**Sons of Mayhem 2: Blood and Whisky** Nikki Pink  
SONS OF MAYHEM 2: BLOOD AND WHISKY

In the course of a few hours Nicole has gone from a boring straight A college junior to a biker babe on the run from unknown assailants.

With rough but sexy biker gang VP Jase, Nicole is finally beginning to live life as it was supposed to be lived: On the road with a big, noisy, motorcycle and a big tatted bad boy.

Loud Engines. Rock. Long haired tatted bikers. Guns and Drugs. Intrigue and murders. The world of the Sons of Mayhem and Nicole is getting a whole lot more complicated.

This is the second in the hot new adult contemporary biker romance serial: The Sons of Mayhem. If you haven't yet read it, you should check out 1: Oil and Leather first.

Warning: This new adult series contains adult themes. As it is about an outlaw biker gang it involves sex, drugs, rock and roll and violence.

## **From Reader Review Sons of Mayhem 2: Blood and Whisky for online ebook**

### **Susan says**

Sorry, just don't think that under 100 pages qualifies for a "full length" book. Also, as mentioned by others, all over the place and I couldn't get a strong foothold on whether I truly wanted to know more about these characters.

---

### **Wendy says**

Good read, but like many others I get tired of having to read short stories. Book one and two could have definitely been put together.

I just pasted this review from book one....

---

### **Julie Ruiz says**

Ok according to the first book this should be a complete book... so um... what happened? the story is good I like were it's going however I don't like being lied to if you are releasing it in several parts be upfront about it!!! 60 something papers is not a complete book!

---

### **Jacqueline Noir says**

Nikki Pink has hit a home run with her Sons of Mayhem series. This three part series is a must read for those fans of bad boy bikers and will have you signing up for her newsletter to know when part four is coming out (I am guilty of doing just that!). Since so far this is a three book series, I would recommend buying all three since you will be gripping your e-reader to figure out what happens to the Sons of Mayhem MC. We start off by meeting Nicole and Jase who are the main characters, and they sure leave us drooling for more of their explosive love. Jase helps Nicole live life on the edge while Nicole helps Jase find something to live for besides his beloved motorcycle. Pink alternates not only Nicole and Jase's points of view but she throws in other characters as well which help bring the story full circle.

---

### **Melanie says**

2.5 stars .....

I would probably rate the book higher if it was a novel and not a serial. These serials are driving me crazy :(

---

## Michelle says

What's going on here, where is the rest of the book ?

I don't understand what is the point of releasing a book chapter by chapter.

Very disappointing because this author actually has a really good story going, but I don't know if I feel like keeping track of every chapter being released and trying to remember the previous chapters a month later for the new chapter.

Really annoying. I might have to let this one go ...

---

## Alisa says

2.5 Stars.

While I really enjoyed the first one, I felt this one was a bit all over the place. I am happy that the length is a lot longer (67 pages vs. 29 pages in the first book). The MC is not very alpha or bad-ass, IMO. Some errors that are noticeable. For example, WTF kind of word is "wanta"? I understand "wanna" but "wanta"?

Overall, I'm a bit disappointed because like I mentioned, it's not a cohesive plot. And I thought I would be getting MORE in the second book. The author mentioned that it would be longer than the first book and it was... by page count. But if you were going by plot? No. Situations were created and added, but there was really no development from end of book one to end of book two.

## Brianna (The Book Vixen) says

My review for *Oil and Leather* and *Sons of Mayhem 2: Blood and Whisky* .

**Why I Read this Book:** The first book was (and still is at the time this review posted) a Kindle freebie so I picked it up. Then I had some Kobo coupon codes to use so I also picked up parts 2-4. Let me just note that this is a 4-part serial. I usually do not read serials because (1) the price is too steep for my taste and (2) I don't like being left waiting, usually with a cliffhanger ending, for the next installment. But because of the great deal I got on the installments and the fact that all four installments had already been released, I went for it.

**What I Didn't Like:** There were too many similarities between this serial and the FX hit TV series Sons of Anarchy (henceforth SOA), beginning with Exhibit A: the name. Exhibit B: You have Jase (Jax), the club VP with "dirty blonde hair" and "cool blue eyes". Brodie (Opie), Jase's best friend, has "a full beard which hung down to his chest". Exhibit C: Even some of the dialogue reminded me of SOA. "*Don't worry. I've got this.*" – Jase (Jax). "*What the fuck Jasey-boy.*" – Bottle (Chibs). Exhibit D: Some of the Sons of Mayhem (henceforth SOM) members ride Harley Dyna Super Glides, like some of the guys from SOA. Exhibit E: Jase's sanctuary is on "the roof of the Sons of Mayhem headquarters". Like how Jax from SOA would retreat

to the rooftop of the SOA headquarters for a moment of peace and to collect his thoughts. Exhibit F: “*Lonnie and Brodie had a thing going with some women; putting the party chicks to work as they called it, but that shit hadn’t gotten all that far yet.*” – I’m not sure exactly what this means but it sounds a little bit like the Diosa escort business in SOA. Exhibit G: An opportunity comes to the table for a vote for the SOM to distribute Crystal Meth. Like how SOA got into mulling Cocaine. Exhibit H: One of the SOM members was brutally murdered, like in SOA. Bigfella, the president of SOM, was arrested for a double homicide. There isn’t any evidence, yet, but I only read two of the four installments. Clay (SOA’s president) was arrested for triple homicide in season one. Clay was later released due to lack of evidence.

