## Inside V Paula Priamos

When Ava wakes up in an empty hotel room to find her husband missing, she must question her own responsibility in his disappearance. He has been accused of a reprehensible crime and up until this moment everything she thought about him and their life together could well be a lie. When she digs into his whereabouts, Ava comes face to face with her own past indiscretions and realizes that her past may be coming back to haunt both of them.

*Inside V* is a novel of trust and deception, a dark look inside of a marriage that started as an affair, and the deep distrust that evolves from that initial infidelity. A must read for fans of *Gone Girl* and *The Girl on the Train*.

## From Reader Review Inside V for online ebook

### **Carol says**

I enjoyed this book, one thing that stood out to me was the author's ability to create an interesting story without a protagonist. There are no redeeming characters in the story. V's father was a good guy but he was not a pivotal character. I was not rooting for either character I just wanted to know, who done it.

---

### **Michelle says**

This review is long overdue (one year to be exact) but don't let my tardiness deter you from heeding my advice:

DO NOT start this book if you think you'll be able to put it down (you won't). Don't read it if you don't like getting caught up in a web of twists and turns (you will). Steer clear if you are not a fan of darkly fun, sexy L.A. noir (which this totally is).

But if you like your crime cold-blooded, your sex scenes juicy, your narrator a bit unreliable, and your writing concise and expressive, this is your book!

---

### **S. Murphy says**

It's hard to believe this is her debut novel as Priamos writes with such raw intensity and exquisite pacing she seems already a practiced novelist who knows how to keep her audience engaged and turning pages. Halfway through, I simply couldn't put this book down. Clues are scattered in smaller increments than bread crumbs in this thriller, with every thread pulled together tightly when the narrative finally ends--which is when I found myself breathing normally again; "edge of your seat" is an understatement here. This is definitely a grown-up book for those who love gritty, sexy, fast-paced suspense. Highly recommended.

---

### **Barbara says**

I really enjoyed this clever, intelligently-written novel. A savvy female protagonist; lots of twists and turns; and a surprising, oddly satisfying end all put together in one of the best stories I've read in a while. Looking forward to more from Paula Priamos. Highly recommended for anyone who likes psychological suspense.

---

### **Joe Acosta says**

It's not hard to believe Paula Priamo's first novel not only hit it out of the park, it knocked it into another city. Her debut novel features some of the razor sharp wit found in her previous book, *The Shyster's Daughter*, but also features a true inside look to how a woman thinks and feels without it feeling forced or cliché. The

character Ava (or V) is truly a well-rounded person who is not nearly the damsel in distress, but the dame who takes charge of finding her missing husband after his conviction of supposedly raping a young Latina girl. In the Amazon description, it was called a "must read for fans of Gone Girl and The Girl on the Train." The comparisons are good, but hardy accurate. Priamo's prose and narrative cut right down to the chase and tell a finely crafted story devoid of female protagonist and mystery cliches. Here's my final verdict: I won't go into spoiler territory because I want everyone to do themselves a favor and buy this book as soon as possible. You won't regret it.

### **Emily says**

This needed some serious editing. The haphazard commas, weird word order and outright grammatical errors were a constant distraction.

There were also some (to me) glaring plot holes. How was it that the defense attorney was so incompetent? And our brilliant lawyer heroine, who was so quick to investigate when her husband appears to have left her, doesn't do ANY work on his case? And the husband purposefully doesn't lift a finger to defend himself in court? Not to mention all the plot happens in like the last 10 pages, and the rest of the book is Ava gushing about her awesome marriage...to a guy she immediately doubts as soon as he's arrested and continues to doubt for the rest of the book.

I see the argument that the husband does all this do he can get a chance to kill the evil judge, but wouldn't ruining his life have been safer and easier?

---

### **Jillian Jackson says**

This is a thriller with a smart, strong protagonist. Don't mess with AVA or V as her husband Grant calls her. The author manages to keep the reader guessing page after page, up to the very last page. It's a strange kind of love story too. So refreshing not to read the same bloated women's historical fiction and clunky cliched mysteries. Yo go, Priamos!!!!

---

### **Edward Smith says**

One of the best books I have read this year. I know it is early but I think at the end of the year this will still be in the top 5.

This book is a fast paced well written thriller of obsession, fidelity, the corruption of power, variations of truth and sacrifice.

I would highly recommend.

### **Eliora says**

I picked up this book this morning thinking it sounded decent enough... to my surprise, I couldn't put the book down! It's intense in the best possible way. Between the tilted lovers, murder, mystery, suspense, and crazy ex this book is full of twists and turns to keep anyone completely enthralled. Highly recommend giving this book a shot!

### **Diane S ? says**

3.5 review soon.

---

### **Leah Ramirez says**

I came across this book at my local B & N and picked it up. The first couple pages intrigued me. Here is a female writer who is lean with her prose. The first few chapters begin in a courtroom. I thought she might've been a lawyer by all that she knew about the law and courtroom procedures.

Long story short, I read this book in one day - it's lean, well-written and the plot moves fast. Lightning fast. I loved her flawed characters, the risks she took at being politically incorrect but true to the characters and their circumstances and the ending was absolutely unpredictable. READ IT!

---

### **Donna says**

Ava and her husband Grant have been married for 3 years. They have a passionate marriage with no need for children or anyone else except for the two of them. Then Grant is accused of raping a 17 year old girl and he is found guilty at the trial. The two of them head out for one last vacation before Grant has to report to prison. The next morning, Grant is missing.

This book details Ava's journey during the trial and immediate aftermath as she comes to terms with what has happened in their lives. The writing is very good. It's an easy and fast read.

---

### **Sara Niezgoda says**

A very quick read, written so well you don't want to put it down!

---

### **Victoria says**

LOVED THIS BOOK, which I picked up from my local library on a whim before a trip a few months ago. I read this when I was vacationing in Dominican Republic and of course, what is the point of travelling unless

you have a fat stack of books with you? I mostly read this in the shade of an umbrella by the pool after being sunburned. This completely isolated me from my friends because I could not put it down!

Beautifully written. After every chapter I gave my boyfriend an update because it was all just so exciting! The protagonist is intelligent, composed, but still seething with emotion at the thought of her husband being guilty.

The moment I was done I googled to check Priamos' other mystery books but saw none. Paula, please write more!

### **Beagle Lover (Avid Reader) says**

Inside V

3.50 stars

A fairly well written mystery that just did not live up to what I expected. Too many slow places were I almost lost interest, but fortunately the author managed to draw me back into the plot. The premise was a good one - an ex-defense lawyer who wakes to find her husband has vanished days before having to report to jail for a horrific crime he insists he did not commit. But V wonders, after his disappearance, if perhaps he is guilty.

This leads V on a search for the truth behind her husband's life without going to the police. As she delves into Grant's past, she discovers her own secret past that impacts Grant's as he remains missing.

Will he return prior to his jail time begins? How far is V (Ava) willing to go to prove him innocent? Can she prove him innocent? Further, IS he truly innocent of the crime he is convicted of? Well readers...I suggest you read this good (but not great) mystery/thriller to discover the answers to the above listed. I think you will be pleasantly pleased with this books' outcome.
