Driving Her Crazy

Kira Archer

Driving Her Crazy Kira Archer

Driven to (sexy) distraction...

Cher Debushere hates being the black sheep of her posh, well-to-do family almost as much as she hates driving—which is exactly what she's forced to do when her flight home for her perfect sister's wedding is grounded. *Fan-freakin'-tastic*. Then a hot guy offers to share both the car rental *and* the driving duties...only to drive her crazy by assuming she's just some spoiled little rich girl.

Mechanic Nathaniel "Oz" Oserkowski is about as blue-collar as they come. There's never been a time he hasn't worked his ass off, and he's determined to prove it to the gorgeous princess in the passenger seat. As the miles pass, they bait and needle each other...until their lust and longing gets so hot it nearly overheats the engine.

They have nothing in common. Hell, they can barely stand each other. But sometimes it takes a journey to change the destination...

Mandy says

4.5 stars

Cherise is flying from North Carolina to New York for her sisters wedding. She's kind of the black sheep of her wealthy family and if she's late for this wedding, her mom will never let her forget it. Oz is also flying to New York for a job interview. He supports his sister and nephew by working 3 jobs, and he is getting interviewed for his dream job. When bad weather grounds their flight and Oz gets the last rental, he offers to let Cher ride along with him. With no other option, Cher decides to go with the handsome stranger. They are complete opposites and drive each other crazy but they can't fight the chemistry between them.

I really enjoyed this sweet, sexy and funny romance. This was fast paced and a fun, light read. Cher and Oz had great chemistry and were both likeable characters. I love the way they antagonize each other and the banter between them. I really liked this one and recommend it to anyone who is looking for a fun romance.

Jaime Fiction Fangirls Book Review says

4.5 Stars

This story was cute and fun and exactly the type of easy reading I was looking for on this lazy Friday night.

I love a good story with two people from opposite sides of the tracks who fall for each other, even though the likelihood that they will actually work out is pretty low. The fact that they are basically strangers stuck in a car for 12 plus hours with nothing in common besides an undeniable sexual attraction to each other makes the story that much more interesting, and hot. Did I mention how hot this story is?

I had no trouble falling for Oz from the first moment he's introduced. He's just your everyday regular kind of guy who works hard and loves his family harder. Oh, and he's a super hot dirty talker, that doesn't hurt either.

Cherice was likable but she did have a tendency to come off the wrong way. I'm glad we got alternating POV's or it might not have been clear that she was more misunderstood than snooty and spoiled. Her family, outside of Elliot, was awful and I hated them.

I suppose this story was a bit predictable but I still ate up every second of it. I definitely recommend this one to anyone who is looking for a quick, easy, and sexy read.

*I received an ARC from NetGalley in exchange for an honest review

Shawnie says

This is a fun and silly road trip romance. It's a great weekend read. I'll definitely read more in this series.

Julianne Redmon says

This is the first book I've read by Kira Archer and holy rabies am I glad I did!

First, the story is a little improbable but not entirely far-fetched. While the mom in me screams "stranger danger," I'm sure if I was in Cherise's situation I wouldn't hesitate to take Oz up on his offer. Archer really makes the limited scope in setting work for the story. The quick-witted dialogue and sexual tension between the characters really carries a story that takes place mostly in a car. I like how the story goes beyond romance and steamy (and I mean STEAMY) scenes to develop more into a story of living for yourself vs. living for others.

The main characters are well-written and you know their backstory, which is an impressive feat in a book that spans a little over 24 hours. Oz is hot...I wouldn't fight over him calling me a nickname. He can call me whatever in the heck he wants LOL And Cher...such a complex character wrapped up in a tightly wound little package. Both of them are smart, caring and hard-working people. Very easy to want things to turn out well for the both of them.

I laughed, I teared up, I called the hero a "d*****bag" at one point...it gave me all the feels and I truly LOVED the ending! I think I just found a new author to follow!

