Hayashi's Hero

Marie Harte

Hayashi's Hero Marie Harte

Genetic manipulation has created the first super soldier, the Circ. Able to transform into hulking, inhuman beasts at will, the second generation of Circs, under Project Dawn Endeavor, is much more dangerous than the first. Psychically gifted, the secret four-man team who once worked for the U.S. Navy now belongs to the mysterious Mrs. Sharpe. Bent on cleaning up science gone wrong around the globe, Mrs. Sharpe sends the men of Dawn Endeavor out on behalf of the United States government. But there's more to her agenda than patriotism. If only the team knew what she really had planned.

Kisho Hayashi lives in two worlds. Reality as he knows it is a team of men closer than brothers, Circs he would die for, Circs he would kill for. But in dreams and waking wisps of potential tomorrows, Hayashi is haunted by a single male face that confuses and worries him. He's a trained weapon, comfortable in the beast that lives within his soul. But for a man who sees snatches of the future, he should know better than to think he can outrun his own destiny.

Note: This book contains explicit sexual content, graphic language, and situations that some readers may find objectionable: Male/male sexual practices, menage (m/m/m), sex in shifted form.

3.5 Stars

I think this may be book 2 in the series, but it's the only m/m one. Hayashi belongs to an elite military group called circs who were experimented on and can change into half animal creatures. They are used for special missions and are now searching for their ex-captain who did the experiments. One of Hyashi's special gifts is he can see the future. He keeps seeing a green-eyed man and it leads to his leader's death and his shunning by his team, his only family for being gay. While the change means they go through mating urges where they have gay sex, the other men are not gay and he fears being revealed, although Morgan shows up as an ex-mercenary brought in to help them. Little does Hayashi realize Morgan has an ulterior motive and has been searching for Hayashi, his destined mate and Morgan has his own powers that are natural. The usual happens, Hayashi fears coming out, but everyone is ticked at him for shunning Morgan not for being gay. I was interested in the political intrigue storyline. Someone is behind the bad guys and now they want the leader because of his special skills, but all of the other stories are going to be m/f so I'll pass although I'd like to know how it all ends some day. This has several scenes of m/m/m including one with Hayashi/Morgan/Julian who has to make an alpha play after Hayashi and Morgan are together, so that may not be for everyone.

Andrea says

i don't think this series is as strong as the previous one by Harte

Jessica says

Loved this book.

? BookAddict ↗ La Crimson Femme says

I tried to resist and not read this one, but I really wanted to because of the Kitsu piece. In Hayashi's Hero, we learn more about the mysterious Ms. Sharpe. We learn more about the psychic abilities which is very appealing to me. These Circ are definitely different with different abilities from the previous ones.

Hayashi's mate - Morgan is delicious. I loved how they danced around a relationship. Hayashi's past is revealed but I feel still shrouded by mystery. I really want to know what happens! I'm going to resist so that I can save the other two for a book reading challenge.

The sex in this book was once again hot. The m/m sex had been turned on and I could see it in my mind. Not only that, but it aroused me greatly. This is how good Ms. Harte is with her sex scenes. I loved her dominance plays with the men. I loved the kinkier sides she hinted. I only wish she would have given us the punishment scene. Sigh. Perhaps a free little snippet focused just on Hayashi and Morgan in a punishment scene? I'd really like it.

I recommend this book to those who like the Christine Feehan Ghostwalker books. This is similar but different in the very sexy ways.

Timmysparks says

I really enjoyed this book. Kisho has been having dreams about Morgan for years and Morgan has also been having dream about Kisho. When they finally get together Kisho is scared that the rest of the team will reject him because he is gay and in love with Morgan. The team also had to deal with tracking down William Delancy.

I really liked Morgan. He brought a new challenge to the team and he was so great with Kisho. I still don't know what the deal is with Mrs. Sharpe and my curiosity is off the charts. I have a feeling that Admiral London is the one behind all the illegal experimentation that's going on but I'm still trying to keep an open mind in case I'm wrong. I love the team and I'm very interested in reading the rest of the book.

L-D says

Kisho Hayashi is one of the most-loved members of the Dawn Endeavor team with his calming and thoughtful personality. He is also the only team member who is gay. With years of ingrained shame from both his family as well as military taboo, Hayashi hides his preferences from his team because he does not want his brothers-in-arms to shun him. When he meets his mate, however, and discovers that his mate is a man, Hayashi must come clean or lose his mate.

Morgan Reynolds is a mercenary hired by Alicia Sharpe to join the Dawn Endeavor team. Morgan has a lot of secrets of his own as well as a psychic gift that is comparable to the powers held by the other members of the D.E. team.

I thought this was a pretty good story with lots of secrets that come to light. One of my favorite books in the

series so far.

3.5 stars rounded up

I was surprised at how much I liked this story. I don't know why I expected it to be an average paranormal/shifter/dna mutation story. While it is all that, it was above average. I liked all the characters and was able to follow along without reading the first book. The sex was hot too. :)

I have to admit that I was irritated by Kisho's actions with regards to coming out to his team members and how he didn't do it for his mate. I was also put out that we didn't get to see Morgan "discipline" him as he threatened to do the evening the book ended.

Still, I was very engrossed in the story and became attached to Morgan quickly. Although there is no female interaction there is multiple scenes of menage between the men. M/M/M in several scenes.

It looks like the next two books have the main couple as m/f - probably with some variation of m/m/menage at times if it's anything like the first book appears to be. So I am doubtful that I will continue to follow the series but this was still a good way to spend a few hours.

Julianna says

While i liked this one, it wasn't my favorite of the series. But still really good.

Clover says

not very interesting story. all the other books are mmf or mf.
the writing is a little bit untidy so it's difficult to follow all the characters.

Anna says

So sexy. So sweet.
And possibly the hottest M/M/M action I have ever read!

Jane (PS) says

3.5 stars. Better than the first book in this new series. Loved Morgan - the new addition... I'm still not totally convinced of the team's cohesiveness, but I'm sure I'll read Julian's book soon :)

Menage Readers Group

Kathy says

4½ stars - This is the first **Marie Harte** book that I've read, but it's only the start. I really, really enjoyed **Hayashi's Hero** ; nothing better than hot, sexy man-love; but add a great romance, shapeshifters and great intrigue and you've got one happy reader!

I'm definitely going to be checking out the first book in the *Dawn Endeavor* series - **Fallon's Flame** - but I'm also going to be checking into the other series; I *think* that there's another one that's based on Circs. I'm hoping so anyways: the allusion to another group of Circs really has me curious.
