, their love for one another was strong enough to last a lifetime. Very lovely story!! Next.... Ms. Peyton and De'Angelo! Hmmm

### **Kesha says**

I liked this book and I am glad I read it because honestly, I had gotten turned off by Mrs. Jacksons' books. Two things that I loved about this book were:

1. The heroine was not a virgin.
2. The hero was not a slut who slept with every woman that he found attractive. He was a serial monogamist, something that is damn near unheard of for a male lead in a Brenda Jackson book.

This book had drama, mystery, a little suspense, and of course the over bearing, almost too Alpha men. It was a good book and a nice departure from the usual.
