Renee: All Hail The Queen

Brandie Davis

Renee: All Hail The Queen Brandie Davis

Molested by her step-father and verbally abused by her mother, Renee channeled her pain into passion and became the most ruthless queen-pin New York has ever seen. Haunted by her past and unable to let go of what was, she struggles to achieve inner peace while wreaking mayhem on the streets of New York.

Renee is queen of the city and runs it with an iron fist, but everything changes when people from her past resurface to seek revenge. They will stop at nothing until she's dead. Will Renee find happiness and let go of her demons? Or will she allow her past to finish what it started?

Lindsey Lynn (thepagemistress) says

3/5 Stars!

Was gifted a copy in exchange for an honest review

Summary:

Renee has has an extremely rough life. Rape, torture and being pushed aside. She has grown up to be much more than anyone ever expected. Being a top Queen-pin, Renee has it all, or so she thinks.

Dislikes:

The dialog was kind of hard to follow for me. The relationships were a bit frustrating because I couldn't stand how some people were treated.

Likes:

The thrill factor of the book is lightning quick. A well thought out plot with a bunch of surprises. Was a very fast paced read with talented writing.

Overall:

I enjoyed the book well enough. Wasn't a favorite but was definitely intriguing. If you tend to like mafia/mob and organized crime novels I think you would really enjoy this. It is a wonderful to see a woman in charge of a mans world too. Thank you, Brandie for the opportunity to read your book!

Phoenix Brown says

Renee is a beautiful woman who's looks will make any man want to be with her but her heart...that's another story. Her heart has grown cold due to the traumatic events in her life and nobody can make her icebox of a heart melt. Without giving too much of the story away... This book left me full of emotions. I think we can all relate to going through things and holding on to them. Often times we don't realize that it's more damaging to us than to those who hurt us. This story had it all...suspense, drama, heartfelt moments and moments that literally made me drop my kindle. Excellent read by Ms. Brandie Davis. I look forward to Part 2 and no this wasn't a cliff hanger book at all. Everything got tied up in a bow which I loved because I hate books that just drop me off in the middle of nowhere. Brandie took me on the highest highs and dropped me to the lowest of lows but picked me up and left me right where I needed to be! Great Read!

Kianna says

Renee NOOOOOO.....

First let me say when I first started this book, I was mad by the 5th chapter. I kept saying damn so many characters, why so many? However, it all came together beautifully. This book will have you completely on edge from start to finish. The way the author brought all the characters together, was really unique. I'm

starting part 2, and I can't wait to see where the author takes Renee and her squad.

Tesha Joyner says

Loved it

I liked how even though Renee went through a lot in her childhood she keep living. She let them destroy her mentally but she is trying to get herself back together. This book is emotional and leaves u in your feelings. How can a mother do a child like that or a sibling hate u that much? Not sure how Renee will act once she finds the secret out about her sister Carmen. Will she be able to take her or will she let her be? So ready for part 2 so I can see what happens with Renee, her sister, her relationship with Julian. This book was entertaining from the beginning to the end.

Nakesha says

Freaking Amazing!!!!

So I read this book in less than 24 hours!! I couldn't put it down! The characters were so visible for me. I was living in the life. This is a must read!!! You are awesome Brandie Davis!! Now on to Renee 2

Barbara says

RENEE by Author Brandie Davis is one of the best books I read by a new author.

Renee is molested by her step father and verbally abused by her mother. Renee turns her pain into becoming a ruthless queen-pin in New York.

As she controls New York., Renee can not escape her past and knows that she must one day face her past to allow herself to find peace and happiness.

Renee is a fast pace novel. The story line will capture you from the beginning and pull you in, the story line was vivid. The characters were great and well believed,characters that you will not forget.

I would definitely recommend this book to all readers. Book Clubs this book will make a great book discussion.

Author Brandie your deduct novel was very well written. You have gained a reader fan.

Ashley Daviau says

I would like to start this review by saying that I received a copy of this book from the author in exchange for an honest review and this in no way affects my review.

