Very cute. Only gives you a little clue as to who can be hiding under each flap, letting you be surprised when you open it.

A wonderfully interactive book. At 7 months my daughter enjoys lifting the flaps whilst we share this book together. I'm looking forward to still being able to enjoy this book with her as her language develops when she'll be able to guess the rhyme.

My son loves this book!

My enjoyment of this was hampered by not being able to lift the flaps (may or may not be reading stock room kids books) but they were fairly obvious so it matters not. More for littler little ones, but still great rhymes. Some adult writers can't even write this well.

I got this book as an Easter present for my 1yr old son (F) as he likes lift-the-flap books. However my older boy, J, is 4yrs old and it's actually turned out to be a good book for him to practise his reading with. The simple words and short sentences are great for him. It basically is the story of Pig playing hide and seek with her friend Hen. Pig picks up other friends along the way during the hunt. J read this to his little brother (who didn't pay much attention but managed to lift the flaps when required). J liked the story and liked guessing who was underneath the flap. We have another book from the Acorn Woods series somewhere from when J was younger so I'll have to dig that out.

This is lovely. A great introduction to British woodland creatures for Flo. Beautiful illustrations and, as always with Donaldson, a great rhyming scheme which kids love.

Alison Aldridge says

My son and I loved this book. It has a good rhyme to it and lovely pictures with good flaps.

The only reason I gave it four stars is because squirrels feet do not line up correctly with his legs when you lift the flap.

The pig hides in a variety of places but always gets found, either by her friends or my toddler.

Language: Fine! 3/5 It's really more about the...

Artwork: Adorable pig-hiding locations. 4/5

Fun: My kid LOVED this. 5/5

Morals: Lock up yo picnic baskets! 3/5

Feminism: Everyone loves hide-and-seek. And while she does indulge in pig-stereotypical behaviour of eating all the picnic before everyone else, and wears a dress and an apron, overall I think she's rocking her own personal style even if it's conformist by some arbitrary societal standards. 4/5
