Seeing ghosts...

Jessica and Elizabeth Wakefield are looking forward to the most glorious Christmas ever. The tree is trimmed, the presents are wrapped, and movie star Beau Dillon is coming to town! The actor, who'll be in Sweet Valley to publicize his new movie, has agreed to help Elizabeth raise money for children's wing of the local hospital. But when the teen star arrives at the Wakefields' house, it's Jessica, not Elizabeth, he meets.

What's the harm in pretending to be your twin? No harm, Jessica thinks—until strange things start happening and three ghostly visitors appear. Is Jessica's imagination working overtime or have the spirits of Christmas past, present, and future come to teach Jessica the lesson of a lifetime?

The Christmas Ghost by Francine Pascal was your classic take on A Christmas Carol. It was a Super Chiller(!) which really just meant it was longer than some of the others. In this one, Jessica is jerk. Elizabeth somehow gets a famous actor to agree to come by her house to talk about the fundraising she's doing for a children's hospital. When he doesn't show up, Elizabeth is bummed. She leaves the house, and Jessica stays around. Well, turns out the dude had car trouble, so he shows up late. Jessica decides she won't tell Elizabeth and is going to meet him for dinner the next day. Jerk move, right? Well, she goes to bed, the ghosts of past/present/future meet her as they do, and I bet you can guess how it ends. Predictable? Yes, but I kind of liked that about it.

"I'm Sorry, Dickens" :

A lifetime of ghosts /  
could not save Jess from herself. /  
Was it worth a shot?

Quote(s):

"She'd march up and down. 'Beau Dillon doesn't keep his promises!' her sign would say. His popularity would plummet. Then he'd be sorry he let them down!"

Yep, I'm sure all the sixth-graders who have boycotted Brad Pitt's movies have really effected his income and career.

I still love this story! Based on the story of A Christmas story, Jessica is shown the error of her selfish, self centred ways. I used to read this every Christmas and am going to start doing so again! The Wakefield family at their best.

P.S I love Beau Dillon.

This was my favorite Sweet Valley Twins book when I was younger. It inspired me to write many ghost stories of my own.

### **Jodie says**

I love these girls. They are a huge part of my childhood. I laughed, cried, and lived with the Wakefields of Sweet Valley. I don't think my childhood would have been nearly as much fun without them.

Not quite as smoothly-/well-written as I remembered, but great fun to revisit!

Like in "A Christmas Carol," Jessica is shown the ghosts of Christmas past, present and future. We learn a lot about Jessica's personality, and a lot about her life.

Don't be fooled by the title (I know I was!), after all it's just a retelling of that Christmas-themed classic. Time for Jessica to know the error of her ways, even if it was delivered through the supernatural route.

I had way too much fun reading this knock-off of A Christmas Carol. It's just not Christmas in my house until I re-read a Sweet Valley!

You do have to wonder how Jessica turned out so awful in high school even with this epiphany she had at the age of 12, though. It's almost as if- gasp - there is no continuity in these books at all!

Christmas Carol with a Sweet Valley twist. I liked it a lot. But then again, any retelling of A Christmas Carol starts at like for me.
