These are great stories! It is hard to find good missionary stories that are concise and interesting. I am teaching a Wednesday night Bible club this summer and am looking forward to teaching this to the kids.

This book is an amazing read for younger kids on missionaries. All the stories are based on actual missionaries and how God worked in their mission fields. Rush thoroughly enjoyed the stories and lessons. Homeschool Book.

This was a family read aloud and we all really enjoyed it! Short, exciting missionary stories. A few stories do not end happily but are told in a gentle way and were a great jumping off point for rich discussions as a family.

This book was part of our homeschool curriculum this year, and it was such a fun book to read with the kids. There are stories about missionaries all over the world and we got to hear how God has done miraculous things for His people. I love hearing the ways God works and it was great reading this book as a family during our school time. What a great way to share how great God is and talk about what God does as well as learn about different cultures at the same time. I absolutely recommend this book!

This is a book that I have read this book at least two times to my children. They are enthralled by each and every missionary story. This will be read in our house over and over again!

Sad to see this book end. While reading it to my 7yr old, my 10yr old daughter would always listen with one ear open while she was supposed to be reading her own school books. I can't rave enough about it! It engaged us in true stories of missionaries across the globe throughout many centuries of time. It demonstrates TRUE FAITH in action and God's faithfulness to answer when we need Him most. Also, each story was an opportunity to reiterate the continents and countries since each takes place in a new place and time. Another geographical tool beneficial to us is the global map above each story's title, showing the area of interest blackend and an arrow pointing to it.

This book is a collection of true stories of missionaries of different time periods and places. It was easy to read and well-written. My eight-year-old son enjoyed reading it, and I did, too! It was really inspiring to read about how God worked in impossible situations. There were stories, too, of those who gave up their lives for the sake of the Gospel. In all things--the miracles and the suffering--God's purpose and glory shone through!

If you are looking for a great book to read to your kids, this is perfect--exciting true stories from missionaries around the world including wild animals, plane crashes, miracles and God's faithfulness. I always felt like a big dork reading it, because I choked up on every story. =D A great book to inspire a missional heart in your kids.
