Biker Bait

Ellie R. Hunter

Biker Bait Ellie R. Hunter

Alannah Blake was born and raised in The Lost Souls Motorcycle Club. She grew up surrounded by men dressed in leather, blood on their hands and living by a code society deems morally corrupt. She couldn't be happier at the thought of finishing college and returning home to the men she regards as her uncles and brothers, her family.

While she's been at college, she's been hidden from the ever growing, never ending feud between her uncle's club and The Raging Riders MC.

Her uncle -Michael Blake- The Lost Souls president is under pressure against their rivals. In a game that long ago began, he makes decisions that place not only his brothers in danger, but everyone connected to the club, including Alannah.

Castiel 'Cas' Jackson is the Vice President of The Lost Souls MC and gave up the only thing that ever meant anything to him when his VP patch is threatened.

His loyalty to his brothers and his club has never been a problem, until he got close to the presidents niece - Alannah Blake.

After breaking her heart before she left for college, can he keep his word to stay away from her now she's back?

With Michael's decisions affecting the club and Alannah, can Cas figure out his presidents secrets before it's too late for Alannah and the club?

Jenn says

FINALLY! This has to be the best biker/MC book I've read since Motorcycle Man & Own the Wind.

This story was full of:

- *betrayals
- *loyalties
- *friendships
- *love
- *second chances
- *revenge
- *strong bonds

What I loved about this book:

1. Cas - He was the best biker male I've read in a long while. He never called Lana the B, P or C words. Once they were together he was faithful to her. He loved her so much and was never afraid of showing that to her in public or private. He treated her with respect. He really was very good to her and he could be very sweet and attentive. She was his world once he realized it...and you couldn't break the bond he had with her. He had no problems showing the club the strong ties he had with Lana.
2. Sparky, Billy and Oak. Such great Brother's and friends to the club, Cas and especially Lana.
3. Lana- she was a strong leading MC lady. She wasn't childish or ridiculous and she tried to be brave when she needed too. She was good to Cas and knew her place and his place in the club. But mostly, for me, it was the love she had for Cas and how she showed everyone that they were a strong unit together.
4. How the whole story unfolds.
5. I love the flow of the storyline. I was never bored and didn't really want to put the story down.
6. I loved how Cas and Lana worked as a couple. How they knew their places in the club and there was no issues, back talk, fighting or use of their bodies to try and get their way or back at each other.
7. The ending. LOL! What the heck was that? That was cruel... just cruel. :) I like how it nicely sets up the next book though. (Well played Ms. Hunter.)

What I could have lived with out:

1. The words regarding lady parts: the C word and P word.

I can't wait for Book 2, Biker Faith. I look forward to Sparky's story in June 2014.

Sleepy says

I have this one but from reviews I've read i think i might wait to read it till book2 comes out feels like it may end in a cliffhanger.....

Holy fuck yep that cliffhanger is gonna kill me... But I think book 2 comes out in a few days!! Off to find out WHEN!!!????

Cas and 'barbie' are really into each other but because of her uncle the clubs President, Cas was basically forbidden to be with her, and when Micheal the president found out about them the first time Cas got his ass kicked by all the brothers so he stayed away and made sure she hated him for it. But she's back from college and as much as he tries to leave her alone he can't, but she doesn't drop to her knees and welcomes him back, she hates him for what he did. And now being pushed out of the club because her uncle wants to 'protect' her she doesn't want anything to do with Cas, well kind of.

He goes to see her where her uncle cast her off to and well they get into it.

"Tonight meant everything and you fuckin' know it." He hissed, "And if you think I'm leavin' you alone, you're fuckin' wrong."

"I don't care anymore, you do what you got to do and I'll do what I got to do." I murmured.

"What the fuck is that supposed to mean." He asked, getting angry.

I'd had enough now, I sat up and got in his face.

"It means...fuck off. You think because we fucked tonight I'm just gonna forget everything?" I yelled, losing my temper, "You're never going to change, you're the club and I'm not anymore. You got what you wanted, just get out!" I screamed

He wanted to prove to her he meant everything he's said she was his. But he knew it would take time,

"IT'S NEVER OVER BETWEEN US."

"ITS NEVER GOING TO BEGIN!" I yelled

"IT JUST DID." He yelled back.

But of course there's more going on behind Lana being told to leave the club, but no one knew how drastic the betrayal went.

It's more than the back and forth with Lana and Cas, I loved them and there crazy assess. She was a bad ass I really liked her and Cas was of course a bad ass biker but when he spoke to Lana about how sorry he was and all that sweet shit it made me Love him even more.

"I NEED YOU TO FORGIVE ME BECAUSE I NEED YOU AND JUST SO YOU KNOW I DON'T WANT TO BE SHARED, NOT WHEN IT COMES TO YOU."

"LAST YEAR I THOUGHT THE CLUB WAS ALL I LIVED FOR BUT SINCE YOU'VE BEEN BACK, I WANT TO LIVE FOR YOU."

(HOW sexy!!)

But this is after all a biker book and there are of course shit that happens, there's a deep betrayal within the club that tests everyone's loyalties. There's kidnapping there is explosions and I must say I love sparky,

"BOOM!" sparky roared in delight, "MAKES MY FUCKIN DICK HARD."

He's fucking hilarious, and so sweet to Lana.

There's twists and it makes this book a big winner for me. Can't wait for more!

Sparky is next, and the way this one ended and the blurb for the next one, I want sparkys book NOW!

