Mr. Big

Delancey Stewart

Mr. Big Delancey Stewart

He's tortured and dark, angsty and arrogant. You want the truth? He's kind of an A-hole.

He's also the CEO.

Everything in my life goes according to plan, and that's the way I like it. I got the degree. I got the job. Now I just need to prove that I have what it takes to succeed in the real world.

If there's one thing that's *not* in my plans, it's falling in love with my boss.

Most relationships don't start with one person calling the other out in public for being an arrogant jerk. Then again, most CEOs don't cut their own employees in line at the coffeehouse and bark orders at people like they own the place.

Maybe pissing Oliver Cody off isn't the right move. And now that he's part of my world, all my plans go straight to hell.

This sexy standalone novel includes an excerpt from another Loveswept title.

Advance praise for *Mr. Big*

“*Mr. Big* is the kind of smart, sexy delight that every woman deserves to read! [Delancey] Stewart will make you believe in true love in this steamy, heart-wrenching tale.”—**USA Today bestselling author Sierra Simone**

Karen Mc says

When I first met *Mr. Big*, I thought it would be the typical super sexy story of an employee-boss romance. I was wrong...totally wrong. Delancey Stewart wrote SO MUCH MORE! ***Mr. Big* is a love story of TRAGEDY and TENACITY, FEELS and FATE, and DREAMS and DESTINY.** This romance wholeheartedly CAPTIVATED ME, calling to my heart and soul, CONSUMING ME from beginning to end. ***Mr. Big* is a fierce fusion of smolder, sweetness, sass, sadness, strength, and swoon.**

The hot and heartbreakng hero, Oliver Cody, is one you'll both love and hate. Arrogant, brooding, kind, and temperamental, Oliver is a high-profile sports company CEO. This talented executive is battling demons in and out of the office. Oliver is one walking storm, a mix of dark and light.

Until light eclipsed his shade known as beautiful Holland O'Dell, a name and woman as stunning as the country....

Holland O'Dell was the first spot of color I'd seen in two months.

Beautiful Holland is out to prove she has what it takes to be a smart and powerful woman in a typical man's world of sports. Though part of her plans don't involve falling for her hot boss. I loved this heroine, admiring her drive and resilience.

"You saw me." He stares into my eyes for a second. "Even when you hated me, you saw me."

The excitement had me ON EDGE, biting my nails in both angst and anticipation. The push and pull was HEADY, a force that made my head spin. The torment was the perfect mix of sweet and sexy. The sexual tension lit me on fire. I wanted to shove this heroine and hero together so many times!

This kiss wasn't gentle and soft, it didn't ask for permission. It felt like he was staking a claim, as if he sought to possess me.

This kiss POSSESSED ME, blazing and burning, lighting me on fire. I felt the passion and promise permeate the pages.

"No one ever chose me." Her eyes shut and the tears squeezed past her lashes.

"I do," I whispered into her hair. "I choose you."

ENCHANTING and EMOTIONALLY-CHARGED, *Mr. Big* makes your head spin and soul soar in one heart-pounding whirlwind of an employee-boss romance. You'll adore the heroine, and both love and loathe the hero in one spellbinding story of surprises. A slow burn of a romance, *Mr. Big* is PASSION MEETS PROMISE, a push-and-pull of angst-ridden goodness. ***Mr. Big* is BEAUTIFULLY BROKEN, a tale that can't help but twist around your heart.**

"Sometimes we're ready for things when we don't think we are."

????**big and beautifully broken kisses**

Chris C - A Midlife Wife says

Part love - part annoyance. I have to stew on this one.

3.5 stars

So I have a love-hate relationship with this book. I loved a lot about the story that the author created. We get Oliver who is on a mission to just give up. He has a lot of anger and kind of floats through life. He meets a girl and finds an immediate connection which was awesome. But then he got stupid.

I pretty much liked Holland. But she had a lot of back-and-forth issues that started making me cuckoo. Then she just got plain stupid.

Through all the weird ups and downs we finally get an HEA at the last minute. So I guess that makes me happy because I love happy endings. But I also didn't really connect too much with the characters. The beginning was fun and funny in many parts, but towards the ending, it just plain frustrated me. I don't want to be frustrated when I read a story.

