Redemption's Kiss

Ann Christopher

Redemption's Kiss Ann Christopher

After Jillian Warner's much-publicized divorce from her ex-governor husband, Beau Taylor, all she wants is a quiet life—out of the political spotlight.

And quiet it is: the heiress and single mom runs a quaint B and B in Atlanta. But Beau is back, vowing to win her heart. With desire reigniting, Jillian's more confused than ever. Her seductive ex betrayed her once. How can she ever trust him again? A near-fatal accident has changed Beau in ways he never imagined.

Now his number-one priority is becoming the devoted husband and father he knows he always should have been. He's determined to atone for the sins of the past and build a new future with the woman he's never stopped loving. Beau wants Jillian—and this time he's doing it right.

CecilyV says

I was skeptical that the author could pull this off, but she actually had me rooting for Beau. The story was gripping and heart-wrenching. I couldn't put it down!

Jen says

Yeah, I can't do this. I don't want these things in my Former Cheater Redeemed book:

1. No other man can make her cum/FEEL like this
2. Dude fucked around on her repeatedly but HE'S SO HAWT
3. Friends say they're in your corner but can't stop talking about how he's so HAWT
4. Groveling sounds a lot like bullying
5. Whoops, turns out she's the reason he cheated cuz she SHUT HIM OUT IT'S ALL HER FAULT PLOT TWIST
6. She's celibate while he plows his way through the entire female population

I *will* have more of dudes crying though. Can't ever get enough of that.

Off to read every other Christopher book I can get my hands on!

Mo says

I just really don't enjoy it when the H says he'll do anything to get his wife back, no matter how long it takes and then - after a few weeks of putting up with the well-deserved shit she's shovelling his way - declares he's had enough and it's now on her to decide if they go forward or not. That's not taking your lumps, hon. That's wanting what you want, when you want it and getting peed off when she doesn't immediately roll over for you. You repeatedly cheated on her. For years. You cannot expect her to just say "oh, he seems really sorry - I'll trust him completely now" after a month or two of you trying. If any relationship could come back from that, it would take YEARS!!

D.lee says

This book was simply awesome!! Beau Taylor was a scoundrel, when we encounter him in "Campaign to Seduction". I was so glad when Jillian left him and I felt she had finally made the right decision. But.....in Redemption Kiss he is totally and utterly redeemable.

Redemption Kiss give the reader a front row seat in Beau and Jillian's struggle to rebuild their relationship and family. The book starts with Beau being up to his same old tricks, drinking and womanizer, but he is miserable. A near fatal accident has him reflecting on his life, choices and what really matters most. As a woman who has been married most of her adult life, I realize when a relationship goes sour and infidelity rears its ugly head, there is usually an underlining issue that hasn't been dealt with. Its usually about more than infidelity, if there was once true love in the relationship. So is the case with Beau and Jillian. Yes Beau did some terrible things that led to the destruction of his relationship, but we soon find out Jillian played a major role in the destruction too.

Beau's near death experience not only has him working on healing his body, but he is also working on healing his inner demons, as well as his relationship. Once he is honest enough with himself to truly reflect on when his relationship started to deteriorate, he will stop at nothing to heal it. The road is hard, painful and truly emotional. The biggest obstacle he faces is getting Jillian to face their shared demons, but he remains determined to win back what he has lost. He doesn't want the relationship to pick up where it left off, he wants to make it all it was meant to be. Despite being met with terrifying and emotionally draining truths and criticism from outside forces, they forge ahead towards their ultimate dream of total happiness.

Adensanti says

i was tempted to read this book bcoz of many reviewers gave this a 3 to 4 even 5 stars rating for it's story. but... meh... it's a 1 star from me.

many cheating based on problem from a novel made me left unsatisfied after reading it. for it's shallowness, a problem that too easy to be over looked and always had sexual-tension-i still-cant get him out of my sexual desire's sytem- as it's answer to reconsiled no matter how the SOB treated her. and i hate that. i repeat, I FREAKING HATE THAT.

this book was no exception. which made me think, this is no different from reading a usual cheap-HQ in a la la land let's get our HEA-things stories.

