Gravity Happens Monica Alexander

In *Forcing Gravity* Logan Kessler fell for Jason “Jase” Brady, one of the hottest young stars in Hollywood, and dating Jase was one of the best decisions she’s ever made in spite of all the pitfalls that come with dating someone famous. Jase is sweet, loving and incredibly down-to-earth. But their relationship will face its first big test when Jase goes on location to film a new movie with his ex-girlfriend, Chloe St. James, playing opposite him. As if being apart isn’t bad enough, new concerns arise when Chloe makes it known that she wants Jase back, and Logan is afraid she won’t stop until she gets him.

Ethan Lewis is in love with his best friend, Logan Kessler, but she has nothing but platonic feelings for him. Instead of continuing to pine away after what he can’t have, he decides to see if he can focus his attention elsewhere. That’s when he meets Nora Brady, Jase Brady’s sister, who is unlike any girl he’s ever met before. But Nora knows about his feelings for Logan, so she’s hesitant to date Ethan for fear of getting hurt. Maybe they can just be friends. But as Nora and Ethan grow closer, they start to realize that they just might be right for each other, even though Ethan knows that deep down that if given the chance, he’d be with Logan in a heartbeat.

With precarious relationships on the line, vengeful exes to look out for and the paparazzi lying in wait to record it all, *Gravity Happens*, is a story of friendship, love, betrayal and knowing who you can trust in a world where everywhere you look, there’s someone who wants to take what you have for themselves.

Jess says

It's cool that Ethan got his happily ever after, but I was much more interested with Jase and Logan. And their story... **was intense**. So much shit happened! And it was very angst, and to me, it seemed way better written than the last book.

Highly recommend.

Mary says

Hope it get release early nail biting

Roxanne Lopez says

These are my kind of people and style. I loved how the author referenced good music. Ethan's character had me laughing a lot. Good read!!

Dj says

Definitely enjoyed this book. Even with the drama it all played out perfectly.

Tracy Trixy says

Falling in love with a famous guy, and then finding out that you're best friend is also in love with you.. LOVE IT! I'm glad that Ethan finds someone for himself, and i absolutely loved the Vegas chapters, sooo funny! I do love an all round happy ending! Read Read Read!

Carla Notebo says

Love a happy ending!! Of course it didn't come easy, not without fight for what you really want..... This had me laughing and then leaving me shocked! And then rooting for the women scorned!! Really enjoyed this story thanks for sharing Monica:)

Kelli says

OK....so it's no secret that I LOVE LOVE LOVE Monica Alexander. Her books never disappoint me.

Forcing Gravity is not my favorite series of hers, but Jase Brady is right behind Zack Easton and Kellan Kyle in my all time favorite book boyfriends. He's sweet, he's attentive, he's sexy as hell, and he's real. And in this book we find out just deeply he loves and feels. There were so many points in this book when I wanted to crawl inside and hug him and tell him it would be okay.

Logan has matured a little since FG, and I was impressed by her ability to slough off some of the harsher publicity regarding Jase and his ex...after all, she is in her first real relationship and she's only 18. IMO, trust is the most important aspect of relationship and she and Jase built a strong foundation of trust...until it all came crashing down around them.

My heart hurt for Logan and Jase...and I felt almost as ripped apart as I did reading Thoughtless. The ups and downs and back and forth just had me so torn up, but I totally got both sides of this heartbreak. I felt both of them so much and the pain they were going through.

The Ethan storyline was secondary to me because I really just wanted to read about Logan/Jase, but Ms. Alexander did a great job of incorporating the stories and meshing them together. It showed Ethan's true feelings for Logan and how he eventually realized it wasn't quite what he thought it was. I was happy to see Ethan find himself in a serious relationship and with a really good person.

All in all, I loved this book. I've re-read some of the more heartbreak scenes a couple of times and the dialogue just gets me. I hope to maybe catch another glimpse of Jase/Logan in another of Ms. Alexander's books. :)

Sarah Fitz says

Once again Monica Alexander out does herself. Loved Logan and Jase, loved this book and love everything she writes. Keep the stories coming Monica!!!! :)

Jennifer Shiels says

This is a good book. This is the sequel to Forcing Gravity and it has the dual POV of Logan and Ethan. Logan and Jase are still together and Ethan still thinks he is in love with Logan. Ethan starts dating Jase's sister Nora in this book. Jase starts a movie that has Chloe, his ex-girlfriend, playing his romantic interest. There are people that manipulate, lie, and cheat to try to get what they want. This is especially true in Hollywood. Monica Alexander writes good books and I look forward to reading more in the future.

Valeria says

3.5 good story not executed perfectly. Some spelling mistakes that drove me crazy.

C. says

I really enjoyed this book, especially seeing where Ethan's head was at in it. There were a few grammatical and spelling errors that annoyed me, and as a proud Australian, it frustrated me to read Tasmania spelt as Tazmania. Other than that, I thoroughly enjoyed this book and I can't wait to read the continuation of Zack and Emily's story in the Broken Fairytales trilogy.

Duda Rocha says

Adored this book!

Once I started I couldn't wait to see what would happen next...and this book has it all, love, drama, sweetness, friendship.

Stacey says

Loved it...hope there's still more to come!!

Evette says

Soooooo, I kinda love Monica Alexander. And while I was sad for a large portion of this book I really loved how it all wrapped up. Can't wait to read more from her.

Zaria says

I really only read this book for Logan and Jase. I mean I'm glad Ethan got his HEA but I wasn't as interested in his story. Logan and Jase's relationship this book really stressed me out. But I'm so glad they got their HEA in the end. Great book!