Judy says

This was a 3 star read for me. Basically a stereotype of other biker MC books released. No new plot or approach. The writing is ok with minor grammar/formatting errors. Another one of my pet peeves though about an author that writes a book about a MC in the USA but uses words/phrases that do not fit into the American lingo that would be spoken by a bad ass American biker/MC member. The book ends in a semi-cliff hanger that sets up the scenario for the next book in the series. The H/h do get a HEA and there was no cheating after commitment.

Adriana Fuentes says

I've read so many books about MC's and definitely this one is on my top favorites. It's a short story but I don't give a flying f. I can't believe it has such a low rating. It sure does have some crappy editing, but to be honest it didn't affect my experience that much.

First it was great because Lana is willing to listen and NOT keep a grudge for years like other MC books I've read. It took her 2 days and that was awesome, we didn't have to read about her moping all over for him and rejecting him episode after episode. She is a hell of a heroine, of course she had to turn stupid at some point, when she drop the gun and didn't kill the Ghost Riders Prez. But that was the point of the story so I let it pass. She did shoot 2 guys and killed them. AWESOME!!

Now Cas, he is obviously a hottie!! His fuck up a year before was pretty reasonable and I totally understood. I loved that he was willing to do anything to make it up to her and make her feel secure about their relationship the second time around.

What most impress me was that even on the rest of the MC books they talk about loyalty for some reason this one caught my attention way more. They had a really great commitment to loyalty and I thought that was awesome.

Now Billy, I guess that was the saddest part of them all. I seriously had a knot on my throat and my eyes got

all watery. Damn..... he was a nice kid and he deserve to become a member of the MC, there was nothing else he consider family then them. It was sad to read about him. When Lana was whispering to the sky to him I swear that's when I felt like crying more than anything. It's sad to know he will never be riding with them.

Michael he had it coming..... Just for what he did to Billy. He didn't give damn about him and like they said he sure was a dead kid as soon as he took that assignment.

The epilogue..... WOW!!! I can't wait for summer, if this is only the beginning who knows what the rest will bring ;)

Linda Sims says

SOLID READ

Such a nice surprise to read a MC book by a British author. I really enjoyed reading this story about Alannah Blake who is the niece of the club President of the Lost Souls MC. Returning home from college Alannah is really excited to be back with the club who she regards as her family. All except for one man Cas Jackson the clubs VP, she stills feels the pain of his betrayal deeply.

But not everything is right once she's back home. Her uncle isolates her away from everyone. There's something going on, their sworn enemies the Ghost Riders are at the heart of it.

First book in a new series, with a fast moving plot and well drawn characters made this a good read. I liked Alannah she was feisty and wasn't a pushover, I like a heroine with a backbone. Cas was an alpha male but with a touch of vulnerability that softened his character. Their relationship was very realistic, it was easy to feel their connection. The love scenes were sensuous rather than erotic. With the right amount of drama and angst. Made this a good first book of the series.

Ariella says

This book was amazing. I hate when books leave off with cliffhangers. Alannah is coming home from college. Cas loves Alannah but made a horrible mistake. I hate Alannah uncle Michael he deserve what he got.

Gi's Spot Reviews says

Since I know there's cheating in this series (Book 2), I'm staying away from the entire thing...
Self note:

suzy says

Not bad. Wouldn't give it more than a three star rating. Alannah was a bit annoying, I don't like biker princesses and she was a bit of a princess. Not a bad plot, Cas could have been a little more alpha for a Vice President too.

All in all, it's an okay read. Some of the other brothers are interesting and I will definitely give book 2 a try. Available on KU.

Helen Stothard says

Absolutely bloody brilliant, that's so going on my Kinktastic list of books!

I'm already a fan of MC books but this was excellent, great plot line, intrigue, suspense, revenge, betrayal and a fantastic female lead.

I loved the ending, kind of saw it coming but hey, after the rest of the book I'm sure not complaining!

This is a must read if you're into biker books, and if you're not then it's a bloody good book to introduce yourself to.

Michele A. says

Allana and Cas's story plot was good, however there were too many grammatical errors and so many run-on sentences that it really distracted me from the story. An interesting premise and good enough plot to keep me reading, but seriously needs to be edited.

Mia says

This was the first book I read from this author and I was not disappointed, It is absolutely brilliant! Whilst reading it I kept thinking of Sons Of Anarchy, the writing is great, the plot keeps you enticed. Then ending wow what a cliff hanger cannot wait for the next book! Highly recommend!

Tate says

I need next book like now!!! With the freaking ending?

image:

me too guys, I also didn't know what just happened....

I'm gonna definitely read the next one, I wonder if it will be from Bonnie POV that would be really nice...

So yeah, Michael? you little....

image:

image:

image:

And poor Billy, I really liked him...but I kinda expect what happened to him...

image:

image:

And the freaking Epilogue?

image:

image:

Linda says

As a fan of this author's others books I had to give this one a try. I wasn't disappointed. Great story and kept me interested all the way thru. I will definitely be buying book 2 in this series. A great read and very enjoyable.

Laura says

Firstly I would like to point out I'm not particularly a fan of MC books but during a reading slump I decided to give this a go because I saw it was by an English author.

It's an OK read but it needs a good edit. I'm aware self published authors probably can't afford editors but that doesn't mean they can't proof read their own work. There were quite a few britishisms, quite a few mixed tenses etc, etc. The author quite often wrote in her own accent I would say which may explain the mixed tenses. It distracted me when reading.

It's not as offensive as some MC books and the sex scenes are quite tame. Alannah was a good character. I felt Cas needed more of a male voice, he was quite tame for a Vice President also the plot was quite easy to predict.

Sorry if it sounds like I am pulling this book apart. I definitely think the author has potential and I'm sure any lover of MC books will enjoy this (and have judging by the positive reviews).