i thought i can read this book as a stand alone, but it's not. so i need to scanned book 3 to know a little traced story about jill n beau. so, jill n beau had problem in their marriage due to jill shut beau out of her emotional life, bcoz their first child is dead.unborn. beau felt that he's being left out, so he cheated on jill, but the author of this book didnt explained about beau cheating on her. all we knw was, jill knows, and realizes that as far as beau was wrong for cheating on her, she too held a responsibility to drive him doing that. so she forgive him and they carry on, but then again, still in book 3, the author made beau cheated on jill again, this time it was an affair with one of his staff that jill n beau hired to clean beau's image from the destruction of his previous cheating, bcoz he's a governoor in some far far away land *sigh... and jill knew about this snd cheating by accident, she heard this when her brother, senator john, now the president of u.s.a (yeah.. right) when he confront beau about his affair. jill was shocked, and asked beau directly, he said yes and his excused for his secnd cheating was, that their marriage is still in a deep problem, the same problem that drive him to cheated on her for the first time. what a spectacular asshole he is. and i hated that this author made him look dead guilty and confessed his love to jill right after that. the cheap line like " i love you, i will love you, dont divorced me, we never be over and bla bla bla". if that's how big his love to her, then why the heck he still cheated on her for the secnd times? and also this author didnt even explained how the hell exactly their marriage journey throughout all their problem since the death of their first unborn child and after jill forgive him for his first cheating, which by the way, was also not explained to us reader, did he cheated on her w/1 women? or he cheated on her numerous times w/different girls? all we had was, he just cheated on her. while his scnd time-cheating was with 1 girl, the staff of his. an affair that last maybe months, but we got nothing

about the detail, which is... ridiculous.

and what's amazingly stupid that makes me want to burn this book was, at the end of book 3 (oh yes.. i havent finished talking about jill-beau story in book 3), after jill knew he was cheating on her for the scnd time, she asked for divorced and she confessed that she was pregnant and she just knew about it that day. but we got nothing about hos beau's reaction to her pregnancy, does he felt guilty? does he felt like he need to put the gun on his head and ended his sorry ass life? WE.GOT.NOTHING!!

oh by the way, jill's pregnancy lead me again to another unsatisfied emotion. so, after beau first cheating, and she forgive him, it appears to me that jill seems to carry on their marriage as normal as she can, coz how else she can get pregnant if that SOB didnt resume their intimate relation in bed? which mean, she didnt refused his sexual need, so why would he cheated on her again for the scnd time? why this SOB didnt satisfied? or if he thinks that it's still lacking something due to the hurt that jill still feeling from her misscariage, why wont he reach her or shake her to confront it? it's not like jill suddently still being cold-stoned bitch who didnt want beau to effing touch her again like what mostly drive a husband to having an affair.

and what's more amazing, book 4 was starting w/the description of beau having a quckie on the back seat of his limo w/other no-named girl, and it skipped to 3 years after the divorced. he then got accident, and suddently he felt that god gave him a scnd chance to build his life back, starting w/having his wife back. we never get a glimps or a short preamble to these 3 years about how jill's life while she was pregnant w/alegra in the same time she was faced by beau's scnd affair and the divorce process. did beau took his part to care for jill when she was pregnant? or did he just gone and only back to managed about alegra's parenting issue after she was born? since jill and beau was living in a different state. the author was skipping a hell of a good story from this. i want to knw, since before, jill was already having 3times misscariage before finally can carry on w/another pregnant moment only for it to be another devastated moment by the dead of their unborn child. so it making her having 4 times misscariages. alegra must be the most important moment that should be happening in jill's and beau's life. but we got NOTHING from this moment. why when jill was pregnant w/alegra, beau was not do his best to become a good husband and resist the divorced? why the author made him to just carry on w/his life and having meaningless sex here and there. and im speaking about ALOT of sex and affairs. it seems to me that beau was mentally ill and a sex addict and unfocused asshole. but all we got from the author was, she potrayed beau as just a simple everyday man that hving a marital problem bcoz his wife who forgive his 1st affair and didnt refused him sexually shut him out as in jill didnt want to talk about their unborn child, but everything else was normal. which is... ridiculous. it's as if a movie producer making the very very good thriller movie only for it to ended flat.

and then when beau comes back, all we got is not a heart-wrench emotional roller coaster about how he hurt her and dirtied their marriage or her trust or how come he cheated on her again after she forgave him for the first time, or any emotional unstability , or the reason of why he did that for the scnd times, why, why, why?? instead, the author just throw us a cheap plot like how beau is still so god damn attractive and making jill's vagygy as wet as the ocean. oh.my.freaking.god!!!

and it only took him less than 3 weeks for jill to accept him back, 2 from those 3 weeks for jill to sleep w/him again and having sex like bunnies. if that was me, i would need a therapy for overcome my disgust to let that dick coming inside me again after his soo many affairs after or before they still married. yep! he's that kind of assholes.yucks!!

and ofc, many female readers might melt their heart and goes "aww.... at first he was an asshole, but he got through me and i forgive him"-just bcoz he cries often than alegra ever did. bcoz the author always made beau look as if he wants to cry. or even crying. me? i threw up.

oh, and yes they got their HEA. no deep emotion-wise plot. as i said bfore, this was like a cheap read w/heavy cheating subject bcoz of the dead of their unborn child, but the solution for their reconsiliation was

lay between their legs. yes. someone need to smack both of their brain's out of their head.
sigh, you never should having a hopeful good plot-emotional wise when you knw the characters of this book was, the sister of the president of u.s.a. i rather having my MC a prince from a far far a way land. blaghh..

sorry for whoever that worship this book as awesome. i only write what i feel. it could be a good book though for another readers. me? i.hated.it..

