## Dragon Wytch Yasmine Galenorn

We're the D'Artigo sisters: savvy--and sexy--operatives for the Otherworld Intelligence Agency. But being half-human, half-Fae short-circuits our talents at all the wrong times. My sister Delilah shapeshifts into a tabby cat whenever she's stressed. Menolly's a vampire who's still getting the hang of being undead. And me? I'm Camille, a wicked-good witch, trying to juggle faulty magic, gorgeous men, and the demonic war in which we're embroiled. Sometimes, it's hard to know just who we can trust...

"The Equinox is coming, and mayhem rules. A crown-prince unicorn offers us a legendary gift, but it vanishes. Goblins and trolls swarm the streets of Seattle. And now Smoky, the sexiest dragon alive, decides to stake his claim--on me. Overshadowing it all, the third spirit seal surfaces and Shadow Wing's after it. But I've discovered a secret that could change everything. A new power is rising--a dangerous force from the past--one that intends to restore balance to the worlds...whether we like it or not..."

I'm still on the fence about this series. There is so much going for it. It has great potential in the overarching story and the cast of characters is promising as well. But I keep waiting for the quality of the writing to get better as the series goes on, but no luck yet. I like how the books go between the three sisters, giving each a chance at the spotlight. The downside to this is that the other two sisters suddenly look like idiots that can't think for themselves when it's not "their" book.

I got books 4-6 from the library to give the series a second chance (after reading something by the author in an anthology and noting the improvement in her writing). If things don't start looking up after book 6, then I will just have to give up hope for this series altogether.

Oh ho ho! The battle is heating up in Yasmine Galenorn's paranormal 'Otherworld' series with the release of her latest, "Dragon Wytch". This series which relies heavily on Faery lore but also includes demons, dragons, goblins, trolls, vampires, shapeshifters, and also pulls in magic creatures from other cultures is kick ass!! The race to retrieve the third spirit seal is on and Camille the witch will need every one of her allies to come out alive.

This series has some serious sexual tension and flirts wildly with the boundary between mainstream and eroticism. Camille is in a Triad, and now the dragon she nicknamed Smoky is pursuing her for his mate! The fact that he is one of the sexiest creatures in any form she's ever seen isn't helping her decision-making capabilities! After all, wouldn't he be more likely to assist her and her allies if he was her lover? Decisions, decisions...

If you are a fantasy, urban fantasy, or paranormal fan who appreciates detailed worlds, interesting lore, and hot sex...this is definitely a series you should be looking into. This is the 4th book, the previous being, from the top: "Witchling", "Changeling", and "Darkling". The next release "Night Huntress" is scheduled for release in January of 2009...I'll be waiting.

The 4th Book in the Sister's of the Moon series.

Is it getting hot in here? Oh no - that's just me after reading this book. Having worked her way through all

three sisters - the 4th book in the series is full circle back to Camille - the Witchy sister with a LOT of passion and a very complicated life.

The three D'Artigo sisters are living Earthside while the war wages on in the Otherworld. They are part of the Otherworld Intelligence Agency and were stationed Earthside before the war broke out. They are on a mission to capture the 7 Spirit Seals before the evil Shadow Wing gets his hands on them and destroys both our worlds.

While the search for the seal continues - Camille has some interesting personal problems. Having gotten comfortably settled in a Triad with her soul mate Trillian and her fox demon lover Morio she now has the lusty dragon Smokey in the mix. Having promised Smokey a week of the nasty in his love cave in a previous book in exchange for his help - He comes to collect a single night of it from Camille - and reveals his heart to her. Suddenly her triad seems to be growing....

Add to this mix Goblins, Bugbear's (I have no idea what a BugBear is - and it's not in the glossary in the back....), unicorns, pixies, elves, and of course humans - and you have a full cast of strange and exotic adventures. And Camille steams up the pages with her love interests - I have to say I had a hard time putting this book down. Heck I even had a dream about it. (Sadly not THAT kind of dream...)

I am anxious for the next book to come out this month!

### **Fangs for the Fantasy says**

Camille D'Artigo is the protagonist in this book, facing the every growing and worrying effects of the war against Shadow Wing and the civil war in Otherworld – a war that is now affecting their family as well as bringing chaos to the Otherworld, allowing all kinds of monsters to break through the portals and wreak havoc on an unsuspecting Earth.