Naima Simone says

The hero and heroine's names--Nathaniel "Oz" Oserkowski and Cherise Debusshere--automatically give the reader a clue that these two couldn't be more opposite of each other than oil is to water, black is to white, Doritos are to trail mix...and from there let the good times roll! And that's what Driving Her Crazy was--fun. Pure, laugh out loud, did-that-just-happen? fun! Cherise is the black sheep of her uppercrust, moneyed family. The only ally she has in the family full of surgeons and lawyers is her twin brother. Desperate to not give her parents another reason to criticize and chastise her, she is willing to do anything to get to her sister's wedding in New York. Even ride with a perfect stranger--albeit a gaw-geous stranger--from North Carolina to New York in the only rental car the airport has left. Oz is headed to NY as well for his dream job as an editor, which will allow him to drop two of the three jobs he's currently working, as well as provide a better life for his sister and nephew. He agrees to take the gorgeous, if a bit uptight, stranger with him since they're headed in the same direction. And hey--he could use the distraction of company and conversation for the long ride ahead, right? Oh boy, they both got soooo much more than they bargained for. Frustration, enlightenment, laughs, grudging respect and the hottest passion and sex either have ever experienced!

Driving Her Crazy is a wonderful read. Full of side-splitting moments (the pictures in front of the state signs, the clothing malfunctions, etc.), some of the sweetest moments (Cherise helping the mom and daughter in the discount store, for one) and the hottest moments (woods, car. That's all I'm saying!). They each went into this

ride with particular perceptions of one another and ended up discovering they couldn't be more wrong...and in love. It was fun seeing Cherise finally stand up for herself and her future to her prissy, snobbish and controlling parents. That scene was EPIC! And the epilogue had me sighing. Just a really great book that will have you going, Dang! It's over? Aw, man! LOL! I can't wait for Elliot's book!!

Stacee says

I loved the premise of this: 2 seemingly opposite people stuck in a car? Yes. Sign me up.

Cher and Oz are more similar than they first think and it was fun seeing them try to figure everything out. Yes it's a bit predictable, yes it's a little clichéd, but it was a quick and cute read with a satisfying ending.

Huge thanks to Entangled Publishing and NetGalley for providing the arc in exchange for an honest review

Crystal Yawn says

all around feel good book. it just left me smiling! my first book by Kira Archer I will definitely be looking for more.

The scenario is a little scary (strangers driving up coast together) but we'll done. the banter, nagging and sexual chemistry is alive and wonderful. the play between social classes, opposites attract is very enjoyable. Cher is fairly likable upper class lady who is afraid to go after what she truly wants and her family doesn't. this makes me able to sympathize with her and her struggle to make her way.

Oz is a working class very lovable guy with a humorous personality that takes things very lightly but lives his family fiercely. you can't help but root for good things to happen with him.

I would love to read Elliott's story, I'm thinking he'd be a great, fun hero

Jo says

Unfortunately this book did not work for me. Both Cherise and Nathaniel were too judgmental about each other, always jumping to conclusions about what the other one was wearing, the jobs they did, and well basically everything. Also Cherise had no backbone at all when it came to her family, and I just could not relate to her at all.

It did improve a bit after they had sex for the first time, but that was near the end of the book, and way too late to redeem them to me.

? ??????? ? ????? says

I'm reading too much now I'll try this later

Jamie Kline says

What a cute, fun read! This novel centers around Cherice and Oz, two strangers who are pretty much complete opposites. What better way to see sparks fly (for better or worse) than to put these two on a long car ride together. I don't know about all of you, but I end up wanting to smother my own family after being in the car with them for too long, so I can't imagine what it would be like to be stuck with a stranger. Although, if he looked like Oz I think I could make it work.

Both Cherice and Oz evolved as the pages turned. Cher started out so stiff and proper, since this was how her mother and father expected her to behave. She was basically living for them, doing everything they wanted her to do, putting her goals and dreams on the permanent back-burner. Oz was busy working several jobs, trying to take care of his sister and nephew. He had a lot of trouble seeing Cherice as anything other than a spoiled rotten rich girl that didn't know what it was like to struggle. True, her family was rich, but nothing she did ever made them happy; it was different from what Oz was going through, yet it was a struggle all the same. They definitely had trouble understanding each other at first and it was interesting to watch them realize that their first impressions may have been way off.

I really enjoyed the humor and witty back and forth banter between Cherice and Oz. He sure learned how to get under her skin very quickly and obviously enjoyed doing so. I give the author bonus points for referencing Grumpier Old Men also; I love that movie.