While I did enjoy this book for the most part, there was one main aspect that greatly disturbed me. To the point that I was uncomfortable and to disturb me to that point is quite a feat because I am not easily disturbed. There were also a couple of grammar and spelling issues that I came across which is a huge pet peeve of mine. Other than those two issues, I did quite enjoy the book. I liked the fact that Renee had a very difficult childhood but overcame it and made something out of herself. I also quite enjoyed that the plot was so fast paced and unpredictable, I couldn't help but keep turning the pages. I loved the ending which I didn't see coming at all and thought it was absolutely perfect!

African Americans on the Move Book Club says

Renee is an intelligent and business minded drug lord. Her team and business affairs are tight knit, but this closeness is something that she never saw as a liability.

While reading this story I found myself turning pages and even going back over what I read because of the ways that the characters in the book were related. This was a classic case of 6 degrees of separation, since several of her enemies were connected to the people who were closest to her without anyone being aware.

What was surprising about Renee - All Hail The Queen, was the fact that story was more focused on the emotional parts of the characters. These emotions included the love that she had for her deceased father, her hatred towards her mother and step father, her close but distant love for man Julian who was 2nd in command of her organization, the love that she had for her sister and the hate that the same sister had for her, the perverted love that her step father had for her, the hostility she had for an illegitimate sibling that she found about and also the love that one of her security had for her.

All of this love and hatred was the cause of to many deaths of people who were close to her, to enemies from her past and even to the sister that she love so much. I was also reason enough to hand over her throne to the illegitimate sister that she despised.

There are many areas of the book that will keep a reader entertained and on the edge of their seat and I recommend that they read this book very carefully to make sure that no details are missed.

Latoya Moodalways says

Wow what a story will you right in??????

OK when I say good book from start to finish I love the twists and turns and the ups and downs great job Davis get the book asap

LynnDee (The Library Lush) says

I was sent a copy of this book in exchange for an honest review.

Renee had a shit childhood, and therefore takes no shit from anybody. Her hardened attitude has helped her to establish herself as the queen-pin of New York, but it's also pushed those away that she would maybe hold close. When her past threatens to destroy her, Renee must find out if letting go is what heals her...or what kills her.

I enjoyed this book overall. I appreciated the fast pace and the strong lead female character. However, I did find the book to have a few grammatical errors, along with what I felt to be a lot of repetitiveness, especially in regards to Renee's fucked up childhood. This was my first foray into urban fiction, and I appreciate the author giving me a chance to read her book. If you enjoy urban fiction, organize crime/mob crime, and/or strong female leads, then I think you would enjoy this novel.

Kimberly says

Wow! What an awesome story from start to finish. This book was a pager turner. I couldn't put it down I had to know what was going to happen next. The characters all had there demons and they all seemed to revolve around each other in some way or another. Renee really was a queen even with her demons. It seems everyone was after her or blaming her for there troubles. I can't wait for the next book.

Papaya says

This is a new author and I know she has it. This book was about a women name Renee that childhood was great, she suffered. She set up her on drug business that no one knew who she was, not alone never saw her. She had to deal with love,betrayal, also with a sister that's trying to take her down. This is a page turner. I don't want to spoil the book but just give it a try you would love it so 1-click today.

To the Author great job this was an wonderful book, you have a fan fro life. keep up the good work and I hope you're working on part 2

Tynika says

That was good!!

This book had me entertained from the beginning to the end. I never knew what was coming next and it kept me wanting more with each page. This was definitely a page turner!!

Patrice says

I read this book in 2 days. It was very good and very engaging. I love a good urban novel and this one definitely kept me on edge. One thing about the book, the detail. This book had a little too much detail. Other than that, it was a great story.

OOSA says

Revenge to the Fullest

Growing up in the streets of New York, Renee found herself lost and lonely. Yes she had a mother and sister, but they were both against her. She was molested by her stepfather. After running away from home, she soon found herself in a position of power, running New York while keeping a low profile from her family and enemies under a new name - Jordan. Will the streets find out Renee's true identity?

“Renee: All Hail the Queen” by Brandie Davis is a book that keeps you interested from start to finish. I liked this book and recommend it because it was a true page turner. I liked that it provided a different element of drama and that it was from a female perspective. It was very creative. The characters were well developed and very realistic. You could actually envision some of the scenes in the book because of the great way it was written. It was a book that I truly enjoyed and because of this I give it a 5-star rating.