The writer did give us plenty of hot scenes and heated connections that made up for a lot of the idiosyncrasies of the story. Definitely worth it to read the story just go to it with an open mind.

Hart's Reader Group says

I requested this book on NetGalley because the premise sounded amaze-tits. Unfortunately, not even a page in, I was overcome with annoyance at the slow pace, the lack of anything to pull my attention into the story, and the overall 'meh'-ness of it. Most writers to know that to snare the reader, they have to start with a punch. This book starts with a whiney dude lamenting about how his life was so wonderful and then it wasn't. It was written so...I dunno...flat, I didn't care what had happened--but I carried on because I wanted to give the book a chance, just as many books deserve.

I was disappointed over and over. I kept hunting and pecking through the content to find something, anything to make me want to stop and actually read that scene. The characters are annoying, the tension is about as tense as a hippie on Mary Jane, and the sex scene (the only one I was able to power through) was quick, lacked detail or tension, and made me want to slap them both for a poor performance.

All in all, this book was a waste of my precious time.

P.S. The cover of this book is ridiculous! The guy is sitting there in his UNDERWEAR! What does that have to do with a emotionally stunted CEO--who happens to be BLONDE?

~Mindy Lynn~ says

This ended up being one of those books where not a lot is happening and the stuff that is happening isn't very interesting.

The blurb of this book sounded promising and it started off strong. But then it started to drag. I was looking forward to an alpha type of guy who gets mixed up with a sassy gal. I really didn't get that. Oliver was a mess the entirety of the book. I understand that he had lost his parents and lies had been revealed that really hurt him, but even when things started looking up they would almost immediately take the turn of being crap

again. It never let up. There was no light to all the heavy that went on with him or Holland. Holland was likable at the beginning but her indecisiveness drove me crazy. She had her lists of the things she wanted and in what order she wanted them in. But we all know life throws us curveballs and nothing ever goes as planned nor does it happen in a way you hoped. Holland also has hard time asking and receiving help. She's been pretty independent most of her life considering she spent it in foster homes. Because of that she's struggling with her new position at her job and with the big deal she just landed for the company because she had help from Oliver with it and since she had a sexual relationship with the 'boss' she doesn't feel like her hard work got her to where she is.

There was a lot of work talk that I just couldn't bring myself to find any interest in. It seemed to be more of the focus than the relationship was. Plus there wasn't a lot of relationship in the book since both MC's couldn't get themselves together long enough to manage one. But what really made this book un-enjoyable for me was the ending. The way Oliver treated Holland was unacceptable to me. I didn't really care for him throughout the book and he nailed down my dislike for him when he abandoned Holland when she needed him the most. I was so done with this book by then and was happy it was almost over.

I think I might be in the minority here with how I felt about the book because a lot of people have given it a lot of praise and high ratings. It just wasn't personally for me. So I still recommend you give it a read because we all have such a wide variety of tastes of likes and dislikes that we shouldn't let one person's feelings dictate what the other should read. Especially if you were interested in reading the book beforehand. Come to your own opinion dolls.

ARC kindly provided by Random House Publishing Group - Loveswept VIA Netgalley.

I requested this title on Netgalley because I really liked the blurb and I've read Delancey Stewart books before, but in the end I struggled with it.

I tried to love it, I really did, but somehow... I just couldn't connect to the characters.

Their chemistry was just... non existent.

I kept wanting more and I have to say that my expectations were much, much bigger.

Writing was good but the pace was kinda slow.

It was okay, but nothing more than that.

Sissy's Romance Book Review says

'Mr. Big' by Delancey Stewart is the story of Oliver Cody and Holland O'Dell.

Oliver Cody started a business at an early age and was about to marry when he decided to walk away from it to 'find himself' leaving his dad and some other people in charge of the company. But now there was a bad accident that took his parents life that also took away what he thought he knew about himself. Now he is back at the company but not caring about it and thinking of selling off his shares.

Holland is a hard working women who fighting to get a job in a mans world. At first the way Oliver is dressed he looks like a surfer or bum. So the first time she officially sees him at the coffee house he pushes the coffee line to go right head of everyone else and then is short with the server. So Holland goes over to his table to let him have a piece of her mind. But what Oliver found is that Holland woke him up with his desire to have her and its the first thing he has cared about in along time. But can they both work through their issues to actually have a relationship?