Brandi says

Ok 3.5. I really like this book. Beau Taylor has fallen from grace in a really big way. He used to be the govenor of Virginia. He used to be married with a family. Now he's a drunk who doesn't care if he lives or dies. Then he almost dies and makes some serious changes in his life. He decides that he wants his wife back. Only thing is, Jillian has moved on.

This is a first time (in a short novel) that I've read about a character who has cheated on his spouse, not once but twice. Usually there is an allusion to infidelity but rarely is it a part of the plot of the story. Beau did not have an easy time trying to convince his wife that he deserved a third chance. This story had a pretty good flow and some surprises added to my enjoyment.

Texas Diva says

I'm reformed believer in redemption...Wow

This is a great story of Jillian and Beau letting the very painful ful past go and returning to love. Jillian has rebuilt her life after her humiliating life with Beau and his many infidelities during their marriage and moving on. But something is missing. Beau has only loved one woman...Jillian. He messed up, but is determined to get his wife back and nothing will stop him. There is so much pain, tears, respect, forgiveness, and most important...love.

I did not believe Ms Christopher could make me forgive or love Beau again or Jillian forgive him....and you will have to read to find out more details. You're going g to love this story and you can be a reformed believer in second, third or whatever number when love is real.

Kudos 's. A. Christopher...you did good. :)

Rating 3.75 stars

Delaney Diamond says

I COULDN'T STOP READING!

I fell asleep with this book in my hand, woke up the next morning and continued reading because I had to see how it ended.

I didn't want to like Beau Taylor, but somehow Ann Christopher turned the tables on me and made me actually warm up to this *sleaze bag SOB* who'd hurt and publicly humiliated his wife. Man, I felt so sorry for Jillian! Can you imagine having panic attacks because of what someone did to you? This was a hard book to get through, but like a rubbernecker gawking at a roadside accident, I couldn't stop.

I don't like heroes crying in my romance novels, and definitely not if he's an alpha male. But Beau cried, a number of times, and somehow...it worked. Maybe that was part of what made me tolerate him, because he showed some remorse, some humanity, because deep down the bastard really loved his wife despite his actions, and because of--and I don't want to spoil this for other readers--the loss he'd suffered. It's not a justification for cheating! But it made me sympathize a bit more with him.

The book is a page turner. Although I found her analogies a bit jarring at times, the author writes in a style that seizes your interest and doesn't let go until your eyes have traveled over the last word. From the moment he shows up in Atlanta, Beau was on a mission to grow as a person and reclaim his wife and daughter. There were some really tough parts to read that actually brought tears to my eyes. I've been touched by a romance before, but tears? I can't think of the last time that happened.

Ann Christopher did an excellent job of walking you along the difficult path of pain, forgiveness, and trust that marriages suffer through when there is infidelity and other seemingly insurmountable problems.

This is the second Ann Christopher book I've read, and I will look for more. She doesn't disappoint.

Sonja Atkinson says

Good story

I was hating Beau and mad at you for trying to get them back together. Jill didn't need to go back to this disrespectful coward of a man who had broken her heart. But then you did it again you took me on the journey to redemption with your plot twists. Good work?

Kesha says

I liked this book, only gave it 3 stars because it did not have that OMG scene. Bk 1, when the parentage was revealed was the Oh My D..., scene. Bk 2, Izzy has a secret, well 2 actually. This book had no secrets or lies, they were divorced, he cheated twice and she knew and divorced him because of them. Jill gave in just a little too quickly, in my opinion. Was still a good read though.

Celeste says

Second chance , oh the ways of forgiveness

Jillian and Beau, had a hard road to climb. It was necessary after what seems to be one of the most fatal blows a relationship could take: infidelity.

Left to reconcile what seems to be one of the worst things imaginable, Beau begins to do the work to heal and correct past wrongs.

Jillian having to reconcile her emotions had to deal with loss to reconcile that it was a true part of her feelings of abandonment and unforgiveness.

What we learn is communication is necessary. For all relationships.

Michelle Fenison says

Stunning

This I think is my favorite out of the series! The twist and turns and hard work that was made for this couple. Can't wait to read the next one.

Lisa says

Arising from the ashes.....

Jillian and Beau were so cute. A turbulent start, infidelity and divorce but thank God for second chances! I loved their story and little Allegra was so cute. I really enjoyed this novel!

Kim says

This was such a terrific read. I just wanted to hate Beau, but he slowly but surely broke me down and made me love him just as he did Jillian. This book reminds you that this story happens so many times in the real world, and it just keeps you rooting for this two to make it through. I so loved it, and can't wait to read Ann's next book.
