## Wet Angel Payne

T-Bomb, Tait Bommer's call-sign, has never described him more accurately. A loose cannon with a penchant for pissing people off, he's now responsible for a major screw-up during the First Special Forces Group's most recent mission. His mess has earned him two weeks of mandated R&R on the shores of Kauai, where the ultimatum is clear—straighten up and fly right, or don't return to active duty. But he's such a train wreck that even his best friend, Kellan Rush, isn't happy about having to pull babysitting duty.

When their "vacation" is interrupted by a stranger bearing nothing but a glare, a Bowie knife, and a lot of curves in a tiny bikini, they wonder if the trip hasn't been hijacked by island spirits. Surely they've found a goddess in this dark-haired beauty who not only sees their emotional scars but opens their spirits by exposing her own soul.

"Therapy" takes on new meaning when illicit desires become explosive passion...and their goddess's sweet submission. Neither man wants to leave the island paradise, a torment that's intensified when an old adversary threatens to steal their goddess—and rip their friendship apart.

Will Tait and Kellan let jealousy triumph? Or will they unite as brothers at arms for the most important mission of their lives in the name of the greatest cause of all—saving the woman they love?

### **Phuong says**

I am really enjoying this series. Not only is it really hot, but the men of the Special Ops are so such unique characters. This book is about Lani, Tait Boomer, and Kellan Rush. Tait and Kellan have been brothers in arms and brothers not by blood so they know each other really well that they can have conversations with each other just by facial expressions! Kellan is having a hard time trying to get Tait back to living life instead of mourning the death of his love. A screw up during an ops lands both Kellan and Tait in Hawaii where they were ordered to get themselves back together.

They encounter Lani their first night there while Tait is on an alcohol bender. Lani thought Tait and Kellan was working for Gunter, who has been trying to buy Lani's home and the surrounding land. Lani finds out that is not the case when Kellan and Tait helps her out when Gunter and his men comes for a visit. Lani finds both men attractive and acts on her attraction with Kellan. Even though she is attracted to Kellan, she finds herself attracted to Tait also. The 3 of them decided on a short term relationship but feelings get stronger for each of them that they must decide what they want. Added to the hot chemistry between the 3 of them, Tait and Kellan finds out about a plot that could harm the US and in order to protect not only the woman they are falling for but the country they love, they must put their skills to work.

Another great story in this series. I can't wait to read more.

I received a copy of this novel via NetGalley in exchange for an honest review.

Angel Payne does it again. Who knew a story could be so HOT. Tait, Kellan, and Lani take the Honor Bound series to a whole new level.

I was unsure of how I was going to feel about this one as it is unlike anything I have ever read before but Angel did not dissappoint!

Angel definitely writes a story that opens your mind to many different possibilities/situations. It's fun to learn and grow by seeing all aspects of a lifestyle in this amazing series.

5 Stars

Wet by Angel Payne is the fifth book in the Honor Bound series and was so so good! It can be read as a standalone but since I devoured all five in less than 4 days I highly recommend reading them! Ms. Payne takes you on an incredible ride filled with loss, heartache, friendships, and love.

Tait and Kellan have been sent to Kauai for two weeks to get their mojo back. After Tait suffered a horrible

loss, he has been on one crazy bender trying to mask his pain with booze. Kell, his brother-in-arms, has been put on babysitting duty and isn't too happy about it but wants his friend back to his normal self. While there, Lani, an island native, shows up wielding her knife letting these two men know she is not someone to be messed with. All isn't as it seems and she is in trouble and Tait and Kell have this fierce need to protect her. But what happens when they come face to face with the one man who not only destroyed Tait but is after Lani as well? Will they be able to get their revenge and protect her as well?

OHMYGOSHHHH!!! I absolutely LOVED this book! It was such an emotional roller coaster that had me on the edge of my seat! Ms. Payne is an amazing storyteller and I cannot wait to read the next book in the series!

Really liked this story and the eventual menage. Poor Tait, what a time he had dealing with his grief. Lani was a great heroine. Loved her, but she sure made a stupid decision at the end. She definitely didn't think that through.

They only part I didn't like and brought down my rating by one star was the paranormal aspect of Luna. Huh? That was weird and unnecessary.

### **Guilty Pleasures Book Reviews says**

Angel Payne really caught me off guard with this one. Wet was not what I thought it would be but it was a wonderful surprise. Best friends and a woman who brings them both to their knees with supporting characters that are both essential to the story and interesting.

