From Reader Review The Art of Being and Becoming for online ebook

David says

From the title, I was expecting more of an abstract analysis of how a personality emerges, for instance, your first understanding of how it feels to be confident, but instead the author supports his arguments by pushing that if an individual believes in God, then a favorable personality would take form. There were some insightful ideas, but the book overall felt too preachy.

aaa says

I own 100s if not 1000s of books and out of all of them (I've actually read!) Inayat Khan's writing is the most beautiful and heart-hitting of them all. A true pleasure to read, for it is a rarity that such a heavy book can artfully begin at the heart and cause the mind to follow. Usually, it is the other way around.

A dear friend turned me on to this book by Hazrat Inyat Khan and I've never looked back. Seriously, I buy any books he's authored, that speaks volumes as I am a picky reader. It's also a book you can reread and gain new insight at various points in your life. Highly recommended!
(Donald Walsh has nothing on Khan.)

Just amazing. A really good book ! I believe this is one of the best book I've ever read about life and people. Although spiritually, I am not into Sufism, but it is a good thing to learn and know a bit the wisdom of Hazrat.

This book is an artful composition of the heart.
