Quartz Michelle M. Pillow
Galaxy Playmates 2
Paranormal Futuristic Romance

Galaxy Playmate Quartz is a woman who knows what she likes and she likes variety in her men. Knowing she'll never be satisfied with just one man in her bed, she doesn't even try to have a monogamous relationship. But when Thor, her new bodyguard, is sent to protect her from a stalking fan, she discovers that she just might be happy with one man in her heart—so long as he's the right man.

Thor has loved Quartz from the first moment he laid eyes on her. A complete shifter, he's able to play Quartz's games and give her the variety of lovers she wants. For, in the end, she'll belong completely to him.

Rating: Contains graphic sexual content, adult language, and violence.

Quartz

It's so funny but crazy, how he has been the one sleeping with all this time. I love reading about the different shifters and their talents. This one was extraordinary.

Leigh says

Of all the Galaxy Playmates stories, THIS is what I love the most. Quartz does not have any "Action-packed" characteristics compared to other Michelle Pillow's heroine. She is a glamorous, ambitious playmate. And she accepts her sexuality as a woman - she relishes on it. Hero is in love with her for so long and she's afraid that if she commits to him she will hurt him because she knows that her eyes will wander to other species. At least she's very honest about it. With the Hero's capabilities, it really complements her desires :-)

Interesting

Playboy anyone? An interesting take on Playboy. A different look at the lifestyle of a playmate in outer space. The story does have a HE A.

Quartz is a Galaxy Playmate, wanted by men, hated by women, and she loves her job, it allows her to pick and choose her partners and give her the variety that she wants in her sex life. But she's been getting threatening letters and when she gets assigned a new body guard, Thor, she becomes more and more obsessed with how she looks to him, and how he's enjoying the show that she puts on. Thor has been watching Quartz for a long time, and knows exactly what she wants in her men...little to her knowledge, Quartz has only taken one man to her bed in the past year, and Thor's shifting powers have allowed that. With the right man, Quartz could be faithful...but is Thor that man?

Quartz is book 2 in a series (Galaxy Playmates) though it is possible to read it without reading book 1 (which is what I've done). I needed something sexy and light to read and I've been enjoying Michelle M Pillow's

books so far so thought I'd give it a go as it was on my Kindle, and I really enjoyed it. It's definitely a quick, fun and hot read!

Quartz herself was kind of vain, she liked things her way and she liked to make people do what she wanted. Though I'd normally find this very annoying in characters, I actually found it acceptable in this case simply because she knew that's what she was and acted accordingly. In one case she even said that she liked variety and was incapable of remaining faithful, which was why she didn't lie to herself and have a relationship. It was refreshing to have a character so aware, and accepting, of their faults.

On the surface, Thor seemed to be the opposite of that, but actually once the surface was scratched, it became clear that he was kind of possessive and wouldn't let anyone else actually touch Quartz, and even that he was willing to manipulate her to do it. Both of the characters were flawed, and both accepted that, which made them work together.

There was a good chemistry between Quartz and Thor, especially when Thor was in his 'standard' form as opposed to one that he'd taken on because Quartz wanted it, and I found the way that their relationship progressed (mostly based on physical attraction).

Because the characters were aware of, and admitted, their flaws, this book ran smoothly for me and I was able to enjoy it as a short, light and sexy read!

Holly Smith says

This was a nice short read. I enjoyed Thor and Quartz's storyline and found it refreshing.

Malinda says

This was a pretty good short erotic story. Quartz is a Galaxy playmate and does shows all over. She has a bodyguard, Thor that she likes but can't be with exclusively because she likes variety and doesn't want to cheat on him. I liked the surprise that allowed them to be together in the end. It's a hot little story that I enjoyed reading. :D

Meka says

Very well done

Even though this book wasn't very long, it was definitely a surprise and I enjoyed every moment. Can't wait to read the next book in this series

Lady Raven RAVE! says

Loved the second book in the series, now I must say that Quartz is annoyingggggggggggggggg vain and spoil

but it's apart of her character and it's ok with me in the end she got the man who could give her everything. Thor what a cutie pattuie he was sexy and a nice guy and was strong enough to handle Quartz and of course the sex was good. Can't wait to read the 3rd installment of the series.

This is book 2 in the Galaxy Playmates series. This is the story of Quartz and Thor. The girls are named from Earth's precious stones and the men from earth's Greek gods. She is a dancer in space and he is her bodyguard. What she finds with him ,no man could ever give. These books are short but they pack a punch.

Patricia's Book Summaries says

If you're looking for a quick, hot read, this is the one for you. It was about 20 pages in my version and not bad for a short story.

She has a bodyguard because she had been getting threatening letters. Her old bodyguard wanted her, but she didn't want him back, so she fired him for his perseverance. She is attracted to her new bodyguard, but she can never be a one-man woman because she likes variety and doesn't want to hurt a man by cheating on him. When her old bodyguard is revealed to be the one sending the threatening letters, she finds out that she had been only fucking Thor for the last year because he is a complete shifter and can change shape to anything he wants. All he has to do is touch another creature to get the DNA and change to its form. In the end, they confess their love for each other and get together exclusively.

Nessa says

ITS SMUT. DONT HATE IT, DONT HAVE TO LOVE IT, JUST LET IT TURN YOU ON.

Kimberly Walter says

Quartz was sexy, passionate, fun and sweet.

Christie says

No this was awesome short story.. It took me by surprise as of right now, it would be my fav.

Ladymcbeth says

Good short story, just enough suspens and erotica ... Thor is a guy to kill for :)
