A funny and charming story, with a dash of sci-fi :)

another really great read by Angela Verdenius.

she has a knack for writing BBW heroines that feels true and uncomplicated. and her heroes!! get me a fan 'cause it's mighty hot in here!!

this book could most assuredly be read as a stand-alone but as all Angela's book are great and reprise characters from previous stories I highly recommend starting with either Doctor's Delight OR Alex and enjoying the madcap world the she has created.

Rating:

Nick Mason has been in the Army since he was seventeen. He has no family, which leads him to become pen pals with a lady from back home known to the troops as The Goodbye Girl. The day he is to be heading home he receives his last letter. But he doesn't want to say goodbye to the special lady he has come to know. He finds out that her letters are also posted from Whicha, the same place where his close friend Alex Lawson resides. He ends up coming home with Alex to find his Goodbye Girl, but when he finds out who she is he is in for a handful. Bree, has always been on the move with her mother, moving from city to city looking for UFO sightings. She finds herself settling in Whicha where she meets Nick. They both know who they are to each other, the connection but will it be enough to withstand their different beliefs?

This book is full of humour, drama and action...hmmm, and a lot of mentions of probing by little grey men. haha! specifically anal probing?!

Okay, I am an uber fan of Angela Verdenius books. And this one did not disappoint! I love love loved it! from the crazy banter between Alex and Nick, Paul's crazy views on dealing with his wife Becky to the Bree's crazy UFO speculations! :) all in all this book will not disappoint!

1.5 stars, a struggle to read this utterly boring book

This could have been so much better, if it hadn't been so dreadfully boring! It was a story about nothing. Nothing, no emotion, hardly any connection and very little that actually happens. I don't remember the previous books in this series being so boring, so something just seemed to go off here. It could have been about two people falling in love, despite the huge differences in their lives, the distance, the separation, the beliefs, but no, alien and UFO chasing was the horse that was beaten to death here. Over and over again. The dialogue was so awkward, neither the H nor the h sounded real, it was as if this book was written with the purpose of putting me to sleep and it did. The worst part of this book was the Hero, he was so perfect he was boring too, and his role in the story was simply not enough to sustain my interest, almost like the non-hero of chick-lit. These books are quite formulaic and I am disappointed but it is time for me to stop reading this author's books.

Okay. Nick is searching for the Goodbye Girl when he finally meets her I have to think

Then you get to know Bree and if you're not a believer you think she should be here (along with a few others)

But when someone asks her a question she's very shrewd. Actually this could also be for Ed, the mail clerk...or plenty of people in that town, come to think of it.

The story of course has plenty of humour and highjinks! And rain...lots of rain. Just read it!!

One thing I can say for certain, if I ever do meet an alien

I hope it will end up being something like this

and not

Sargent Nick Mason is serving in Afghanistan along with his friend Alex & Haley Lawson (The Lawson Boys~Alex). He has no family and awhile back a soldier gave him a letter. Not just any letter, a letter that is written from the infamous Goodbye Girl. Her name is Bree...no last name and with a PO box that has a different city every couple of letters. She writes to lonely soldiers who have no family. When that soldiers tour is done that soldier receives a goodbye from Bree and he is suppose to pass it down to another soldier. Well Nick refuses to pass it down. He basically has fallen in love with Bree. When he receives his Goodbye letter Nick notices a new city on the envelope, its from Whicha, the small town Alex and Haley live. He is spending his leave with them and now he is determined to find who Bree is and make her his.

Bree is one of the town hairstylist, she hears a lot of things but when a client comes in and says she saw "something" in the sky with lights and it was any plane/helicopter...UFO...Bree is interested...She is a UFO hunter or retired hunter. Now she will go out and check things out but she is not much of a hunter anymore. She is ready to settle down and Hunter's travel and usually in groups for safety sake. No one wants to go missing and get probed.

Bree is BBW and funny. She is quite the character but being bigger she doesn't expect to land a gorgeous guy like Nick. Haley is the lucky one. Well Nick is ready and on the prowl. He never lets her go out on a hunt "alone" even though he thinks it is a bit nutty. But Nutty Bree is fine by him. He does NOT care about her quirk. If she can handle his overprotectiveness Bree is set. But UFOs aren't the only thing flying....Sparks are going off galore. The two are destined and the journey is both hot and hilarious!

The Premise

Aussie soldier Sergeant Nick Mason looks forward to getting letters from The Goodbye Girl, a woman who chooses a soldier without a family to correspond with during their time overseas. But now Nick's going home, and he receives her usual goodbye letter, and traditionally Nick should pass her along to the next lonely soldier - but he can bring himself to do that. So he sets out in search of the Goodbye Girl, but he's surprised by what he finds out.

Bree is the Goodbye Girl, and she's recently moved to a little town in Australia (which happens to be the town that Nick's visiting his friend Alex. Bree doesn't expect to meet Nick, ever. But she does, and he's not going to let her go.

My Thoughts

I liked Nick and Bree. He's protective without being smothering, she's independent yet not obstinately so. She's always had to take care of herself so it takes a while for her to adjust to Nick's concern for her. I liked seeing Alex and Harly (the H/h from a previous book). I always enjoy visiting the little 'vers Ms. Verdenius has created, and seeing old characters can add to the story without overwhelming the current narrative. The UFO angle is different, and I like that Bree is more in the vein of a Fox Mulder - she wants to believe, but she's not going to be a fool. Their attraction is more on the sweet than blazingly hot side, but I enjoyed it all the same. Yes, Bree is a BBW, but it's not the only thing that defines her, which I liked.

The Bottom Line

Sweet romance with a touch of the paranormal, I enjoyed it and I'll continue to buy Ms. Verdenius' books

The Goodbye Girl was a great book to read. I laughed at Nick and Bree's sense of humor and smiled at the sweet and alpha ways Nick acted towards Bree. It was funny, witty, sexy, hot, dirty minded ;), and quirky. LOL but I loved this book.

I love how the characters have some connection to the characters from Angela's other BBW CONTEMPORARY ROMANCE books. As always I look forward to the next. :)
Angela Verdenius you ROCK!!!

Aubrey says

What a fun book. So Bree (aka The Goodbye Girl) has been keeping soldier Nick company through letters and care packages while he has served abroad. However, Nick who is due leave decides to turn things from Goodbye to Hello. What he finds is surprising. Bree is a bbw who has two miscreant cats (aka the Air Raid Siren and the Weapon of Mass Destruction) and a penchant to chase UFO sightings.

Love everything by this author!!! The UFO stuff was a pretty wacky foil but yay for BBW romance!!

SaN~ says

I had a bit headache with the whole UFO thing.. But after all it's a good read :)

Celia says

Sweet romance definitely. I would have rated it higher if it didn't have UFO stuff. Nothing wrong with it - I just really don't like UFO stuff lol.

Christine Gibson says

I enjoyed this book greatly. The heroine is strong and quirky and the hero strong and supportive. At the same time the book has all the humor i have learned to expect from this author. A fun read.