Tait and Kellan are as close as brothers. Unfortunately, they see things a little different. Kellan can't understand what Tait is going through or how to get him to see that there is not much he can do but live with it. He's tried to get him to accept his loss and move on but, the bottom of a bottle is all that Tait can see. Until she comes into their lives. Tait thinks he's seeing a ghost. Kellan just sees a goddess.

Hokulani has enough problems. The last thing that she needs is two grown men wreaking more havoc in her life. Raising Leo, her teen-age brother, having Benson still trying everything in his power to get his hands on Hale Anelas, trying to make ends meet and now this. Two gorgeous men from Franz's unit stepping in and fighting her battles. But, the biggest thing she can't get over is how attracted she is to both of them. It may be time for a little Lani fun but, they're best friends, how does she choose? As the choice is made for her, her heart also reaches out to the other. As both of their intentions are made perfectly clear, maybe her fantasies can come true. But, she still has her original problem and now, there are even more problems with Leo and with the real reason why Benson wants her problem.

As the truth comes out and Kellan and Tait takes things to the next level, she has to come to terms with her feelings. She also has to explain to both of them what she has been going through, what has been going on in her head for the past few months. She also has to trust Hale Anelas to the two men who she has grown to love and respect.

I was really interested in this story from beginning to end. Angel Payne made it fun and intriguing ... an interesting combination. In fact, I laughed out loud within the first 5 minutes of reading Wet ... Hokulani was just perfect. Then, things started getting serious. I was surprised with all the twists and turns in the story and how it was all solved. With surprise characters and a wonderful happily-ever-after that was even a bigger surprise, I was thrilled that I read Wet.

### **Tracy- OMGReads says**

Wet is part of the greater Honor Bound series, but can be read as a standalone. This is the story of Lani, Tait, and Kellen. It's insanely sexy and the storyline is addictive.

Lani is a fighter. The first time we meet her, we know she is tough and determined. She manages to knock two guys to their knees, in more ways than one. Tait has been broken, emotionally. Kellen is babysitting Tait on a forced vacation to relax and get his head on straight. The three of them have interesting chemistry from the beginning, but I also loved the individual chemistry between each part of this triad. Lani was able to reach Tait in ways others had failed, including his best friends.

Overall, Wet is a hot and exciting ride. It was paced a bit slow, but exciting and emotional. The characters were interesting and complex. I would recommend to the reader looking for two sexy Dominants with a sexy submissive woman who can hold her own.

HOLY CRAP!!! HOT!!!!!!!!!!!!!!

This book was just amazing!!! The opening of the book had me dying in laughter just picturing Lani taking both men's shorts as she led them through the woods back to her home only to discover they weren't who she thought they were. The chemistry between them is amazing, from the beginning of the book it's clear Lani has a connection with both men individually.

Both men who come with their own back stories, especially Tait who is still nursing a broken heart after the death of a woman he started to fall in love with after a mission went south. His best friend Kellan was sent to baby sit him while he gets his act together, isn't happy about it but at the same time is willing to do anything to get his best friend back.

The chemistry quickly increases just as the danger and risk became apparent. Not only is Lani struggling with raising her teenage brother, but she's facing an uphill battle against a very rich and powerful man who wants to buy her parent's home and land. Kellan and Tait refuse to stand by and watch Lani lose everything.

I loved the intimacy between each couple as well as the trio when they were together. The friendship between Tait and Kellan was something that very few people ever experience. They are so intuned with each

other it's like they know what the other is thinking at all times. My only complaint is, that I would have loved to see their relationship progress as the trio became a trio. With as close as those two were, I could easily see them taking things to the next level in the bedroom with Lani.

The only thing holding me back from giving this book 5 stars was Luna. While I think her role was necessary as part of Tait's story, the whole psychic connection with Lani was just a little too much for me.

### **Angela T says**

Kellan Rush, Tait Bommer and Lani Kail. Tait had made a major mistake in scoping out the sights for Kells, shot while on a critical mission. It caused them to be banished to their CO's homeland of Hawaii for 2 weeks, to reflect on their actions as teammates. Little did they know that a sassy, fireball named Lani would knock them on their asses, literally, and then knock their hearts for a loop. While on the island, they suddenly find themselves back on active duty, because some very bad guys (some from the guys past) were trying to overtake, Lani's land, Hale Anelas, land of Angels. They will do anything to protect the woman they love, and that means protecting her home, which becomes their home.

### **Kristin says**

Sadly, I made a big mistake with this book.....I read this one, and none of the previous ones. :( I knew this wasn't a standalone, I was under no illusions that it wasn't, BUT, it sounded hot and I wanted to read it now, not 5 books from now! I figured that with a name like "Wet for her Warriors" it was basically literary porn anyway. How much background do I really need for that?!

