*Minx Malone*

**Nathan's Heart** Minx Malone

**From NYT Bestselling Author Minx Malone, comes a hot-blooded new series about a renegade band of dragon shifters!**

Nathan Drake cares about only one thing. Money. As a recovery agent ( \*cough *thief* ) he'll take any job that gets him the green. His brothers don't call him *Heartless* for nothing. But a heart doesn't keep food on the table. Living on the outskirts of dragon shifter society has taught him that. Whether it's drugs, jewels or weapons, he'll recover whatever the client wants, for his cut of the loot of course.

Until the night a storm pushes him off course and he's forced to take his cargo back to his den. Locked inside fighting the mating fever he discovers the crate isn't filled with diamonds or jewels at all. Instead it contains the one thing he can't ignore.

A girl.

## From Reader Review Nathan's Heart for online ebook

### Anja says

A very protective alpha on his lifemission to protect his mate he discovered by accident while fighting for his legacy. An interesting story but a little to much knight in shining armor...

---

### Book Girl 998 says

\*3.5, la primera historia que leo sobre dragones y aún más sobre cambia-dragones. Me gustó mucho el concepto y la idea. Sé que estos libros siempre tienen controversia por lo rápido que todo pasa pero a mí me gustan. Obviamente no es un libro que vaya a cambiarme la vida o vaya a estar en mis favoritos pero pienso que es bueno para leer cuando no sabes que leer. Además de que es bueno para un maratón de lectura de 24 horas o para salir de un bloqueo lector.

La historia me gustó mucho, los personajes me parecieron interesantes y la relación de los hermanos me gustó bastante. Sabía que iba a ser una chica en el cofre porque la sipnosis lo decía pero de igual manera no fue predecible.

.....

REVIEW: NATHAN'S HEART is the first installment in Minx Malone's contemporary, adult BROTHERHOOD OF BANDITS paranormal romance series focusing on dragon shifter. This is dragon shifter Nathan Drake, and Evangeline Ford's story line.

Told from dual third person points of view (Evie and Nathan) NATHAN'S HEART introduces the three

Drake brothers-Nathan, Ian and Gavin, and some of the history of the dragon shifters. Years earlier, the dragon shifters revealed themselves to the humans, and in that time rumors spread of human females kidnapped as dragon mates. Evie Ford finds herself the victim of an abduction only to be rescued by a dragon who claims she is his mate. What ensues is the quick build of a relationship that focuses on the mating heat, and the bond that grows between a dragon and his mate. But the brothers soon discover that their precious cargo they have been ordered to deliver is possibly a cover for a human trafficking ring.

The relationship between Evie and Nathan is very quick to build. Nathan knows Evie is his mate, and it doesn't take much convincing to prove that they belong together. The sex scenes are intimate without the over the top graphic sexual language or imagery.

We are introduced to Nathan's brothers-Ian and Gavin. Gavin's mate was killed years before, and Ian will go missing on a mission to uncover the truth. The Drake family is of royal lineage and Nathan is about to ascend to the throne.

NATHAN'S HEART is a quick read; a story of insta-love; a novella length introduction that is limited with respect to the character and world building, and lacked the background information desired for my full enjoyment. Hopefully, more will be revealed in the upcoming installments. The premise is engaging; the characters are enjoyable; the romance is a quick seduction to forever. I love everything dragon shifter and am looking forward to reading more.

## **P Leslie says**

I received a copy via Insta-Freebie for an honest review.

Wow I absolutely loved the book. Evie and Nate's story was sweet, sexy and magical.

Nate is a dragon shifter, and his mating fever is taking its toll on him. He's been assigned to deliver a crate but due to adverse weather conditions he's forced to turn back and delay delivery. At home he realises that there's noise coming from the crate - upon opening the crate he discovers a naked female.

Poor Evie, has been kidnapped, drugged and stuffed into a crate. However, she's more worried about the sexy guy in front of her - is he in on the kidnapping?

Being in close proximity to Evie is making his whole body burn and Evie is equally affected. Will these two give into their desires? Will Nate claim her as his mate?

Fantastic book and I loved the intense chemistry between Nate and Evie. The pull between them is incredibly strong - the author did an amazing job capturing the effects of the mating fever. I loved Nate's inner dragon and its urge to immediately claim Evie - it was sexy. Thoroughly enjoyed the book and I'm definitely adding Minx to my favourite author list.

### **Cindy Caron says**

What an exceptional book. I am in love with the characters in this series and can't wait for the next book.

Exiled by his cousin upon his father's charges of treason, Nathan (Nate) and his brothers are forced to accept work given to them by the now king (his cousin) in order to maintain peace. But when a delivery goes wrong and the treasure he was to deliver turns out to be a woman, all bets are off, especially when she is his fated mate. Trying to make enough to pay the bills, Evie, after losing her job, is forced to do what ever she can to try and support herself and her mother, even if that meant selling knock-off purses on the streets for whatever she could. On such a day, she finds herself facing a dragon only to wake in a crate, curled in a tight ball and aching all over. Can she trust the man who has helped her out of the crate? Where is she? And what about her mother, Mimi? Is she alright?

A well written story that will have you drooling and wanting more, looking for book two even as you finish up book one. Absolutely loved this!

I received a copy of this book in exchange for my honest review.

### **Nana Prah says**

I love dragon shifter stories. The unusual way Nate and Evie meet, their immediate attraction, intrigue, danger and the whole mate concept had me flipping the pages to get to the end. For a novella this book was highly satisfying and it drove me to buy the other two books in the story and read it in one weekend.