"My honest review is for a special copy I voluntarily read."

Alecia ~?~The Staircase Reader~?~ says

I received an arc via netgalley to review honestly.

Okay,

How to start off this review honestly without being overly negative. To start with let me first say that I liked this novel, From the hot as hell cover to the alluring and promising synopsis, i was completely invested and couldn't wait to read Mr. Big. When I started the novel I was intrigued. Oliver completely captured my attention.

His wild ways and the need to find himself has led him away from home and the business he is soon to inherit. But when he gets a phone call everything he was trying to find about himself comes crashing down around him and his world completely shatters. What's not to love about Oliver, He's rich but not in the self entitled way. When he comes back he decides he still doesn't want to be a part of the empire his dad and he built. That is until he runs into the fiery personality that is Holland O' Dell.

Okay now for the honesty part. This is where my attention veered off the path. I decided instead of skipping the whole book and marking it as a DNF i would skip chapters until I came to parts that gained my attention. My only issue with these parts had to do with predictability. I knew what was coming before it came.

More honesty,

When i reached the final few chapters....Holy hell was my attention captured! I'm glad I decided to read the few final chapters. So even though I didn't love this novel, I can't say I completely disliked it. I'm somewhere in the middle, thus the reason why i rated it 3 stars.

I probably will go back and give this novel another try. Maybe it was just me and the workings of a reading slump.

4 Big stars!

Review to come close to release day.

ARC kindly provided by the publisher via Netgalley in exchange for an honest review.

Beatrice Masaluña says

I received an ARC from Loveswept in exchange for an honest review.

Oliver Cody used to be the CEO of Cody Technology until he left and went on soul searching to escape his responsibilities. Weeks later, he received a phone call about his parents' death and he must return to take over their family company. Still grieving and evasive to responsibilities, he met Holland O'Dell at a coffee shop and she works in his company and struggling with her report. Drawn by her determination and wits, he introduced himself as Hale and decided to help her. Hanging out several times, they become closer with each other and the attraction sparkles between them.

The story is good but by 27% I start to lose my interest. Maybe because of my unfamiliarity with Sports Corp and it's challenging to read their work related stuff and I think it should be toned down so it won't be boring. The romance is mild and insta-love. I don't mind insta-love once in a while. The characters were okay though. I just find Oliver a weak, shallow and spineless hero.

☆ Bianca ☆ BJ's Book Blog ☆ says

Oliver Cody has been trying to 'find himself' for the better part of this last year - he still hasn't found the person he wants to be though. But his travel-time is over now. He has to come back home to take over the family company. But he's too mad, sad, angry to be of any help. Until he meets Holland. She's new at *Cody's* and she's almost done developing something new and groundbreaking - because she wants to get out of sales into her dream job. And she's almost got everything she need, she just needs some technical help. Enter Ollie. Only she doesn't know Ollie is the CEO - she only knows him as this surfer bum who hangs out at the company's coffee shop.

WHAT WILL HAPPEN WITH HOLLAND & OLLIE?

WILL THERE BE A HEA??

READ THE BOOK TO FIND OUT! ?

?????????????????????

Adorable!

I really enjoyed reading this book.

The cover is really hot, but also ridiculous - it doesn't have anything to do with the book. Ollie is a blond surfer-type and not a darkish guy. I don't know what the author was thinking when she approved that cover.

But, the story was good. I really liked it. It's adorable, funny, moving, frustrating, sexy - it has everything a good romance needs! It's nothing new or overly exciting - I felt like I read something exactly like it a million times before - but it's a great romance - and we love those kinds of romances!

MR. BIG was very adorable & sexy & moving romance! Run to your nearest amazon for your own Oliver - this one is MINE! ?

???

Dali says

The title and blurb caught my eye, the first chapters grabbed my attention and the delicious sweet and sexy romance kept me engaged throughout.

My enjoyment of this story was also influenced by the image I had of the book's hero Oliver Cody. For some reason, Oliver Cody made me think of Oliver Queen, the Green Arrow's super hero. Similarities besides a first name? They were both CEOs of their companies and both "left" for places unknown for a while before coming back home and both their fathers were keeping secrets from them. So not exactly similar to the book's cover model but that's also part of the fun in reading, you get to cast your own protagonists!

