**For kids who love trucks, here comes the definitive guide to catching and taming one of your own from the creators of the hit picture book *How to Train a Train*.**

Want a pet truck? Rumble up to this handy guidebook offering everything you need to know. Bone up on habitat: monster trucks like abandoned parking lots; moving trucks live in busy neighborhoods; ice-cream trucks and snowplows migrate in the winter. Pick the right breed for your home (a car transporter in a small apartment would not be a wise choice). Learn to identify your truck by its tire tracks, and soon, with the lure of some orange cones, you'll have a loyal vehicle following you home, a happy hum under its hood. With an eighteen-wheeler-size nod to pet-care guides, Jason Carter Eaton and John Rocco put young readers in the driver's seat for a road trip to truck-dreamer bliss.

Didn't really interest her (neither did their train book).

Miss 4 and I like to explore different books and authors at the library, sometimes around particular topics or themes. We try to get different ones out every week or so; it's fun for both of us to have the variety and to look at a mix of new & favourite authors.

I love this book, about finding your pet truck.

It's great, and totally reminds me of when my son used to tell me tons of stories about his best friend, named Pick-Up Truck.

Ever wanted a pet truck? This book will guide young readers on how to get their own pet truck. Learn where trucks live (parking lots, busy neighborhoods, construction sites). Discover which trucks travel south and which trucks travel north for the winter. Use orange cones to lure your truck to you. Perform the Universal Truck Signal and wait for your truck to respond. Name your truck and have plenty of room for play time. Soon you'll have your own pet truck to love and to play with.

Similar to How to Train a Train, this interactive picture book will fire the imagination of truck pet ownership. The large pictures are full of life and drama. The text flows natural. If your child loves trucks, he or she will like this book.

Even better than the original. Absolutely adorable. Author works hard to keep the same feeling, but make the sequel fresh. Clever scenes and energetic illustrations make this a page-turner.

My preschoolers love this book. We have read it multiple times a day since borrowing it from the library. The book has mention of types of trucks, my kids were really more focused on the colors of the trucks. They didn't need a firetruck for example, they just needed a red truck.

I will be looking for How to Track a Train next.

This was actually a pretty cute book about how to catch a truck as a pet. The book was large and therefore so were the illustrations. They really kept my daughter's interest. They were colorful and action oriented.

I thought the length of the book was perfect for a bedtime book. Long enough to have her settle down for bed but not too long that she got bored. The text was really cute: a boy was giving instructions on how to catch a truck as a pet. I especially loved that it described the universal truck sign to make it honk! I remember doing that as a kid and loved when the trucks actually honked!

If you have a child who enjoys trucks, this is a wonderful book.