It all worked out fine in regards to my ability to follow the story. What I HADN'T expected was to find a damn good story! There was an actual plot! A purpose! Well developed characters! It was actually a damn good story, not "literary porn" at all! And I know I would have like it more if I'd had the rest of the damn story! One of the few things I didnt care for was the "addition" (for me) of Luna. She was an extra character that I didnt want in there only because I didn't know her, I never developed a connection. My mistake.

So now here I am, 5 books into a series with only the last one read. I know what happens, massive spoilers! :( Even knowing that, I'm going to try to read them from the beginning.

I really do think that these books could use better titles. This book at least, is far better than the impression it gave off.

Oh.....and it WAS crazy hot too! ;)

### **Sissy's Romance Book Review says**

Wet by Angel Payne is the Fifth book in the "Honor Bound" series. This is the story of Lani Kail and Kellan Rush Tait Bommer. I do feel this can easily be a standalone book.

Tait has been going through a downward spiral since the death of a women named Luna Lawrence that he was involved with. So much so that it has started to effect his job with the US Army's First Special Forces Group and he is Ordered by John Franzen their battalion CO to go to Hawaii a home station to his mind back in the game. Kellan his brother in arms has been assigned to go with him to help with getting him back. This book opens to them drunk and fighting near West Kaua. Lani finds them on her property and thinks they are apart of the resort developer Gunter Benson gang of men. Lani threats the guys with her knife but she has the guys stunned with her beauty and braveness. Even Tait is woken up enough to start feeling alive again. Kellan and Tait make a stand with her that day and feel protective of her and her younger brother. This book had me from the first page! I could not put it down...Loved it!

### **Curtis E Evans says**

Hawaii, what a beautiful place for R&R and Angel Payne paints that picture perfectly in Wet. No matter what seems to ail you, that fresh air and the tropical beauty can lull away the worth of worries. Unless, your worries are hobbled by the memories of a lost love. How the hell is a fella supposed to recover from that? Tell me... how!

Wet is the fifth book in the Honor Bound series. Tait and Kellen are dispatched to Kauai for some down time, but as goes with all members of this series, things are never as simple as they seem. Sometimes babysitter really requires hard knocks. Other times, a softer approach works better.

If first impressions are the most important, their first meeting with the neighbor does not go well, yet, her eerily familiar nature and features is startling to them both. Lani is not what people would expect. She is extremely protective of her family and her property and very private. So what happens when these two show up on her beach late in the evening?

Even in the Garden of Eden there was turmoil. In Hawaii, things are no different, except the players wear suits and carry different devices. Thank goodness our guys are trained to be alert as even the players here have secrets.

Being thrust into the middle of a battle is nothing new for Tait and Kellen, but as time continues the goal and prize are more than they ever expected. And for Lani, there are few options other than to accept the help of men she has only just met. Funny thing is, sometimes unexpected meetings can build to be so much more.

Angel Payne, this story will continue to be a classic reread for years to come. Fun, humorous, hot, action filled and wonderful are but a few words I can use for this, but no matter what, I will always give this story 5 stars.

## Eva LeNoir says

After my utterly broken heart in A WILDer Wonderland, I quickly forgave Angel Payne as this story seamlessly unraveled. It is brilliantly set-up, making us understand the reasons for Luna's premature departure from the world. The menage, as it were, would not have existed and as they so fittingly say: There is a reason for everything. Fate, if you will. Although Tait is the broken, wounded and completely shattered soul in this story, I must say, Kellan touched my heart the most. As always, Ms Payne writes about her soldiers with passion and reverence, a true lover of the country's finest. That all being said, she has also done a great job introducing us to a fiesty, spiritually fascinating character that is Lani. All in all, I truly loved this book!

## ? BookAddict ✍ La Crimson Femme says

Two Special Forces men and a Hawaiian girl make a lava hawt ménage. Tait is still trying to recover from Luna's death. His mess up on a mission puts both him and Kellan off the roster. Forced for a mandatory R&R in their team leader Franz's home in Kauai, it is paradise. Well, it's paradise for some, but not for Tait and Kellan.

This 3.5 star story is deeper for me. Tait's struggle with Luna's death is painful to watch yet makes him all the more loveable. His downward spiral into drunken stupor isn't that hard to fathom. Kellan's feeling helpless as he's unable to pull Tait out of his funk. The two brother-in-arms in conflict with each other is hard to witness for both the reader and Lani.