---

### **Julie says**

I enjoyed the story, but there's not much background. I didn't get recovery agent at all, I thought courier.

---

### **Tina Todd shobe says**

I was gifted this book for an honest review.

Nathan does deliveries for money. No questions asked. He's always made his deliveries on time until a storm almost kills him so he takes the package to his home to wait out the storm.

After losing her job, Evie is selling knock off purses on the street trying to make rent money. She has spent the majority of her life taking care of her mother, who definitely not much of a mother figure. Evie is abducted.

Nathan is a dragon and is fighting his urge to mate. He soon discovers what is in the package he was to deliver....Evie. They are both shocked.

Nathan just knows that she is his and he determined to protect her. It's foreign to Evie that someone actually takes care/protects her as she's had to be so strong all her life.

Nathan is beyond hot and Evie and he seriously sizzle.

This book is a short read but the only thing disappointing is when it ended. I just wanted more as I was really into this book. I can already tell I'm going to love this series.

This is the first book I have read of Minx Malone and I happily can say she has gained a new follower.

## **Sherry Molock says**

### **Lots of Potential**

Let me preface my review with the fact that I like but am not a huge fan of paranormal romance. I love Sherylynn Kenyon's Dark Hunter series and the Black Dagger Brotherhood series, but I don't typically read paranormal romance if it's not written by these two authors. I decided to try this book bc it was written by M. Malone, and I adored her Alexander's and Blue Collar Billionaire series.

I think this book and the series has a lot of potential but it was so short that the author didn't have enough time to do some critical world building, which I think is crucial when you are writing about paranormal themes. I was really interested in her use of dragon shape shifters, since I've never read a story about that before and I loved that the story took place in DC (where I work) but it's hard to get into the plot because there are too many unanswered questions. Since the book is so short, the hero and heroine fall in love almost instantly, so there's no romantic tension to drive the story.

I think this series has a lot of potential but I hope the next book is a lot longer and takes more time to do the world building and character development it deserves.

## **Katherine says**

Ok. The insta-love was too fast for me, and the plot felt rushed.

Nathan's Heart Brotherhood of Bandits

Mating Fever Book 1

by Minx Malone

?????????

WOW I really enjoyed the storyline for this book with its creative characters and plots. The book also contained a nice mix of contemporary references and fiction settings with the added bonus of having strong main female character who is willing to help her mate. The storyline is so awesome it will keep you turning the pages until the end and makes you excited for the next book in the series.

I was hooked from the very beginning. I mean, the dragon is sexy and he is hot for his BBW. Even though

the main characters are dragons, you still have all the other characters and their world that Ms. Malone weaves together beautifully. I love that the book is part of a series and therefor the storyline will continue. I can't wait until Book 2. But despite the fact I read the book in one sitting and I thought it was a awesome read.

Nathan Drake is dragon he cares about brothers and money. He recovers items and he will only take jobs that gets him paid the most money. He is called Heartless by brothers because he lets nothing stand in his way to deliver.

Evie is a young woman who looks after her mother, because she's sick but it's more than her daughter caring for her will heal her. Evie is taken but she finds someone to take care of her for a change.

This is a Fantastic Read. If you are looking for a Spectacular paranormal book then you need to read this book and the entire series. You can't miss this awesome book or series! This is also a magnificent book to add to your TBR list. I'm felt so good about this series that I'm excited and anxious to read the next book this series. I highly recommend this book and series.

If you believe in the world of paranormal romance, the possibilities are endless and fascinating!

### **Asounani says**

3.5 Stars

Entretenido, se deja leer pero es todo. Pudo ser muy bueno si desarrollarán más la historia.

Comprendamos para mi existe una clara diferencia entre el Insta-love y los Soul Mate y para mi este libro cae en la última categoria pero con pinceladas de Insta-love. A grandes rasgos se disfruta.

---

### **Jackie says**

Not quite worth a 4 star rating. Typical novella, & why I tend to avoid them. Gosh, this story could have been brilliant if the author had made it longer to give more world building & more time for the relationship to develop. I felt like I missed book one with all the world building in it. The flow was ok, the characters were likable for the most part. The plot, without the background filled in, left me hanging & a bit confused with loads of questions.

---

## Joanne Swinney says

Looks like I've just found myself another author to stalk, I mean read lol! I'm a crazy lover of paranormal romances. Vampires, bears, wolfs all get my vote but now I have dragons to add to that list. Who knew that a dragon shifter could be sexy.

Nathan is a man many believe should be King. He also has a strong dragon, not as a pet but actually inside him. He senses his dragon, it's hard not to when he's constantly on his case especially where their mate is concerned.

Evie is a young woman who has struggled more than most people do in life because of having to look after her mother. I say look after like she's sick but it's more the woman has some issues that quite frankly are going to need more than her daughters caring to put her right.

Evie and Nathan meet unexpectedly, this is such an understatement. Nathan is going through the mating fever but this time it's different, this time he has Evie standing right in front of him.

I love nothing more than a strong alpha male taking control in the bedroom. You just know when you hear words like 'let me taste you' you're in for a sexy read while the characters are burning up the sheets.

Evie is in grave danger and Nathan has vowed to protect her. She's their future Queen. Yeah, Evie kind of melted at that point. Poor woman has never had anyone really looking out for her and now she has it in spades. It's a lot to swallow but in the world of dragons and their mates it's the only way. No one will ever hurt women, they are to be protected at all costs.

So needless to say I'm looking forward to reading the next book in the Brotherhood of Bandits, Mating Fever. If you love all things dragon and are into Paranormal Romance then this book is definitely for you.
