*Dani René*

Severed Dani René

**\*This is NOT a standalone. You need to read Stolen - The Prequel to fully understand this storyline.**

My world was hell on earth, son of a man who was evil incarnate.  
Hate was all I knew.

When she was stolen, I swore I'd find her.  
When I meet her eyes again, I remember what I'm fighting for.  
The girl will be mine.

\*\*\*

I've seen true evil, held captive by the devil himself.  
And now revenge is all I know.

Everything was stolen from me. Until him.  
When my eyes meet his, I'm caught in his web.  
Each moment that passes only confirms what I already know—I'm his.

**\*This is a dark romance. Due to scenes of an adult nature, this book is for 18+ ONLY. That's the only warning you'll get.**

# From Reader Review Severed for online ebook

## Michelle1005 says

Dani René is well known for her dark and dirty books. And let me say this this one is definitely very DARK. And very important thing you must read “Stolen: The prequel” first in order to get this story. And then you won’t be surprised about all kinds of dark, twisted, gory things that may happen in this part. Yet despite all of that I loved this book every step of the way. “Severed” is a wild ride from start to finish and you will love every brutal moment of it. It’s not as gory as “Stolen” but don’t let that fool you because it’s still very VERY DARK. This part is focused on vengeance. It shows that savior won’t always come on white horse.

Sometimes he will come on a dark horse and being saved from one evil will result I throwing you into even hotter flame. But there is something about these characters that made me want to reach out and grab ahold of them. Drake and River are at the same time dark and mysterious, both depraved in their own ways. But at the same time Drake has the ability to capture every reader’s dark heart. I can’t wait to see what will happen next. Yet another book this year that left me in both state of shock and anticipation of what will happen next.

I am in constant awe of Dani and her writing. From the first page this author will suck you in her books and drown you in her words. This is definitely a must read for readers who love theirs stories more on the darker side.

### In Short

- I was gripped from the first page.
- It's dark, gritty and gripping.
- I need more of Drake and Caia.

### In Long

I was gripped from the first page right until the end. The writing leaves you gasping for another word, another page, another chapter. I just couldn't put the book down!

The writing is so engaging, the characters are so real and the story line so gripping. I loved even more how it's not just the main two characters which were well developed but all of the characters, for me this is always a winner and makes the book so much more engaging.

There are a lot of the characters thoughts and in depth ones at that. This meant I really got to know them, especially Drake, my opinion completely changed of him.

Dani is a fantastic author who I will definitely be reading more of and ensuring I don't miss any new books of hers. I am holding out for The Taken #2.

#### Final Thoughts

I wasn't sure what to expect from Severed after reading Stolen but I know if I had expected anything it would have gone way above my expectations! I was completely gripped by Severed.

#### Quotes

'Without them, I'm not sure I'll be able to survive. But with them, I may be broken even more. I just need to decide which is the lesser of the two evils.'

'You remind me of the bird. Beautiful, yet darkness seems to consume you. Exquisite, but can be as violent as a bird of prey. It can devour the dead, but also shimmer in the sunlight.'

---

### **Philomena Callan Cheekypee says**

Make sure you read Stolen before you read Severed or you'll be totally lost.

I am in awe of this author. Seriously can't get enough of her writing. From the first page this author sucks me in until I'm truly drowning in her words. Each review I write I'm stumped. I just haven't got the words to do this book the justice it deserves. I opened to read a few pages and next thing I know I'm sitting and cursing that it's ended.

Stolen broke me. Drake and Caia broke me. Their lives were never normal. Now in Severed the story continues. My heart was literally thumping reads part of this story.

A must read who love their stories on the darker side.

### **Carla Bulian says**

3,8. Fiquei desapontada com essa continuação. Achei tudo muito forçado!

Algumas situações criadas batidas, só para dar ibope.

Esperava mais.

---

### **Becky Ballenger says**

This book had me all kinds of shook!!!! Dani Rene does dark romance ohhhh soooo goooood!!!!!! Omgosh!!!!!! She's such a queen of dark romance, she should wear a crown!!!!

---

### **Melissa Fisher says**

We have come to know Dani and her dark and dirty. Well this one is definitely DARK. And I loved it every

step of the way. When dark and depraved things happen and you tend to want more, it makes you wonder what is going on. When things should have u hiding in shadows and squirming in your seat yet you keep going back for more. That's what this book does. You have to remember that the savior isn't always a white knight. Sometimes what comes is a dark horse. Sometimes being saved from one evil only throws you into an even hotter flame. There is something about these characters that makes you want to reach out and grab ahold of them. Cuddle and hold them and hope you don't get burned. Drake and River are both dark and mysterious. Both dark and depraved in their own ways. Drake has captured my dark heart tho. I can not wait to see what else happens. This book has left me in a state of both shock and what happens next. Dani definitely knows how to grip her readers and hold them captive awaiting her next words!!

---

### **Maria Hunt says**

Severed is one of my absolute favorite dark romances to date. After reading the prequel *Stolen* I figured out quickly I was in for an unforgettable read and *Severed* blew all my expectations. Dark, gritty and spellbinding *Severed* held me riveted until the very last page.