Now she has a unicorn gifting her with an artefact of legend of immense power that may be one of their best hopes against Shadow Wing – except it's been lost and it'll work just as well for their enemies as against them.

And there's a new spirit seal to find – and this one is being hunted by a lethal and cunning Rakshasa, far more dangerous than any of the other demons they have had to face. Added to that, Morgaine is back and the ancient, power-hungry sorceress has her own plans involving Titania, the long defunct Seelie queen

To complicate all of that – Smokey, the ancient and mighty dragon, is demanding her attention as well, as per their agreement. But Smokey wants into her heart and not just her bed – which is difficult with her current lovers to take into account.

My only major complaint with this book – in fact the series in general, is its poor pacing and the easily distracted protagonists. I think this book is especially bad for it. There's one moment in particular that stands out. They are trying to find the Pixie with the Black Unicorn's horn before anyone else, since this is an artefact with massive, incredible power. It simply cannot fall into the wrong hands. Menolly, after working at the bar, gets a lead on the horn (and it turns out to be true) so she goes home and...

... watches Jerry Springer with Delilah, waiting for Camille to get up rather than waking her. When she does get up (early because something else entirely interrupts her) she, Delilah and Menolly start weeding the garden. No, really – the horn could right now be heading into demon hands but they're doing some gardening. Then they have breakfast. Then Iris regales them with a tale from when she was a House Sprite in Finland. Then Camille potty trains their pet gargoyle. And I am sat there reading this book and restraining the urge to yell at it because the world is supposed to be on the brink of collapse, demons are supposed to be invading, civil war is breaking out in Otherland, the world is in Serious Peril so some urgency may be required.

An additional problem with that is it makes me less happy with the variety of plots. We have a lot of different threads in this book – we have the Rakshasa and his minions looking for the spirit seal, we have the Unicorn and the horn, we have the problem of the Cryptos and the unguarded portals, we have Morgaine and Titania, we have Camille with Smokey as well as big insights into Camille's past. All of these plot lines add to the overall story and are wonderful threads of the plot that really go together well. And individually I like each one. They really add to the richness of the world and the much greater sense of the coming battle – but because the pacing is already slowed down by random domesticity it makes me less patient with anything that might stop the main plot line actually moving forwards.

### **Bethany says**

Dragon Wytch is the fourth novel in Yasmine Galenorn's series. The first three helped established her universe, and I expected for the fourth novel to begin exploring the universe in more detail. Instead, it was more of the same.

Dragon Wytch begins with a Crown Prince Unicorn arriving in Seattle to bestow a gift on Camille to help her in her battles against Shadow Wing and his Degath Squads. From there, things spiral out of control when the gift goes missing along with the unicorn's steward Mistletoe. Portals begin to open up throughout Seattle spitting out all kinds of nasties, and Morgaine returns with her men in tow to complicate the lives of the sisters.

I liked the first three books in this series. I didn't love them. I didn't rank them on my list of novels to buy the

very minute that they came out...but they were a nice buy used and I did end up liking the characters...until they grew out of control. None of these books are much over 300 pages in length, so introducing new, recurring characters in each book with the frequency that Ms. Galenorn does can be very confusing for the reader. With months between releases, it's difficult to remember a character that was only present in a modest portion of a previous novel but is mentioned with frequency in all of the subsequent ones. Dragon Wytch alone introduced what I believe to be at least six more characters that will play a recurring role in the series.

One of my other beefs with this series is the formulaic way it is being carried out. They're turning out much like the first season of a lot of science fiction shows with their 'freak of the week' formats. Introduce Shadow Wing's minions and a dozen subplots...spend nearly a quarter of the book on briefings, planning sessions, and roundtable discussions between characters, followed by a conclusions that usually seem rushed and a foreshadowing of the next novel.

Of the three characters, Camille is also my least favorite, which could lie at the root of the reason why I didn't enjoy this particular novel. I think Ms. Galenorn relies a little too heavily on Camille's magical abilities as most authors do when dealing with the magically enabled. Although a lot of her spells do go awry, she also manages to come up with new ones, variations, or a straight shooting spell at just the right moment to save the day. I do give Ms. Galenorn credit for not making her heroines infallible, though, something that I always find greatly annoying.