The narration was a bit all over the place. The first installment was completely Nicole’s POV. Part 2 had multiple POV narration from Jase, Nicole, Brodie, and a villain’s point of view.

There were some inconsistencies. In the 2nd installment, the villain rides in a truck that later becomes a van when he exits the vehicle. Then when the villain returns to the vehicle, it’s a truck again. Then there was this line: “*As I undid the buttons of his shorts I felt his boxers pushing out.*” – I don’t understand how boxers can be pushing out but the reason I’m pointing this part out is because Jase wasn’t wearing shorts, he was wearing jeans. Two sentences earlier was this line: “*I let my hand brush against the front of his jeans...*”.

There was a character, Johnny, mentioned in the 2nd installment in reference to Jimmy, the deputy. “Jimmy was a classmate of Johnny’s back in school.” I have no idea who this Johnny character is, as this is the first time he has been mentioned but the way it’s worded, it’s as if I’m suppose to make some sort of connection. And speaking of Jimmy, Exhibit I: he’s a childhood acquaintance of Jase. Kind of like Jax and Hale’s relationship in SOA.

Then there was some things that didn’t make sense to me. “*He walked towards them confidently, not running or walking.*” Say what? And this line: “*If that’d boring then I must be an eighty year old grandmother, I’d hate to see exciting!*”

Even with all the SOA similarities, the MC life portrayed in the SOM series didn’t feel authentic. There was a scene where Jase used rubber bullets on some intruders. *Rubber bullets??*

And lastly, this series could’ve really used an editor. In addition to what I’ve already mentioned, there were so many missing commas.

**Overall Impression:** Reading this series gave me SOA flashbacks, which was distracting for me since I would remember similar moments or characters from the SOA show. The main different between the SOA and SOM is the word “fuck”, where it’s completely absent in the TV series and over used in this series. (There were 354 uses of the word “fuck” and other forms of the word in the entire 278 pages of this serial.) SOA is big right now, I get that. I also get how readers are enthralled by MC romances. I, for one, am one of those readers. But this series felt like SOA fan fiction. Maybe it was, I’m not sure. Even though I am currently craving MC romances, I want originality. I don’t want the same premise and same characters hashed out over and over. I do not think I will be reading the second half of this series.

---

## Cassie says

This book continues where the first book left off, it picks right back up.

The Sons of Mayhem are having their club rocked, with a new war ragging on, but from where and why?  
Could a brother in the club have something to do with it?

Nicole and Jase start to get closer and learn a bit more about each other. Taken back to the club house, Nicole gets a taste of the biker scene. With her friend "Juicy" becoming an official party girl, Nicole doesn't know if that's the road she wants to take. She's feeling something for Jase, and he in return. Maybe he wants her as his, he doesn't want to share her, at all.

This novella we get different chapter's, with different characters, and seeing what they are doing.

I wish these novellas were one full book, instead of how they are. This particular novella had a lot of mistakes in it, which messed with my reading. I'm not saying I didn't enjoy it, because obviously I gave it 4 stars. looking forward to seeing what the next one holds.

**READ ON!!!**

---

### **Saichel says**

College student Nicole is bored with life. Her best friend Lucy introduces her to the "Sons of Mayhem" MC. Only Lucy is a sweet-butt & Nicole is still virginal. Nicole meets Jase who is the VP of security for the club. Only there is something sinister happening in the background. The president of SofM is arrested for a crime he didn't commit. And there is someone in the darkness stirring up trouble for members of SofM. Story ends in a cliffhanger, heads are rolling figuratively.

---

### **?∞Literary Follies∞? says**

This honestly was not a bad little short story. I was a little irritated because I had assumed it would be more of a book and not a serial type book. With that out-of-the-way, the characters are eerily reminiscent of the sons of anarchy. It's obvious that this television show is a heavy influence on the author. That's not a bad thing nor is that a complaint from me. I happen to adore the television show and its characters so I don't mind reading something that kind of reminds me of fanfiction. I think of this book like what 50 shades of gray was to twilight.

---

### **Nstefa says**

Great story!! Cool characters!! Great twists! Definitely a series to read

---

### **Rachael Gregory says**

I was hoping this was going to be longer than the 1st book like a full length book. I was disappointed to see it was not. It definitely holds my interest but I think I will wait for several more books to come out before I continue reading the series.

---

### **Katrina says**

Check out why this rated 2 stars here, and catch my full review

[http://trinastantilisingtidbits.blogspot...](http://trinastantilisingtidbits.blogspot.com/2013/07/saints-2.html)

Ok I was hoping that after the first book this would be a complete book, as our appetites were wet, so to speak.

Don't get me wrong the story is good and I enjoyed it, but like were it's going ?

Are we buying chapter after chapter if so it ends for me now.

Because there are plenty of biker books out there, that would hold my imagination and be remembered for their great hot bikers, not for there 69 pages of frustration.

My opinion only but this wasted my time, let us know when the rest of the book is published.

2 stars from me because of the let down.

---

### **Nadia says**

This is the second book in the Sons of Mayhem series.

Definately this book is better than the first one, but still, for a bikers book, there's something missing.

In this book Nicole is now deep involved in the Sons of Mayhem world, Jase is trying to understand what's happening with the deaths occurring and one of the club members being framed for murder.

The book is write in dual POV, well triple, since it's the POV of Nicole, Jase and a third person whose planning something against the club.
