What a great "quickie". The only bad thing I have to say about it is that I didnt have SR11 to jump into as soon as I hit the end of 10. The love story between Hawke and Bee is coming along very nicely. And its one of those story that you can see happening in real life. I cant wait to see how their story unfolds.

The revelations just keep on coming in this installment of Sinful Rewards. Bee is her usual wishy-washy self. She wants to go but can't stand the thought of leaving Hawke, but can't stay either...But she was also very selfless. She put herself out there to try and do her part to keep everyone safe and cared for.

We learned a lot more about Hawke in this book which was nice. There were actual open lines of communication between him and Bee which was a nice change of pace for them. Don't get me wrong there was still plenty of hot sex. And the newest challenge from friendly was quite steamy as well. Nicholas makes an appearance too. It was good to see him loosen up a bit.

I liked having Bee's mom more involved since what Bee does and puts herself through so much for is her mom. So it was great seeing them interact outside of the diner.

I absolutely loved the way this one ended. I thought to myself, FINALLY!! I can't wait to see where the road takes Bee and Hawke next.

Scintillating, mesmerising sex scenes that will leave you panting, Bee's love, Bee's panic, Bee's new job which might make you cry, and would you believe surprises galore? SINFUL REWARDS 10 is super fast-paced; there is a lot of action – yes dear readers! – and not only in the bedroom! Fabulous, exciting, sexy, sexy, sexy. It's hard to believe, but this might be the best of the 10! The next instalment will not come early enough!

Shannon's Thoughts

Yay! Finally, Belinda gets the full truth out of Hawke!!! It's only taken 5 or so installments for Bee to understand that this man is everything she's always wanted. It comes out in a fashion that is typical for Bee, as she rushes headlong into trying to save her man, but at least now she understands that she and Hawke are most definitely everything the other has ever wanted.

There a little bit more mystery about Mr. Friendly. I'm anxious to discover just who this man is sending Bee on her little missions, especially when even I began to question if I really have the right person pegged as him.

I'm anxiously awaiting #11. Cynthia Sax has created a storyline and characters that I can't help but follow (and I generally don't like serials).

Another fun installment in this series, in which Bee thinks she'll need to get a job in order to help pay expenses while she's living with Hawke. Things don't work out however and she's chased from her quasi-job by the paparazzi. She's also receiving messages and rewards from Friendly again. As if that wasn't enough, Bee is under the impression that Hawke doesn't really care anything about her. It's not until she teaches Nicolas how to bake cookies that she gains a bit of insight into her relationship with Hawke.

But finally, finally, Bee is sure of Friendly's identity. And she also learns more about the Organization and Hawke's role within the company. The fact that while Bee and Hawke haven't been together all that long and he still considers her his partner? Twelve kinds of awesome badass!

Sinful Rewards is like my ultimately fav. series. This installment had me infuriated. I think it's the way that Bee carries herself. She's like a child that can comprehend and it's sort of annoying. Hawke has to say every single installment that he's not going to be blown to pieces and she still doesn't understand. I am truly annoyed by her in this 10th installment. Although, I still enjoy Hawke. I have to give it to him; the man has some patience because Bee is two handfuls. I'm still curious of what he needs to tell her. And who is this friendly, because at this point and I'm really unsure. That makes me nervous. Only two more installments now and I'm hanging on by a thread.

Racy says

Belinda's greatest fear is that Hawke will be killed due to his dangerous job. She has nightmares about it just about ever night. She can only hope that her greatest fear will not become reality. Though deep down Belinda knows she loves Hawke she refuses to allow herself to say it out loud.

Hawke is reliable, honorable, and trustworthy. Belinda knows that no matter where she is Hawke will find her. So it was no surprise that when she creatively figured out away to sneak out to look for a job and ended up in trouble that Hawke would come for her. He is her safety net.

Hawke has a secret, one that Belinda will be totally surprised to find out. How will she react when he reveals this secret? Want to know what the secret is, well read the book to find out.

Once again Cynthia Sax did not disappoint. This book had you wondering what was coming next. He made you laugh and left you hot and wet. So loving this series.

Secrets revealed

Bee still fills the need to help Hawke with expenses. She tries to sell her Mr Friendly items. For some reason nobody is calling about them. She gets a waitress job but gets noticed. So much happens in this installment. The most important arenope telling.....lol.... The story never fails to pull me in with each installment. It is a most read. I do advise to start from the beginning if you are gonna read this...

