## European Son Barry Stewart Levy

A young man travels to the South of France and forms an erotic attachment with Robert and Nicole, an attractive French couple on the beach in Nice. This parallels a similar relationship back home between his stepsister Ann and Jay, their mutual object of desire. In each situation events spin dangerously out of control, driving him to acts of violence, both real and imagined..

# From Reader Review European Son for online ebook

## Donna says

I enjoyed this book. It was very different than other stories I have read and I mean that in a good way. About a man who goes to South off France and meets a couple. The man is on journey to find himself and the story line takes off from there. It was a good read. I enjoyed the book.

---

## Dayna says

The novel is like the narrator: drifting, trying to use but sometimes misspelling French. I really could not relate. I won a Kindle edition from A Goodreads giveaway.

---

## Michelle Carrell says

An entanglement of story lines. Full of sex and violence. Left a lot of questions unanswered...

---

## Carol says

Just finished reading the enthralling European Son, Barry S. Levy takes the reader on a journey of a young man desperately trying to find himself in the erotic corners of beautiful european landscape.

---

## Erin says

I received this ebook in a Goodreads giveaway. I really don't know what to say about this novella. It was too fragmented , it fell all over the place. While I understood the premise , it did nothing for me .

---

## Fern Bernstein says

Barry Levy creates a story filled with intrigue in a style all his own. A young man's journey and his yearning to connect and feel loved are beautifully articulated through the author's poetry and prose. Levy's use of parallel storytelling kept my interest piqued with the intermingling of the protagonists past and present relationships. His distinctive style, scattered with poetry and sprinkled with French words and phrases, creates a beautiful, artistic piece of literature. C'est vraiment fantastique!

---

**Dorian Thornley says**

Unsettling tale of a young American man on the run from an unspecified trauma. He arrives in Europe and during the course of the novella, discovers himself while meddling in the romantic lives of others. Like a Ripley or something out of McEwan. Lyrical and carefully crafted.

---

**Cheryl says**

I really enjoyed this novella I won through a GoodReads giveaway. I had not read a novella before and was amazed at how much story Mr. Levy was able to put into this little book. Inside the nice cover was an intriguing plot and the story moves quickly, while also giving the reader background info about the characters. Nice poems throughout that pertain to the story, it is a good read for sure! Thank you Mr. Levy!
