## **The Cross-Stitch Garden: Over 70 Cross-Stitch Motifs and 20 Stunning Projects Kazuko Aoki**

A collection of more than twenty projects and over seventy individual cross- stitch motifs. These motifs are used to create traditional samplers, as well as bags, pincushions, pillows, coasters, aprons and tea towels. Instructions are presented in counted cross-stitch charts, plus step-by-step diagrams for constructing projects.

A beautifully photographed book of cross stitch flower designs. The charts are clear black and white, which can easily be enlarged to work from. Most of the designs are whole cross stitch with a little back stitch, mainly for the wording. Some also include beading for the berries. My favourite projects are the traditional samplers which I can't wait to stitch! As well as the 20 projects covered in the book, many of the motifs can be adapted for personal use; the smaller designs would make great quick to stitch cards for garden lovers.

Beautiful book with over 20 designs (not including 23 different pansies/violets). I bought the Japanese version because I couldn't wait the 14 years for the English one! Charts are clear black and white which I enlarge to work off. The designs are ideal for mix and match or pulling out elements to create your own. I absolutely love the different pansies and violets and wildflowers. One design is berries done with beads for the more adventurous, (it's not that hard). This is one of my favourite cross stitch books.