The sex scenes were pretty steamy, but not overly graphic or raunchy. Or maybe I've become desensitized to it. Either way, I thought they were well done and all I could think was, "Finally!" when it happened because the sexual tension was running pretty high. That seems wrong now that I'm thinking about it. I mean, they hadn't even known each other for a full day yet. The way the novel played out just made it feel like a lot longer.

It's always hard for me to accept any sort of intense connection between characters in such a short amount of time, but in this case it didn't really bother me. They had some deep conversations and were able to confide things that they normally didn't give voice to. Still, you have to assume that most of it was lust, no matter what sort of emotions they felt and no matter how cute the ending was. Spoiler: it was pretty darn cute. Luckily there is an epilogue that travels about two years into the future. Did they make a lasting connection? I guess you will have to read Driving Her Crazy to find out.

Shelly says

This book was hilarious. I loved the banter between the main characters. This book is about following your dreams and being with the person who makes you happy. Oz or Nathaniel is a blue collar guy working 3 jobs to help support his sister and nephew. Cherice comes from a wealthy family but wants to help others but her mother has other plans for her. When a storm grounds a plane they both needed to be on, it turns out to be a road trip that will leave them wanting more. This is a fun read definitely an absolute must read.

Kristiej says

Although I'm not giving this book 5 stars, it's only because I'm getting stricter but the fact I inhaled this book in one day means I enjoyed it. I mean really, really enjoyed it.

This is a "road romance" between two people from opposite worlds who discover throughout their journey they aren't so different after all. Our hero Oz or Nathaniel as our heroine insists on calling him, a true blue collar hero (my favourite kind in contemporaries) is flying to New York to interview for an interview for a job he really wants. Oz is a great hero. He has 3 jobs, an auto mechanic, a janitor and a newspaper deliverer so that he can take care of his single sister and nephew. Because he's working so many hours he doesn't have hardly any time for a social life but he's not bitter, he loves his family. But he does have a positive outlook along with a wonderful sense of humor.

Cherise or Cher as Oz insists on calling her is about as opposite of Oz as can be. She comes from a very wealthy family who intimidate the heck out of her. She's prim and proper and doesn't believe in nicknames. She really does seem to have a stick up her butt and could be quite easy to dislike except every so often the author gives us a glimpse into the real heroine beneath the mask and she's a very kind and thoughtful person. She is headed to the Hamptons for her sister's wedding.

Their worlds collide when they are both late for the same plane. The planes doors are locked and can't be opened. Then the whole flight is cancelled. Oz prepares to rent a car and drive from North Carolina to New York. He overhears Cher also trying to rent a car and very considerately offers to share the drive.

And thus follows a delightful story of two people developing feelings for each other despite their differences; really seeing the real Oz and Cher and each pricking the balloons of the other. Oz has more preconceived ideas of poor, little rich girl Cher and for the longest time he just doesn't see why she can't just throw off the shackles of her family. He's also quicker to misunderstand Cher but he's just such a likeable guy it's easy to forgive him. As soon as I finished this book bought more by Kira Archer. I quite happily recommend this sweet book.

Toni says

Kira Archer did a great job hooking me in from start to finish. I expected a light hearted romance and this

book delivered that and so much more! I love a quick wit and these characters certainly delivered.

Sometimes, you just wanted to reach in the book and smack one or both of them!!

Cherice Debusshere is the black sheep from a well to do New York family trying to make it on her own as a “personal shopper”. Nathaniel “Oz” Oserkowski is a blue collar worker from North Carolina that is trying to make ends meet to support his sister and nephew.

Cher is always disappointing her mother in some small way and in the opening scene she sets her alarm for pm instead of am and is running late for her flight back home in New York to her sister’s wedding. Oz is also checking in for the same flight for his dream job interview; a job that would replace 2 of the 3 jobs he currently works to support himself, sister, and nephew. While they are checking in, a major storm was brewing and canceling flights, by a stroke of luck Oz is able to secure the last rental car. Cher has a fear of driving and with no flights in the near future, takes a chance and accepts a ride with the stranger whom she thinks is married. The ensuing car ride is filled with witty banter, sexual tension, hopes, dreams, some more sexual tension, misunderstandings, and overall laugh out loud situations.