In short, of the series so far, this has been my least favorite installation. I find myself indifferent towards it. I don't long for the week back that I spent reading it, but I will also not be rereading it any time soon. I do fear that the series may have jumped the shark and might be on a decline. I hope not, because I do like the series. I still wouldn't recommend paying full price for this or any of the previous novels in the series, but I'm also not ready to write them off completely either. My recommendation? If you want to read this novel or a novel in this series, look for a good bargain price and pick a week when you need a diversion that won't keep you up nights with anticipation of what comes next but will give you a vacation from day to day dramas for about 300 pages.

## **Kathy Davie says**

Fourth in the Otherworld / Sisters of the Moon urban fantasy series revolving around the D'Artigo sisters in Seattle.

### **My Take**

Certainly no lack of action. We get background on Camille's trial to become a priestess of the Moon Mother as well as the truth about the Black Unicorn. We also learn why Camille and her sisters are so highly valued. Smoky gives up a lot of info and some of his pride. it certainly creates a massive quandary for the adventurous Camille. And Smoky is a very pushy, expectant bastard.

How can the girls be so ignorant as to not be aware of Räksasa abilities? They are so clueless in this battle. Well-meaning, but...

Friends are kidnapped from the house and they don't think to check the ward? The barriers intended to

protect anyone on their land??? Explain this, 'cause I sure don't understand, 'cause, Oh sure, with everything going on, my first thought would be wild dogs. Uh-huh...NOT. If they're this stupid, I'm not sure they deserve to win.

Oooh, Chase has a glow of things to come..., oh brother.

They don't keep their focus during battle. No concept of being careful with their power. Always hesitating. I swear...*Keystone Kops*.

### **The Story**

It's disaster all around with Cryptos slinking over to Earthside through newly discovered portals, the crown prince's courier being waylaid, Morgaine has her own plans for the Fae in our world, and Trillian has been captured and is being tortured as we speak.

?Camille, Delilah, and Mennolly must find Mistletoe before the bad guys, even as they battle trolls, demons, fae, wanna-be queens, goblins, and the increasingly horny Smoky.

Chase, meanwhile, has his own problems with the loss of his boss, Devin, and the influx of Cryptos. Freedom's Angels raped an elf and Shamas has been sent along with Mercurial, a half-elf/half-Fae, to aid the Portland police.

It's getting crowded with the demons, Morgaine and Titania, *and* the D'Artigo crew are hunting Benjamin and the Spirit Seal.

And it'll take a lot more than the sisters' current strength to find and rescue Trillian, especially when the Spirit Seal is threatened. It's Smoky's plan on the best way to save Trillian and it's Grandmother Coyote's words that push Camille into her new unwanted alliance.

### **The Characters**

**Camille D'Artigo** is a witch and the oldest D'Artigo sister. She is also bound to the Moon Mother's service even as she is learning death magic from Morio. She runs Indigo Books when she's not saving Earthside.

**Smoky** is a very powerful dragon shifter and he has a claim on Camille for aid he provided and he's not averse to cracking the whip, so to speak. **Trillian** is Camille's Svartan lover and they are bound together.

**Delilah** is second and a were-cat with two shapes as well as a Death Maiden to the Autumn Lord. **Mennolly** is the third sister and was an acrobat in Otherworld and it's this ability that led to her capture and turning by Dredge (see *Darkling*). **Tovah** is a full-Fae vampire who works for Mennolly and not at all picky about the blood she drinks.

Their father is a member of the Guard Des 'Estar and probably fighting for Tanaquar. **Shamas** is their cousin and working for Chase now while living with **Morio**, a youkai-kitsune, and one of Camille's lovers.

So far, the girls are coping.

**Iris** is a Finnish house sprite, a Talon-haltijia, and a priestess of Undutar. She's still seeing **Bruce O'Shea**, a leprechaun. **Rozurial** is an incubus mercenary who has helped the girls.

**Feddrah-Dahns** is the crown prince of the Dahns unicorns from the Windwillow Valley. **Mistletoe** is a pixy aide to Feddrah-Dahns and was tasked with bringing a powerful gift from his master to Camille. **Eriskel** is a

jindasel of the horn, its guardian.

**Chase Johnson** is an FBH, a full-blooded human, who created the Faerie-Human Crime Scene Investigations (FH-CSI) team---the fae version of CSI---which works with the Otherworld Intelligence Agency (OIA) along with the sisters. Delilah has Chase on a nicotine patch and he's much better about eyeing up Camille. **Devin** is Chase's boss and looking to hamstring him. His attitude has infected some of the cops and it will only lead to death. **Sharah** and **Mallen** are elves who are part of Chase's CIS.

