These books are all really amazing. I loved all the days that I spent reading them all. I just love fairy tale retellings and I also love historical fiction. These books had those and much more in it. With a touch of magic lots of danger, adventure, and finding yourself, and all with a dabble of romance these are my favorite books ever. This is by far my favorite book series the other did a marvelous job of including the story line of my favorite fairy tale (the goose girl) into a series of incredibly magical thrilling books. I recommend all these books to anyone that loves to read anything because there is just a little bit of everything in all these books.

Loved this series. Took me a little bit to get into the first book but once I did, I couldn't stop. Loved Enna Burning and River Secrets. I really liked the ending. Definitely recommend

4.5 stars overall

This is a magical series with wonderful writing, vivid characters, and the 1:1, non-fluffy sort of romance. Highly recommended!

I enjoyed reading each of these books. My favorite would probably be River Secrets(#3) with my least favorite (by far) as Enna Burning(#2). I felt like Forest Born(#4) really referred back to the first book, Goose Girl, and basically wrapped up the series and put it all together. All of these books were really well written and even though I said Enna Burning was my least favorite by far, Shanon Hale is a great author and I look forward to reading more of her books.

Debated whether to rate as three stars or four.... each story individually I really enjoyed... but not as a series. With each book, there is some conflict which in the end is thoroughly resolved, leaving the idea that everything should be "happily ever after" at this point. Then the next book starts, and nope, something else has gone wrong. Now we start over, solve this new separate problem, and the cycle continues. I didn't even read Forest Born because by that point I care to learn what went wrong THIS time. Yes, conflict needs to be resolved, but there should still be something that binds the books together in one bigger story, something that makes it so that book two couldn't just as easily be the end of the series as book four. As it is, it leaves no suspense for the next book, since each book ends suggesting the end of trouble.

All that said, they still are enjoyable stories. I liked the characters, and listened to the first three books in two and a half days while sorting fabric. There was just that one problem that really bugged me.

I was always told to read the goose girl but never did. Finally got my chance and was pleased. The beginning was a little difficult to get into but then I really started to enjoy the book. After I had to go and read the rest of the books of Bayern

Best books I have ever read no doubt! The clever detail and creativity is inspiring and I am crossing my fingers for a fifth book! I am definitely in awe by how Shannon veiws specific details about life and nature and puts a slight twist and makes unique, astonishing books. Would recommend this to any fine girl.

This trilogy is one of the best books i have ever read- i think it could even outcomplete the great J.k Rowling! I am a Massive fan of Shannon Hale and i love the research She puts into making her stories really come alive. I have been shouting out about this book to everyone i know for years but in a breif descriptions it's really hard to give it justice. The magic in this book really comes alive and the characters are really relatable. Isi is a fantastic main character who i personally empathise with really easily- the story of the shy girl becomeing brave is not a cliché but just really well written. The other characters are fantastic- even Shelia and Ungolad, who gives me shivers! Are such good Badies!

I could go on and on all about these amazing books- as you can tell, i'm abit of a fan! But i will leave you with this. Bayern is a beautiful land and reading it is so good- it makes real life boring! I definately recommend all three books and forest born which is the Bayern revisted, or just anything else by Shannon Hale she's an brilliant author, and you'll never be able to guess the endings.

Overall- Best book in the World!!! READ IT!!

I love magic, and these books are full of them. Plus all the characters are strong people, who need to learn to control their powers and their weaknesses. Each book in the series highlights a different character with a different personality.
