This book is a sequel to On a Dare

Can friends with benefits ever be anything more? Chad and Maia are about to find out.

Chad Buchanan has been in love with Maia Lee, almost from the day he met her fifteen years ago—and it has taken just that long to realise Maia will never love him back. Chad is finally ready to settle down and have a family, but he knows Maia will never be able to give him what he wants, what he needs. So he calls an end to their on again—off again affair and walks away from the woman he knows he will love forever.

But maybe he was just a little too hasty. Because when he overhears Maia, and discovers her secret longing, he sees a way to finally have everything he's ever wanted.

Maia wants a baby, she'd considered having one with Chad, but she never asked, and now he wonders just what will she do if he comes to her with an offer she just can't refuse.

Can friends with benefits ever be anything more? Chad and Maia are about to find out.
