Cincuenta sombras de placer: Secretos sexuales para convertir la ficción en realidad Marisa Bennett

Si hasta ahora las novelas eróticas han alimentado tus fantasías más secretas o si lo que quieres es condimentar un poco tu vida sexual, aquí tienes un libro-guía que te ayudará a convertir la ficción en realidad.

Explora el placer de los pequeños dolores, aprende a usar aquellos músculos que ni siquiera sabías que existían y atrévete a romper las reglas del sexo tradicional.

Curiosear con el BDSM (Sadomasoquismo, dominación, etc.) puede ser intimidante. Probablemente te vienen a la mente imágenes de collares de perros, mazmorras, y un hombre vestido en cuero que se llama a sí mismo señor «Bolasdedragón». No te asustes, hay maneras para que una mujer «normal» se introduzca en este mundo con su pareja, en la comodidad de su dormitorio y sin la necesidad de una habitación roja o una mazmorra .

Con un tono pícaro, este libro explica las 30 técnicas básicas (y suaves) de BDSM. También nos habla de las distintas técnicas de sexo oral, de algunos trucos para aumentar el placer de la pareja y hasta nos ofrece una lista de bibliografía recomendada. Cada técnica está complementada con pasajes del *Kama Sutra* o de otras obras de erótica clásica, que otorgan al libro un componente emocionante y picante.

Con algunas sugerencias, trucos y mucha diversión, los consejos fáciles de una experta que encontrarás en este discreto libro harán de él todo lo que necesitas para empezar a vivir tus propias aventuras eróticas -quizá con tu propio Christian Grey.

Disfruta como nunca con este divertido, excitante y útil compañero de cama.

A book I would recommend to someone with no experience, not something that I got into, being married forever and a day, most of the reading in this I found "done that".

Pam Terry says

Now this book was fun...it will help with those who might want to branch out a bit with their love lives...I thought it was entertaining and informative. Marissa Bennett writes a good manual, while also giving heed to safety and health concerns. You want a resposible jump start to your new lifestyle, well here it is Ladies and Gents...you will enjoy.

Marru Aguilar says

Muy buenos tips y de más cosas para mejorar el aprendizaje y el que mucho lee aprende rápido y con una buena imaginación e ingenio créeme llegas lejos.

Shauna Corona says

such a waste thank god it was a short book! I could have wrote this book nothing mind shattering in it. Pretty basic content.

This book is ok and possibly good for someone who does not know anything or knows very little but for those who have done reading and learning in this area the book does not provide much new information. The title was well done to play to the 'Fifty Shades of Grey' trilogy. I would recommend for a novice-maybe.

Christina says

Its a must read after the Fifty shades of Grey trilogy! I wanted to learn more and experiment more. This book was a great way for me to express to my boyfriend what i wanted him to do without having him read the trilogy. It allowed us to enter into an unknown territory and start trying new experiences. It made BDSM playful and not intimidating. It was funny quick read that covered all the basics!!

Alesia says

This book was a complete piggy back of 50 shades and cosmo magazine! There was nothing in this book that has not already been written about in cosmo!

Victoria says

Nothing new. The name was nothing but pure marketing really. This was my first of the genre and probably my last. We'll see.

Z says

A lot of vanilla, but I did learn some new information.

The book

1. is really basic, and I did not like the "self-help" style of writing, again, a book I had to skim some parts so boring it was...
 2. there are not too many funny parts that made the reading enjoyable (believe me, there are many things "introduced" in this book that could be learned from movies, and not even erotica, like Sherlock Holmes (ir u r handcuffed by a sex partner, u can be in trouble if he/she is not trustworthy etc)... and so many boring points... really, watching movies and, well, watching every episode of Sex and the City, the series, is more funny, believe me...
 3. Probably, for those who though 50 shades of boredom was awesome, this book might be news, but for me, it was just boring... and the self-help approach made it worse, so, I do not recommend it for people who would feel the same about it.
 4. It is not decided if the book if to be read and instructions followed by a man or woman, there are no specific parts for a man or a woman, so, it is also confusing in its attempted "simplicity.
 5. Conclusion: Did not like it. It is a pity that I must review it, for it is not gonna be a positive review. There are more comprehensive and funny books about sex, even the basics, than this one. And some things are just... too unnecessary to be said/written. If one really needs this kind of advice, I'm sorry, but this book was not for me.