**Benjamin Welter** is a young man having such visions that his family has incarcerated him at Mountain Aspen Retreat. **Grandmother Coyote**, a Hag of Fate, is anxious for him and it is believed that he has seen the location of one of the Spirit Seals.

**Queen Asteria** of the elves is the Fae with whom the sisters are currently allied; she is also entering an alliance with the Cryptozooid Alliance. She has warned the girls that a number of new portals are being discovered, but they don't have the manpower to guard them.

**Henry Jeffries** is retired and still living with his mother, poor sod. He gladly accepts an offer of employment from Camille. **Lindsey Cartridge** is rather obnoxious about Feddrah-Dahns' horn in her bid for fertility. She's the director of the Green Goddess Women's Shelter and she's been helping Erin Mathews adjust while producing sales help for Erin's store, the Scarlet Harlot. They've been looking into adoption, but her husband **Ron** is in a wheelchair.

**Morgaine** is a half-human, half-Fae ancestress of the D'Artigo sisters. She's back and she's stirring up mischief as she seeks a greater power for herself. **Titania** is a write-off of the former Seelie Queen, subsumed by drink. She hates the girls for taking away Tam-Lin. **Aeval** is, was, the Unseelie Queen who disappeared before the Great Divide.

**Shadow Wing** is a demon lord of the Sub Realms plotting to take over the Earthside by taking over the Spirit Seals. **Grandmother Coyote** and **Pentangle**, the Mother of Magic, are Hags of Fate who act to keep the balance. They don't swing towards Good or Evil. **Karvanak** is a Persian Räksasa demon, aided by a djinn, **Jassamin**, and **Vanzir** is a dreamchaser demon who switches sides at the end.

**The Great Divide** was a battle among the Fae. The divide itself was a measure to prevent demons from taking over, but it has upset the balance and destroyed the Unseelie and Seelie courts. I think **Cryptos** are inhabitants of Otherworld who are not Fae or elves who can sort of pass for Human. **Freedom's Angels** are a hate group of ultra-right wingers who take the **Guardian Watchdogs**' rhetoric several steps further.

### **The Cover**

The background for the cover looks like a giant gong with a dragon on it and suspended from a carved stone arch. It's Camille standing in front of it that is the real eye catcher. Legs spread wide in an aggressive stance, hands on hips, and wearing a deep purple velvet skirt slit to her hip with a coordinating silver, black, and purple, very fitted corset-like tank top.

The title is also Camille for she is Smokey's *Dragon Wytch*. Kinky girl.

### antes de la lectura

esta es una saga de la cual hace tiempo inicié pero no la proseguí porque simplemente hubo algo en el último libro que no me gusto mucho ni me intereso seguir.

resumamos un poco la saga. se trata de 3 hermanas que son medias faes y medias humanas pero ... pero aquí viene lo bueno. su madre era humana y su padre fae. la madre falleció y su padre es un militar , esta en la guerra. las chicas son adultas y han vivido la mayor parte de su vida en el OTRO MUNDO ( con los faes) pero hacen algo que no recuerdo y las botan enviandolo a la tierra . donde tiene que trabajar como cuidadores de portales , enlaces ( en si , eso no esta muy claro porque realiza un montón de funciones aquí ya vemos que nadie en su sano juicio puede tomar responsabilidad de todo)

las hermanas son guapas y sexys ( obvio). Camille es una bruja , Delilah se convierte en gatito y la otra es vampiro . tu dices.... mmmmmmm ser hada no impide que sean bruja , gatito , vampiro?? pues aquí no es muy común pero tampoco es como si fuera IMPOSIBLE. Cada hermana viene con sus costumbres faes donde ahí es SUPER DIFERENTE A LA TIERRA ( un poco más flexibles con las relaciones amorosas ) Camille la bruja tiene una librería le gusta vestirse con ropa super pequeña , Delilah es detective ( supuestamente aunque sus hermanas son las que termina investigando y arreglando todo ) y Menolly ( ya me acordé del nombre) trabaja como camarera en un bar ( para dize que mantener controlada la comunidad vampira ) hay un montón de personajes interesantes que debería tener más " protagonismo"

### durante la lectura

después del breve resumen aquí viene cuál es el problema de la saga. a simple vista me gusta bastante. el libro 1 lo narra Camille , el libro 2 Delilah y el 3 Menolly. de las 3 la mejor es Camille . le mete acción y reflexión . Delilah es tan ... aburrida. osea las cosas que pasan en el libro de ella vfacilmente puede ser contadas desde las otras hermanas y estaría muchísimo mejor. Menolly como que inició bien pero al final me aburrió.

este libro fue narrado por Camille y me ha encantado. la tía se carga un montón de matones , se viste genial y aumenta un marido más . en fin. me caes bien.

le puse 4 porque hay unas cosas que no me cuadraron. casi todas las tramas pequeñas se arreglan pero las hermanas en si no parece sobresalir.