I like to read about brooding, closed off, jerkish heroes. They're always the ones that fall in love harder and it's a wonderful to see how they turn their lives around. But in getting to know Oliver, there's really not a lot of jerk in him. He was mostly hurt and unprepared for the loss he suffered but behind the temporarily lost and vulnerable man lay a fun, sweet, thoughtful sexy and caring soul I found myself easily falling for right along with Holland whose life was thoroughly affected when she let the irritable, scruffy looking, line cutting man into her life.

"I looked up to find my gaze caught by a pair of crystal-blue eyes set in the face of an angel. A very pissed-off angel with a scowl and long dark auburn hair."

Even though Holland and Oliver seemed to completely opposite, she had very little growing up but was self driven and he seemingly had everything but was lost, they both had a lot in common including an emptiness that vanishes when their lives collided with one another.

"The girl had something I needed. Maybe it was chemical. That was all I could think. But whatever it was, whatever this girl had, I wanted it. It was the first certainty I'd felt in the

better part of a year.”

I know I’m not giving much away. If you’ve read my reviews you know I prefer to live the full emotional effect of reading a book without knowing much in advance. But I loved how the plot unfolded even though some developments were expected. The banter between Holland and Oliver was fun, the attraction palpable and the feelings they developed for each other felt very real.

Mr. Big is a standalone contemporary romance by *Delancey Stewart*. Told from both points of view, with a happy ending.

3.5 stars

Cristina | CristiinaReads says

⇒⇒***Love at first sight, has never been this intriguing as Delancey makes it out to be...***

⇒⇒After being separated from the real world, the world of business, relationship bursts, playboy actions, and the handling of his father's business, Ollie is needed immediately when he hears the terrible news of his father's death. The running away times are over, and now Oliver needs to take responsibility towards the company's assets.

⇒⇒Holland on the other hand, is an individual with qualities that she does not shine due to her gender. However, with Oliver keeping his identity away from her at first, he does everything he can, with all his power, to let her believe in herself and the beautiful, and intelligent woman she truly is. The attraction of course is there, but he tries to put that aside and focus on her qualities that internally make her a beautiful business women.

⇒⇒Overall, I really enjoyed this story due to its actions of equality in genders, and how we should ALL be treated in the world of business, the world of love and romance, and also the world of attraction towards someone whom you are truly attracted to in an emotional aspect as much as Oliver is towards Holland.

⇒⇒***ARC kindly provided by publisher in exchange for an honest review coming closer to release date...***

Heather andrews says

Oliver would rather use actions than words, "before I could ask another question, Oliver's mouth was on mine, and his body was pressed up against me, pinning me to the solid wood door behind me." Oliver tries to help with chores around the house, "do you put this shirt in the dryer?" Oliver stood in the ... of the nursery, holding a gauzy blouse I'd worn the night before and looking adorably confused." I liked this book, I loved Oliver.

Lana ⚡Dirty Girl Romance⚡ says

2.5 STARS

The way I saw it now, I had two choices: go all in, or get all the way out. As I watched the way Holland's perfect pink tongue darted out to lick her lips as she glanced at me, I realized I'd never be strong enough for the latter. I was in.

I struggled with my rating, to be honest. While I enjoyed the writing, the book left me feeling...lackluster. It had a super promising beginning. And if I'm being perfectly honest, what hooked me was the first line in that blurb. I love a good alphahole. Unfortunately this hero just did nothing for me.

The story all in all, had a lot of things going on, but none of them really interested me. I struggled to ever connect to the characters or their plight. This was especially true of the hero who acted like a wounded toddler at times. And his decisions towards the end had me wanting to shake him among other more violent things.

I wasn't a fan of the twist used at the end to essentially bring the couple "together" and I felt it did the story a disservice. Altogether, it was this odd combination of too slow paced yet rushed. The pacing of the story and the things happening in it didn't hook me. But the romance itself and the ending simply felt rushed.

Will I read other books by this author? Absolutely. I know when I enjoy an author's writing style, and I saw that here. Just because the story didn't hook me here, doesn't mean her others won't. And hey, just because it didn't work for me, doesn't mean you'll feel the same. If you like the boss and employee trope, this was a sexy little romp. It just didn't wow this reader.
