Lionheart Kate Douglas

Mara Armand, director of a foundation for the protection and study of humans with extrasensory abilities, has made telepathic contact with an alien starship captain orbiting the earth. After weeks of nightly telepathic visits with Captain Sander, Mara develops an intimate mental relationship with her unseen alien lover. She experiences his need, his passion, and his sensual touch, but it is a bittersweet relationship for the laws of the Explorers forbid them to ever meet.

An accident in space changes everything and Mara and Sander are given the chance they never thought they'd have. Threatened by World Federation troops from without and jealous hatred from within, their survival now depends on the strength of their bond and a ragtag army of young Sensitives willing to risk their lives for an alien starship captain.

Beckey says

This was an interesting story that had interested in...
Futuristic Sci-fi with some paranormal twist.

Brutally Honest says

Well... "meh" is all I can come up with.

The story is kind of sweet, but also has all this extra stuff going on that isn't really resolved, and it left me unsatisfied.

Amanda says

Lionheart was a decent way to spend part of my morning. While not earth-shattering, it was entertaining. I wasn't really a fan of the romance (the sex was more fun) and it was a tad predictable, but the world was intriguing. Probably more like a 2.5 rating for me.

Lionheart was a free Kindle book I downloaded on 8/23/2012 for the Why Buy the Cow? reading challenge.

Lyn says

The story started out really good then got boring and too theatrical. I know this book is part of a series. I may give one of the other books a try. Hopefully book 1 was just a bad start to a good series.

Ashley says

Good start to the series.

Lyndsey says

This was a quick and sensual read. If you like Lora Leigh's breeds series with a little sci-fi thrown into the mix then you might like this. It's essentially a breed-type being that falls in love with a human and everyone lives happily ever after. My kind of story for a Sunday afternoon! Happy Reading!

Jo Notary says

89pgs, Ellora's Cave

Nicole says

Kate is the master at erotic romance and her first is no different. Love this early erotic story from Kate, absolutely check it out! I loved the whole series!

Thanks Kate for sending me this series from your private collection, so cool to have for my Kate shelf!

Kelly says

My weakness for sexy sci-fi-esque books continues unabated. I just can't resist those aliens who want to share themselves in a very primal fashion. I liked the paranormal elements (humans with telepathy, empathy, and telekinesis) as well as the introduction of a sexy alien captain who likes to use his powers for loving, not fighting. Intriguing, fast paced and fun with plenty of set-up for more dirty sexin' later.

This book was a free Kindle download I picked up 08/23/12 for the Why Buy the Cow? reading challenge.

Kbee says

Did have trouble with it in the beginning but continued on and finally kinda grew on me. Good fast read. No typos that was good for a change.