### al finalizar la lectura

me pregunté si no había imaginado las cosas malas que me parecieron el libro 2 y 3. con tan buena nota obvio que hay que darle una oportunidad.

Maybe even more action packed then the last. Also Fae Queens. Also WHY THE HELL ARE YOU MARRYING THREE MEN CAMILLE!!! LIKE I GET POLYANDRY AND YOU'RE TRYING TO SAVE THE WORLD BUT DAMN GIRL!!!

Also, I really want to binge (listen)? read this series over the weekend.

### **Barbi Faye (The Book Fae) says**

They are the D'Artigo sisters and they are operatives who work for the Otherworld Intelligence Agency. They are also beings that are half-human and half-Fae and they are in possession of special but unique talents: Delilah is a shifter, a tabby cat, Menolly's an undead vampire, and Camille, is a good witch. All are struggling, involved deeply in a demon war.

Cryptos comes creeping through newly discovered doorways to Earth; and Morgaine has her own plans for the Fae's that live in our world. Trillian has been captured. Delilah and Mennolly must locate the lost Mistletoe. All of them battle fearsome foes such as most evil demons, fae, bitch queens, goblins, and even a horny Smoky, a very lusty dragon....! Freedom's Angels have raped an elf. Oi yaaa, what are fae operatives to do??!

The girls hunt for Benjamin's location & the Seal & seek a way to rescue Trillian. It's Smoky's plan on the best way to save Trillian. It is Grandmother Coyote's words that shoves Camille into her new unwanted alliance. Adventure and passion ensue!

A truly unique story coming from Yasmine and the Otherworld women; a crown prince unicorn, goblins, trolls, and a wicked sexy dragon...?! My kinda book! Galenorn has written about all three of the sisters in previous novels, and now with this, the fourth Sisters of the Moon novel, she returns to Camille. She always writes a page turning fast paced book. It is familiar to me to come back to this fully fleshed out world, full of fae, paranormal, supernatural, and romance; all my faves and makes for a full course meal. Tuck in, and eat up! Even the cover is a feast for the eyes, very rich visuals. Four and a half stars!

Cliffhanger? Not quite. Really it was more transition and nothing answered or completed but definitely more questions added in. I came to the end and said, "what, that's it?" and then started wondering what the story really was. I can honestly say, I don't know.

So what did we get. I can tell you what happened, we see where the world is going and have a big set up for change, this was pretty good. Also we get Camilla's relationships, lots happen there but it is still the same players. One is left in the air as a cliffy, not so much on her devotion to him but what is going to happen to him.

So this starts with demons entering into our realm and starting a fight right in front of the store. Demons are getting access to portals somehow and entering to fight for Shadow Wing. Well, this is just one of many story lines going on in this book (and not answered). Then there is the black unicorn horn and whether Camilla can have it and use it. Now she needs to learn another magic. And there are the queens of fairy/fae/Otherworld and her helping them change the dynamics. Then of course the relationships, mainly solidifying the one with Smoky who she doesn't even trust. Boy, a lot goes on but nothing is totally resolved.

If you really liked Camille in the first, you will probably love this one because it furthers her powers, her place in the fight, and her relationships. I don't particularly like Camille. I think she is a bit self-centered, don't understand her love interests, don't like Trillian, kind of like the fox, Morio, don't like the alpha dragon. So hard to like the book. I do like her sisters. I like her better in her sister's books. :-) I don't want to go into her head and hear her talk about her love life or her witch calling. It is funny because seeing as Yasmine Galenorn calls herself a witch, I bet she relates the best to Camille.

Did I hate the book? Not at all, mostly meh, a little good and a lot dragging with her triad plus. Still it is a necessary book for the series as serious things happen and change the dynamics for the next book. I think I may have liked this better if the other sisters played bigger parts. In their books Camille seems to have a bigger role but in her books they tend to be about her, at least this one did.
