But then Nick bets her the building that he can make her fall in love with him in thirty days.

With his reputation ruining his chances at gaining some big clients, Nick needs a way to prove to everyone that he's reformed. Dating Abby, the most respected girl in town—and the only one he wants—is the perfect solution. Nick's confident he'll get Abby to fall for him, so he'll win the building and the girl he can't get out of his mind.

But even though Abby can't lose, resisting Nick is harder than she thought.

Resisting Her Rival was such a cute romantic story about two rivals fighting over a building, and whose hearts collide as they start to realize that they are meant for each other.

Abby Snyder has worked really hard to make her diner successful, and now she wants to expand it by using the building next door. But to her surprise, the person that also wants the building is non other than Nick Coleman, the undeniably irresistible playboy that she got to spend the night with. Months have passed since they've seen one another, and now that he is back in town, and in her life, she is determined to get what she wants no matter how irresistible Nick is.

Nick has had a rough time getting clients for his business due to his reputation, his playboy status hasn't worked for him, and now he wants to turn that around by buying a building for his business. He knows that if he wants to change his status with the town, he'll have to figure out a way to make them see that he is a responsible and changed man. And he has just the right person to help him with that, and that is Abby Snyder. Nick knows that getting Abby to help him is not going to be easy, but the minute Abby finds out who is planning to buy the building next to hers, Nick bets her the building if he can make her fall in love with him in thirty days. It is a risky move for both of them, but they are equally determined to win. When the thirty days start, Abby starts to wonder if falling in love with Nick is easier than she thought it would be, and if she falls for him, she is going to lose the building that she wants.

I really liked both of the characters in the story, Abby is a hard working person that wants to succeed, and Nick is more playful, but also a hard-worker. When the two visit the owner of the establishment to sell them the building, he tells them to figure out on their own who is going to be the one getting the place, and that's when the bet is really on between the two. The dynamic between them works and that's what also pulls them together. I found myself hysterically laughing in some of the scenes where Abby's grandfather is involved. He is a total matchmaker, and he is hilarious. The storyline was great, and engaging, it was nice seeing the progression that the two characters made throughout the story, to the very end. Overall, the story was enjoyable to read, as it was quick, and the romance between the characters helped a lot. It really made the ending cute and romantic, I would really recommend anyone to give this story a try. :)

A fantastic read that I found very hard to put down. The characters were a lot of funny. Abby was sassy and independent but inside she was lonely and sad. Nick was self assured and successful also. The games these two played to win the ultimate goal (a building) had me laughing me butt off. What they both convinced themselves was the most important goal was not what they ended up winning.

The sisters and friends were great secondary characters who added layers to the storyline and grandpa Noah is a hoot. After reading this book I see that it is the second book in this series so I seriously find myself needed to go on amazon to buy Stealing the Groom (Amelia & Chad's story).

Ann will be the next one and I will have to place my preorder when that's available. Fun, romantic and so much more :)

I received this in exchange for an honest review. Where do I start? This was an AMAZING read and it had my interest from page one! The main characters Abby and Nick have an obvious chemistry. Three months ago they spent an AMAZING night together....a night neither can forget. Now they both want the same thing....a building each needs for their respective businesses. The owner tells them to figure it out on their own and then let the games begin. Nick lays down the challenge. But is he really after the building or a repeat night with Abby? The bantering between the two is comical and I found myself on team Nick. Throw in a meddling grandfather, 2 curious sisters and a conspiring building owner and find out if Abby can resist her rival.

I enjoyed this book. Abby and Nick are kind of rivals - competing for the same building but they are really attracted to each other and have spent a night together a couple months before this story takes place. This story was really sweet with witty, loveable characters. I look forward to reading more in this series.

Loved this one! A humor filled story with amazing characters and a quick pace make this a perfect read. It's a

sweet story that has the H/h competing for the same building. Nick throws down a challenge and Abby can't resist. The banter between the two is hilarious and the secondary characters will make you chuckle. I highly recommend this one!

Resisting Her Rival is a quick witted fun read. Both Abby and Nick have their own agendas when it comes to fighting for the building they both want. RWR is well written with not just likeable, but loveable characters. This happens to be the second book in the series, but there is enough back story, to read as a stand alone. However, with that being said, I am going to start at the beginning of the series. I also look forward to reading the next book to see where the rest of these spirited characters end up. An ARC was provided by the author for a an honest review.

Nick's ego just can't handle some jabs, "no way could he let that go. "Whatever? Let me spell it out for you. We had mind-blowing sex. Best you ever had, you said." Abby she's funny in her own way and I love how she thinks she's bada**, "don't stand there with your sexy five o'clock shadow and think that I'll be easily persuaded to overlook this one." Nick he sometimes likes to let his girl sweat things out, "you show up at my house in the middle of the night, disturb the peace, and tell me you want to be with me." He shook his head. "I don't think you're being sincere." This book was funny and an enjoyable read.

Kerry says

This book was a sweet read with the right amount of angst , I never felt frustrated. I love Nick's sense of

humour , my cheeks are sore from smiling through most of the book ! Abby also had a great sense of humour ; Nick:" Do you run?" Abby: " Not unless I'm being chased or going for chocolate" . I loved it, it was a very enjoyable read.

Crystal Wegrzynowicz says

Such a sweet story! Loved it! Can't wait for the next one.

Alison Bliss says

I cannot say enough good things about this book! Loved the witty humor and sarcastic banter between Nick and Abby! Terrific dialogue!! And the secondary characters (especially her granddaddy) were well-defined and added so much more to the story. This was a sweet romance with loads of sexual chemistry. I fully believed that these two character were hot for each other from page one. Superb writing, descriptive, fun, and most importantly, a beautiful love story between two characters I have absolutely fallen for. Can't wait to read more from this fantastic author!

Resisting Her Rival from the very talented Sonya Weiss, is an amazing story that will leave you smiling throughout the whole story. This is the first book I've read from Sonya Weiss, which is actually book 2 in the Stealing the Heart series. The first one is Stealing the Groom and I immediately one-clicked it, as soon as I finished Resisting Her Rival. I am extremely pleased I found a new author to add to my favorites list.

Resisting Her Rival captured my attention from the very beginning. The storyline is engaging, the romance is sweet, and the characters are well developed and witty. I can't wait to see what else this author puts out.

Brittany B says

Resisting Her Rival is a sweet romance with a side of angst.

Abby is a sweet girl-next-door type. She's responsible, determined and has her heart closed off. Nick is a man with a bay boy reputation. They spend a night together, and that's all it was supposed to be.

Then comes the rivalry for the building next to Abby's diner. Bets are on and the battle ensues.

You can definitely feel the smokin' hot chemistry between the main characters and there's a lot of intrigue that comes with that as a reader.

The only thing I felt was missing was a bit more background on Abby and Nick's pasts (flashbacks would have worked well). I think it would have allowed more connection to the characters straight off the bat. You don't find out until very far into the book the exact reasons why Abby avoids relationships of any sorts, so I was left wondering why she was always so off put with Nick other than that she's divorced. I wanted more

book!

I loved their banter and wit with each other. There's definitely a lot of laugh out loud moments. The secondary characters were also very well written.

I'd recommend this to anyone looking for a nice, lighthearted, sweet romance. Definitely worth the read.