Lani is an exotic character. She's a spitfire with a soft heart. Neighbor and honorary family member to Franz, she's in trouble. She's about to lose her family home to a slick ass hat resort developer. When Tait and Kellan come to her rescue, it's as if the stars align.

The characters in this story feel more three-dimensional to me. In addition, they stand out with their quirky characteristics. Their banter is both fun and sexual--lovely to read. The chemistry between these three is apparent and so good. This is the first ménage of Ms. Payne's I've read and it is very good. The sexual heat is delicious. The playfulness switching over to light kinky spankings is appetizing.

The BDSM in this story is very light. There is a bit of D/s with light impact play through spankings. The focus is more on the erotic ménage. Even though Tait and Kellan love each other, this is a M/f/M V formation with Lani as the focal point. The sex when the threesome finally get it on is good. The emergence of Kellan's dominant side is sweet. He takes his cue from Tait, the more experienced dominant.

This story isn't just about Tait's recovery and getting it on with a hot chick. There is also an action part with a familiar foe reappearing and a surprise reveal. This comes to light when Lani's situation is more dire than they thought. As Kellan uncovers the reason behind the purchase of Lani's lands, it's a complete cluster fucker. Franz sums it up best when he finds out during a call with the two.

*"Satan's flaming balls. How did trouble follow you asshats like a goddamn rain cloud to that island?" (pg. 167)*

The suspense part of this story is fun. Not sure how accurate it would be if I had a military background. Still, it's a nice touch and adds the element of conflict needed in this story. One of the heinous villains in this story, is of course, into BDSM torture. He uses a bullwhip and even though it's torture, the scene is still rather arousing for me. This is because there are restraints involved as well as a bullwhip. Having just experienced my first bullwhip session on my naked back several months ago, I am tainted in my opinion. Because my experience was very good and I'm hoping for a repeat, anytime I read about bullwhipping even at the hands of a sadistic rapist, I'm still a bit aroused. I digress.

Overall this is a BDSM-lite romantic suspense. It flows well and Ms. Payne does an excellent job of mixing in a bit of Hawaiian culture and bringing the Garden Isle to life. Recommended for ménage lovers who enjoy kinky alpha males.

### **Donna Repsher says**

Wet is the fifth title in the Honor Bound series, but only the second one I've read, and this novel was a far better, far hotter, and far more exciting novel than the first, and I'm happy to give it a 5-star rating.

In this novel, the title of which aptly describes the condition you'll be in while reading this story, two Special Forces sergeants, Tait Bommer and his brother-in-arms, Kellen Rush, who is his brother in spirit as well as his best friend, are on the island of Kauai, sent there for R&R after a mission they were on went south. Tait had messed up badly, primarily because his head hadn't been in the game after he lost the love of his life, Luna, when another earlier op went bad. After a night of heavy drinking, the heroine, Lani, finds them slugging it out on her beach, and the two men are spellbound by her beauty, especially Tait, because she so resembles his lost love.

Lani is doing her best to deal with the two hunky and gorgeous but intoxicated men while also trying to deal with the man who wants to buy her island home out from under her and turn it into a time-share resort, and he doesn't seem to care what he has to do to get Lani to sign the papers making her home his. When he shows up with a number of his goons to force the issue, Tait rises to the bait and another fight begins, Tait getting the worst of it, and then passing out her sofa. Kellan, who is also attracted to the stunning and sassy Lani, is already planning to act on his desire for her, and already committed to helping Lani and her younger brother, Leo, keep their home. There are darker forces at play in the land-grab scenario, which I won't spoil for you.

There is a lot more to his story than first meets the eye, it's well-written, and, quite frankly, I couldn't put it down. The relationship between the three principle characters is scorchingly hot, and definitely for mature readers only, since they include graphic sex, elements of menage, and BDSM power exchange scenes as well. These scenes are more than merely X-rated, they are deeply emotional and moving, as Tait, Kellan and Lani navigate their way through their own issues, their mutual attraction, their own pain, and their own healing. Even Lani's brother Leo has issues and I loved the thoughtful manner in which they were handled. To top it off, there's also a touch of the paranormal included in a scene or two, one of which brought me to tears.

Wet was an unexpectedly addictive read, and although I would have loved there to be an epilogue, I won't downgrade my rating because it wasn't there. This was, quite simply, an excellent, steamy, and exciting read, and I'll be backtracking to the second through fourth novels in this series I missed, and continue following it as the series moves forward.

I voluntarily read an advance reader copy of this novel. The opinions expressed are my own.