There were moments where my jaw literally felt like it was on the ground and in the next moment I was thirsting for revenge right along with Caia and Drake. I loved the secondary characters just as much and how much they added to this story. Together they all pulled me further into the Savage's world as I was desperate to unravel what was truly going on. Their world is one that nightmares are made of yet at the same time I couldn't dive quickly enough into it. I was unexpectedly taken by surprise by twists and turns that managed to constantly keep me on my toes.

*Severed* is not a light and fluffy romance. It will drag you into the dark with an utterly captivating read that will keep your head spinning and your heart racing until the very end.

---

### **Cassandra Pratt says**

I didn't know if this story could get better after reading *Stolen*, but it did. I haven't read a lot of books like these, but I can't put them down. *Severed* was amazing, and unlike anything that I have ever read. This is an extremely dark story, and the characters are just as dark. Dani did an amazing job with this book!

---

### **Helen Altafulla says**

...

I didn't think this story could get better after reading *Stolen: The Prequel*. That book was ALL KINDS OF DARK, TWISTED, GORY, AND AMAZING.

Then, I finish *Severed* and am left with my jaw hanging wide open.

Yes, *Severed* isn't as gory as *Stolen*, but don't let that fool you. This book was still dark as F.

Dani René is a dark mastermind. The way she comes up with these stories just baffles me.

I was always intrigued by Drake and Caia ever since reading the short on the anthology released a few months ago, and was ecstatic when I heard these books were being made.

This book is dark, raw, gritty, revengeful, sexy, explosive, and unpredictable.

I honestly didn't see it going the way it did, and I loved that.

We get to explore a new side of Caia and Drake that I didn't get to think was possible. Not to mention the side characters in the story were perfection. Everyone added the perfect blend to this fucked up book.

New secrets are being unraveled, new threats are explored. The tangled web that are the Savage Brothers is one you will be sucked into and have a hard time getting out.

I can't wait to explore more into this world.

Another masterpiece by this author!

---

### **Tre Talbot says**

5 bloody stars!

Let me start off by saying you have to read the prequel *Stolen* before even considering starting *Severed*.

When I first heard about this author wanting to go dark I never expected any of this, this story swallowed me whole and I couldn't put my kindle down. The multiple POV's provided throughout this book have you connecting with the characters more than you thought you could. Caia is a girl, a woman that is strong and a fighter even after all she has been through. Drake has been forced into a lifestyle that he cannot change yet is determined to fulfill his promises. The events that occur will leave you cringing and heart pounding all while having to turn the page to see what happens next. The details have the words jumping off the page and playing as a movie before your very eyes. Seeing where not only Caia and Drake but also River and Dante started to where they end goes to show you that there are things in life you need to accept and others that can be altered for you to continue forward. This story is not for the faint of heart and as the warnings have already been said I will reiterate once again, there are multiple triggers throughout so if you have limits make sure to take this into consideration before reading. I hope this isn't the end for these dark and gruesome reads from this author. I hope there's more in the future. This is my unbiased and voluntary review.

---

### **Madeleine East says**

If you haven't read *Stolen*, you will not understand this book. Drake and Caia. Caia and River. River and Dante. These 4 had my head spinning. Dani lured me in yet again. Hook, line and sinker.

---

### **Amber- Leave Me Alone I'm Reading says**

*Severed* is bloody fantastic! A dark and wild ride from start to finish. I loved every brutal moment.

Vengeance is one of my absolutely favorite things, and in this book, there is so much to atone for. It's gruesome and perfect in every way. If you like dark romance, and I mean super, super dark, you can't miss this book! I loved it and I can't wait for more of these awesome characters.

---

### **Renee says**

I received a copy of this book from the publisher/author to review for Stephanie's Book Reports.

My world was hell on earth, son of a man who was evil incarnate. Hate was all I knew. When she was stole, I

swore I'd find her. When I meet her eyes again, I remember what I'm fighting for. The girl will be mine. She has seen true evil, help captive by the devil himself. And now revenge is all I know. Everything was stolen from me. Until him. When my eyes meet his, I am caught in his web. Each moment that passes only confirm what I already know-I'm his.

You have to read stolen before you can read Severed or your not going to understand at all what is going on. Saying that Severed picks up right where Severed left off...well maybe four years into the future but it feels like it takes off right where if left off. Your not going to get much of the story line from me I think this book is best experienced with as little as possible known about the story. I will say that I love me some Drake and River and Caia. This is where they get what they have coming for them and the people who have wronged them are going to pay. I loved this book. It is dark and gory and will push your limits but the pay off is so worth it. You do not want to miss this book if you love dark books that push your boundaries

### **Enakshi - The E-Book Addict says**

\*CANNOT BE READ AS A STANDALONE  
MUST READ THE PREQUEL- STOLEN BEFORE READING THIS\*

I loved Stolen, how dark yet beautifully written it was BUT I'm more in love with SEVERED . Dani Rene composed her words in such a beautiful way that we get to really understand the storyin detail.  
I loved loved loved this book so much.  
Absolutely re commending!