10 is what I've been waiting and wanting in the Sinful Rewards serial! I've been enjoying each installment in Sax's serial but this recent addition was spot on. I loved the action packed in this fast paced, sexy read. Bee is Bee, still not quite believing in what she has with Hawke. Learning more about Hawke and the continued development of Bee and Hawke's life together are favorites. And I can't forget about all the hot scenes.

With only two installments left, I can't wait to find out what happens next.

Kim Ginsberg says

Time to get back on this awesome roller coaster for the next installment of this crazy series. Follow as Bee takes her own advice and figures a way to leave the condo without being seen by the paps. What happens when she takes a job as waitress and they track her down on accident? Will they follow her when she makes a run for it? What happens when Hawke comes and rescues her? What happens when she makes an unexpected friend while she waits? Friendly sends her another task, does she really know who it is? What happens when Nicolas comes over and bakes cookies with Bee? What does Hawke think of this? Does Nicolas really like her? How does Hawke feel about her? Who is Hake really? Find out the answers in this

installment of the Sinful series!!!

Cindy says

Had trouble putting it on my eReader, so just read it using the desktop program. SO happy, Bee finally figured out that Hawke has money. Hopefully she can start trusting that his feelings for her are real and that he isn't with her only out of obligation.

Cara Ross says

So finally Sinful Rewards 10 is here!!!! And I am equally thrilled and devastated all at the same time! So far we have all invested our emotions (well at least I have) in to the Sinful Rewards series, so I might be heading into a book hangover once this is all said and done.

So on to the actual book. We begin with Bee losing her mind! Not literally, but she allows all of her fears control her and inadvertently Hawke too. But Hawke; like the delicious gentleman that he is, He tries to put all of her fears to rest. Even when Bee puts herself in an awkward position, Hawke is there to rescue her...damn! I need to find a man like that!

By the end of the book a there is a new edition to Bee's family....I just love the pitter patter little feet on the floor. Also a big secret is revealed to Bee and you are left wondering just how she will handle it.

As we have come to expect with Cynthia Sax; the writing is smooth, flows well and is so addictive, my husband has had to pull my iPad from my hands at 2am and reminds me I have to work the next day! And this is when I get the mixed emotions of the end of the story saga starts. But then a friend reminded me the other day that Cynthia never says goodbye to her characters and sometimes there is a cameo.

So yet again Cynthia Sax blows my mind! How she comes up with these characters and storylines amazes me! I would love to one day, meet and discuss her process. She is one of the most interactive authors I have ever had the honor of being knowing. She is there talking to her fans at every Avon Romance Facebook chat and friends Release Day party.

So after all that fan-girling, I give an extremely well deserved 10 out of 10!

Cris Conquers says

The tenth edition of Sinful Rewards is finally here and it's chock-full of Bee and Hawke gettin' their lovin' on. Physically of course, but also in that warm and fuzzy "I love you" kind of way that we've all just been longing for. They're building a life together—even with the swarm of paparazzi staking out their home—and growing stronger and closer in their love every day. They even get a furry little addition to the family! Queue all the dreamy sighs.

If you were hoping for some more Neurotic Bee then you're in luck because Bee's recurring worries about finances rear their ugly head yet again. But like the darling, protective, sweet man he is, Hawke always finds a way of addressing and soothing her fears head on. Much as we all suspected, Hawke's finances are very different from what Bee assumed. He's adorably thrilled that she chose him above Nicholas and all others in spite of his perceived lack of finances and the security she has always craved. Although Bee's obsession with money has annoyed me a bit throughout the series, I see how important it is in establishing that she always

wanted and loved Hawke above anyone else, in spite of his lack of wealth, fashion sense and ability to give her the security she desires. She loves him for him, not for his bank account, and now he knows for certain.

Sinful Rewards 10 packs some serious heat. Perhaps even more than some of the recent installments. Hawke and Bee can't seem to keep their hands off each other, even with frequent emergency interruptions. So many dirty, delicious scenes with an exhibitionist twist that really make this book a scorcher.

The only downside to Sinful Rewards 10 is knowing that there are only two more installments left in the series. This novella is just as addictive as its predecessors and filled with even more sexy-sweet goodness. I doubt that I'll ever be able to get enough of Hawke. That man is just...everything. Keep 'em coming, Cynthia Sax, and I'll most definitely keep reading 'em.

Hawke one DAMN beautiful soldier. Who can't love this man? Who's love and dedication seeps through his pores. He'll never falter or make you unsure of where you stand in his world. Belinda is one lucky lady....and I truly need confirmation on who's Mr Friendly!!!
