The Night Spinner

Abi Elphinstone

The Night Spinner Abi Elphinstone

Moll Pecksniff and her friends are back for a new adventure as the thrilling series that began with *The Dreamsnatcher* concludes.

Deep within Tanglefern Forest, Moll and her wildcat, Gryff, are waiting for a sign from the Old Magic before they continue their quest to find the last Amulet of Truth and free their world from the Shadowmasks' terrible magic.

Still missing fellow Tribe member, Alfie, and armed only with a mysterious set of clues, Moll sets out on an adventure across the northern wilderness with Gryff and her friend Sidy at her side. They must brave the Lost Isles, scale the Barbed Peaks and face witches, goblins and giants who lurk at every turn . . . while the Shadowmasks draw ever closer.

Can Moll, Sidy and Gryff find the friend they think they have lost? And do the Tribe have what it takes to defeat the Dark magic once and for all?

Satsuma says

Abi Elphinstone is my favourite author ever. I have been to two of her talks, and she signed my book at both! She writes really nice comments on the book {she said she really likes my name and it was good to see me again}, and this is probably my favourite. It had a really good ending {though I almost cried when Domino had to go with the Oracle spirit and that Moll's adventures had to come to an end}. This is an AMAZING book. I recommend this to everyone!

A beautiful conclusion to a wonderful trilogy. Moll and Gryff and what's left of the tribe head up into the wild lands of the north to finish off the last two Shadowmasks and save the Old Magic, but darkness is descending and hope feels harder than ever to hold on to.

I love the way Abi writes mythological creatures and creatures of her own invention into her stories, building up a deep and magical world that feels both familiar and startlingly new. This is no exception, with witches and selkies,

Every now and then you read a story that touches your heart and speaks to your soul and for me 'The Dream Snatcher' trilogy did just that. For the last few weeks I have been completely engrossed in Moll's world, lost in her tales of magic and mystery and struggled at times to put them down. Each of the 3 books are full of energy, excitement and are complete page turners. If you love the likes of Harry Potter then you should definitely give these books a try.

I didn't realise it was the last book of a trilogy when I picked it up but it didn't cause a problem as it was easy to understand what happened on the previous adventures. I would have enjoyed it a lot more if I read the previous books though.

Nice and easy read even though I wanted to slap the main character in the face xD

Wow! Amazing storytelling. The best book in the trilogy and the first two were great! Moll is a fabulous character, with a determination to envy.

I've enjoyed all three books but this one stands out, all the parts of the story are finally woven together in a powerful and satisfying way.

Definitely recommend this trilogy.

Oh my goodness! Loved every single second spent reading this book. I can't believe it has all come to an end ? definitely shed a few tears whilst reading this last instalment with Moll, but am sure that I will remember these stories for a lifetime. If I could sum all three in one word; magical ?

In this final book of Elphinstone's Dreamsnatcher trilogy the stakes are higher than ever: a dear friend is missing, Moll's journey takes them to even an even wilder setting, and the Shadowmasks are more powerful than ever. This third book takes place up in the wilds of the north where the terrain really comes alive. I had absolutely no trouble picturing the northern wilderness that Moll, Gryff and Sidy venture through because of the rich descriptive nature of Elphinstone's writing, which creat

Emma Carroll says

The perfect ending to the best trilogy I've read in years. While the action is still here in spades Moll has grown to be a more reflective and emotional character. The Night Spinner is as much about recovering and strengthening bonds of friendship as it is about beating the Shadowmasks. Maybe the Old Magic is really, quite simply, our ability to love each other. The ending had me in absolute pieces. A classic story. ADORED it.

Caroline Watkinson says

Amazing! My favourite of the trilogy and can't actually think of a bad word to say about it (even had a little cry at the end). So well written and really keeps you interested and guessing right the way through.

John Fulton says

Moll's adventures come to an end in this thrilling story with a hectic race-against-time across a landscape inspired by the wilds of Scotland, and more dark magic and bizarre creatures (many inspired by Scottish myth and legend) than ever before. The Night Spinner takes everything you loved about The Dreamsnatcher and The Shadow Keeper and turns it up to 11.

Moll's bravery, loyalty, and determination, even in the face of terrible loss and overwhelming odds, make her one of the most memorable heroes of modern children's fiction - and her catapult makes her one of the most iconic. Gryff, her wildcat friend and ally, whose fierceness complements Moll's own, is no cute animal companion, but a wild and powerful character whose influence on the story is tremendous.

The secondary characters are wonderful, too. Moll's adventure tears her away from her family in Tanglefern Forest, but ever-constant Sidy is with her - and if he can't take his pets Hermit and Porridge the Second with him on such a dangerous journey (a small crab and a worm might get squished), he somehow manages to acquire a new friend in Frank the ferret, whose antics provide comic relief.

Some of the new characters are memorable, too - especially the ones who blur the line between friend and foe. I particularly enjoyed Bruce and his mixed-up words, and Murk with her pessimistic outlook struck a chord with me.

A fitting conclusion to a magnificent trilogy.

Whispering Words... says

Perfect end to a fantastic trilogy!

Miss Cleveland says

The final (and best) book in the Dreamsnatcher trilogy, we meet Moll and Griff back in Tanglefern, as with the help of the Elders, they look for clues to find the final Amulet, knowing it won't be long before the last two Shadowmasks being hunting for them. With the Old Magic struggling to break through the Dark Magic's growing power, Moll, Gryff, Sidy and Domino set off for the north to the lands full wild, and they'll need every ounce of courage, hope, friendship and resilience they can muster if they are to stop the eternal night from descending...

Magic and mayhem abound in this gripping adventure. The vivid settings pull you into Moll's world, as you journey with her through dense forests, never ending moors, rocky seas and treacherous mountains filled with witches, bog monsters and giants. At the heart of this story sits the meaning of true friendship, and the courage, hope, determination and comfort that it brings.

I opened this book with mixed emotions; I couldn't wait to see where Moll's adventure would take me next, but I also knew that in turning the last page, I'd be saying goodbye to characters and magical world that Abi Elphinstone has woven through three superb books. But, while it's goodbye to Moll and her family and friends, I know that wherever Abi chooses to take us next, I'll be right there at the front of the queue, ready to dive in.

Great for fans of Harry Potter, Eva Ibbotsen, Piers Torday, Michelle Harrison and Robin Jarvis.

GaiasWonderland says

3.5 stars from me.

I don't know I liked it but it wasn't fantastic either.

Chris Callaghan says

A fittingly thrilling and emotional climax to a wonderful trilogy.
