## From Reader Review School of Mischief for online ebook

### Lee says

I read this with my daughter as part of her reading log for school. I know I'm a cynical adult, but it struck me as dull, lazy, and unimaginative. Not everyone can write like Roald Dahl. I get it. But it's a mistake to assume so little of children. It reads like a first draft they decided to publish that day. My daughter's attention was occasionally held, but not often.
