**Rocked** Barbara Elsborg

The Rock

Desired by men and women, Eli's good looks make sexual conquest easy until he attends a party at the Supernatural Museum, where they land him in deep trouble. He says no to the wrong women, and his punishment is to learn the ultimate meaning of loneliness.

The Stone Maiden

Much to her family's disappointment, not only is Pepper single but she works a hard and dirty job as an apprentice stonemason. Pepper loves bringing stone to life with her chisel but struggles with the isolation that comes with being different. Then there's her attraction to her boss, Alessandro, who appears to prefer men. When Eli materializes out of nowhere, Pepper can hardly believe her eyes. Now she's caught between a rock and a hard place.

The Hard Place

His hands hardened by years training to become a master stonemason, Alessandro is an expert at his craft, but not in matters of the heart. A daily frustration when he's in hopelessly in love with Pepper and the man of his dreams has disappeared. As Alessandro's team begins to restore the Su-pernatural Museum, he, Pepper, and Eli are drawn into the building's secrets and risk losing every-thing they hold dear.

## From Reader Review Rocked for online ebook

### **Julianna says**

Loved it, it was a unique story that i hadn't read before and the attraction between the three was palpable. Just wish that i could read a sequel to find out more about what happens when she meets her family and more about the museum.

---

### **Amanda Sheila says**

Uhwow. That was.. Wow.

Eli's one handsome man. Too handsome some creatures are attracted to him. Eli refuse them and something bad happen.

Alessandro find Eli's very handsome and he fall for him. But he's too scared to say hi and suddenly Eli's gone. Nowhere to find. And somehow his heart beats faster when he see Pepper.

Pepper's having a crush on Aless since forever. But her boss seemed annoyed everytime she's around. Wait, who's this guy? Covered with dust and.. hard as rock?!

This book's magically romantic! I have it since forever but I just got a chance to finish it. And I was like, what was I thinking not reading it in the first place?!

Very typical of Miss Elsborg, easy to catch up, wrapped in many of steamy scene and the storyline's just fun to read. Ha! :))

I feel bad for Eli, and I winced when his ear.. ah, spoiler. No, no. My heart goes for Eli because Aless's too, I don't know, tense? Pepper's so adorable and funny. And the peeping Tom's scene? H-O-T.

You guys need to read this. I know it's non human but the romance is fun to read and definitely worth your time. Seriously.

---

### **Pam Godwin says**

In this enchanting menage about a man-turned-gargoyle, Elsborg builds a magical world in, what better place than, a supernatural museum. The enigma with the gargoyle, as well as the developing relationship between the M/M/F, hurdled the plot along. This story has my favorite Elsborg components: sensuality, humor, and polished writing. But there's something else here too. Beyond the deliciously seductive scenes is a fairytale rife with scheming bitches and unexpected twists that kept me reading late into the night to finish it.

---

### **Beautiful\_Jade says**

Absolutely ridiculous but in a good way.

---

### **A.R. Moler says**

I would have given it a 5 except the thingy about the alien vistors coming to earth to get their fertility improved was too freakin weird. It would have been better to stick with a purely supernatural version of the explanation.

---

### **Emmie Dark says**

I was lucky enough to win this e-book in a blog competition. Like all Barbara's books, I really enjoyed this one with its quirky characters and rollicking plot that kept everything going at a rocking pace.

I'm not a huge fan of paranormal, but I'm not exactly sure if this book IS paranormal, or just a weird twist on reality. There certainly were paranormal, supernatural forces at play, but the way the characters accepted what fate had in store was great.

I loved that the heroine, Pepper, was a stonemason! What a great occupation for an in-charge romance heroine.

My favourite character was Eli. His punishment (I won't say what it is) allowed for great insight and character growth for him, especially as he didn't come off as immediately likeable at the start.

My only small niggle was that there are a lot of characters introduced right up front, and it's a little difficult to keep them all straight as the story progresses, but once you get into it, that all settles down.

---

### **Trader (RedHotBlueReads) says**

probably an almost 4 for me on the rating..but I'm rounding up.

This paranormal tale isn't your everyday vampire or shifter story.. I'm not going to be specific because that's part of the fun in this book. You're not quite sure until the very end what sort of paranormal you are dealing with. I think that's part of the fun of this.

The story is a tad slow to start, but picks up once all three main characters come together at the Supernatural Museum. But I gotta sale, the gargoyle stole the show for me.

And I didn't expect that ending at all!

If you are looking for a paranormal story that's different and has a nice dose of humor to it, this book might be for you.

---

### **Alarna Martin says**

DNF. I was looking forward to this book because I like the authors other books but this one was awful. >:(

---

### **Jai says**

*Rocked* is a menage story about a half-fairy stone mason girl who falls for her boss and for a man cursed to be a gargoyle. The story is sweet, if standard, but the twisty bit at the end comes out of left field, is unsupported by the story, and feels like an awkward *deus ex machina*.

---

### **Arlene Webb says**

The plot premise in this paranormal romance is fantastic. I can wait for *Rocked* to come out in paperback. Not that I don't love e-books, but some novels are collectibles. The imagination, attention to detail is well above most the print books I do have stacked against my walls.

### **Rachel says**

3.5 stars

---

### **MK says**

The story is interesting. It is not the typical menage. The real identity of Pepper is somewhat disconcerting and the ending is somehow cut short. How are they gonna save the other gargoyles? Are they like Eli? There are a few conflicts unsettled and questions to answer. However, it is still enjoyable to read.

Rocked by Barbara Elsborg  
Paranormal Romance -May 24th, 2011  
3 ½ stars

Two hot men has to convince an insecure woman that she is sexy and show her the time of her life.

Pepper loves to work with her hands. She is a sculptor with a rare talent. When she is apprenticed to the brilliant stonemason Alessandro, she is ecstatic. Soon Pepper finds herself infatuated with Alessandro but rumors are that he is gay!

Alessandro is frustrated by his deep attraction to Pepper. He admires her talent but a relationship with an employee is so wrong! But he is lonely and since his last infatuation, Eli. Eli was a famous bachelor, but he mysteriously disappeared and as a result Alessandro's thoughts are filled with Pepper.

But soon they will all be brought together in an unexpected way when their next project -to restore the gargoyles at their site. Because the gargoyles are actually men who have been cursed by an evil woman. When Pepper takes one down for repairs she finds that the gargoyle suddenly turns into a sexy man named Eli. Soon they are hot and heavy. And when Alessandro discovers Eli in his work space later, this only get more complicated and steamy.

This was an inventive story. I liked the ideas of a powerful woman cursing Eli into a gargoyle. But the gargoyle story and the relationship between Alessandro and Pepper gets a bit convoluted. I wished that the author had made them two separate stories instead because some sections of the story were a bit jarring to read. The sex scenes are hot but curiously there not as many as I expected since the author spends a great deal of time explaining the story and the various characters' backgrounds. This made the story drag at some points. There is a lot going on so it is not a quick and easy read. I really liked the vulnerable and self conscious Pepper. I was happy for her when she found not one but two hot men to appreciate her charms. The men were not as fully fleshed as Pepper and not quite as likeable but sexy none the less.

Hot, imaginative, and interesting to read. However, the story is slow to start due to author having to set up all the characters and their predicaments/backgrounds.

### **Amber Rose says**

**Spoiler free!!!!**

I am having a hard time understanding why this book is not more popular???

This book deserves **5+++ fantastic stars**

This story was amazing. It's different from what I have read of Barbara's Elsborg books.

This has a Erotic feel with paranormal added into the fix. There's m/m. And m/m/f. Done perfectly. It sure will have you hot and bothered!!!!

I'm not going to giveaway any of the story. It will just ruin the whole book. Just a little hint will destroy it.

So all I am going to say is that the characters, I fell in love with all three of them. It will make your heart

melt into tiny little pieces and keep your head twisted wondering okay what else could there be. This is different from any of the reads I have read lately, and I am glad. I got something different. I felt this book did great justice for the characters and the story line through all the entire book.

If you are looking for something different that will pull you into a great story line and great sex scenes this is for you. It will take you into a great journey that you don't want to stop.

Jump on this. :)

By the way! I will be doing a giveaway with Barbara on this book on my blog. Look out for my event invite! :)
