Still the same pithy anecdotes and sometimes low opinion of men (although warranted most of the time). I DID NOT like the envy of girls who are force fed in Nigeria in order to be more marriageable. These poor girls are forced to eat sometimes 12,000 calories per day and lie about, waiting to expand to an acceptable size against their wills. Most of these girls are told if they do not comply that they will be disowned, beaten, or killed as a mark of preserving family honor in the light of such disobedience. It is right up there with female circumcision. It is a horrify and inhumane practice and should not be even jokingly a source of envy. I expect that JCB was being tongue-in-cheek, but there is a limit to even my sarcasm. She redeemed herself by sharing the story about her friend's wedding, which she staged after learning the friend would be undergoing cancer treatment. I will keep reading, but I really want to caution authors not to make light of truly awful practices outside of the US. There are better objects of scorn right here in our own backyards (where civil liberties are at least acknowledged).

In her gloriously sassy style, Jill Conner Browne narrates this book on wedding planning AND her wit and wisdom about divorce. While originally from "the North" and now living in "the south." I knew little about "southern ways," i.e. debutante balls and southern hospitality, but was soon to learn a thing or two.

Being a big fan of sassy women (I am admittedly one myself; although in "the north," they have another word for us - "b*****"), I looked forward to travelling with Jill as my companion on my recent road trip to Michigan from North Carolina - via Bluetooth and Overdrive on my car stereo speakers. Jill and I spent a wonderful 10 hours travelling together by car through the Appalachian mountains and into the "Big City" (Detroit). While the skies grew cloudy and rain fell, I laughed and smiled at the antics described by Jill all the way "up north." Never has a road trip been this much fun.

The best part of this (if you're not getting married or divorced) is the advice in how to respond to those who are. I highly recommend.

I listened to this one on audio. Jill Connor Browne does such a fantastic job narrating again. Her commentary on southern life and women's issues remind me so much of my crazy aunts and grandmas back home that I will be, of course, listening/reading more from this author.

No matter where you are in your marriage—anything from planning to meet the future groom to trying to decide how big to make the bonfire of the ex husband's crap—this is the book that tells a woman most of the things her friends are trying to tell her nicely. But they love her so they can't be nice about it—so get a big, funny Southern woman to tell you what you need to know. In classic Southern way, Browne regails you with stories of her friends, leaves you in stitches, offers a few yummy recipes (who wants to diet when something so important is happening?), and helps you plan any number of parties you need to feel. Her conversational tone gives the image that, were you to visit to Mississippi for the SPW march, you could walk up to her and give her a bear hug.

Got this book in a 3 dollar bin while on vacation. I was recently engaged, so naturally read the wedding planner part first (thinking it would be a "how-to"). The divorce guide is **HYSTERICAL** too. It's not a wedding "planner" in any sense of the word. It is a crazy woman who is the Queen of a group of ladies who call themselves "Sweet Potato Queens." They have yearly conferences/ parades/meetings/etc. and it is a collection of hilarious stories about the differences between men and women. I laughed out loud...a great book for any girl, doesn't matter if you are married/single/divorced/whatever. Very funny!

The Sweet Potato Queens know a thing or two about ending a marriage (and beginning one—flip this book on over if you're planning on attaching yourself to the ol' ball and chain!), so who better to provide this crucial divorce guide? Besides, whether you're getting your own personal divorce or not, chances are you'll be calling Mr. Right Mr. I-Don't-Think-So sometime in the future! In this practical handbook, you'll learn:

- How to survive even the nastiest divorce while maintaining your queenly composure
 - Why it's appropriate—and necessary!—to throw divorce showers and send out divorce announcements
 - Why love is even better the second, third, or fourth time around

This hilarious reference is a one-stop relationship shopper's dream: start from the front and it's a wedding planner; flip the book over and it's a divorce guide. Boasting "around thirteen marriages and eight divorces—so far—not to mention more than 300 combined years of valuable experience," Browne and her fellow Queens offer sage advice, dire warnings and sidesplitting anecdotes for women who could use "some sympathy, some understanding, some refreshments and a little f*cking help around here." Between offering tips on how to save money on weddings and avoid manslaughter charges during divorces, Browne also teaches her own language course in Southern-speak, which she dubs "Y'allbonics," and shares recipes encouraging "balloonias" over bulimia.

As funny as Browne can be, her powerful underlying message has always been preaching empowerment to women who feel they have no options ("Quit investing your life in a relationship that's bringing you only minimal returns. Don't be skeert of going for more").

AND NOW A REVIEW OF THE AUDIOBOOK READ BY JILL CONNER BROWNE:

Browne's fifth outing shows no sign of wearing out her welcome as the Southern fried guru of belles past 40 but never past their prime.

Browne justifies her one-stop shopping approach to relationships (which combines advice on planning nuptials as well as tearing them asunder) by quipping, "Statistically, 100% of all divorces do start with weddings."

Browne's audiobooks are laugh-out-loud, steer-your-car-off-the-road listening experiences. But the reason there are nearly 4,800 worldwide chapters of Sweet Potato Queens is because she uses her wild and irreverent humor to empower and embolden her readers. Bemoaning that too many young women are going to college in search of a husband, Browne cautions, "If you're gonna go to college for Pre-Wed, I insist that you also take a full course in Pre-Death/Pre-Divorce and get yourself an education that will prepare you for the 'unthinkable situation'—taking care of yourself and possibly a bunch of children by yourself for a large part of your life."

This benevolent Boss Queen has the rare ability to sprout phrases like "busier than a one-armed monkey with six dicks" and still sound refined. Her wonderful, deadpan delivery enhances the humor and her warmth radiates on every track.

I loved every witty word of this book. I thought it was brilliant and hilarious to include both a wedding planner and a divorce guide. Don't be offended, just laugh at the practicality of it all. And speaking of brilliant, they put recipes in there. So... I now need a copy of this in case you were wondering what to get me for my birthday.

I always like to read a Sweet Potato Queens book (except for that god-awful novel that Jill Conner Browne tried to write), and I'd love to go to Jackson, MS one of these years to see the SPQs in the St. Paddy's Day Parade. This book isn't really anything new (you'll need to read the first book or two for that), but it's funny, and I think it was clever to have a "wedding planner" on one side and a "divorce guide" on the other. It's worth noting that, although the wedding planner isn't actually useful at all to anyone planning a wedding, Jill breaks out of entertainment mode several times in the divorce guide to urge women in abusive situations to get themselves out of those situations as quickly as possible. As usual, there are some intriguing recipes, too.

Although this is a butt-shakin' hilarious book...the advice is dead right on serious. Many of us would think the advice is a "no-brainer", but in truth it isn't....

One thing that really grabbed my attention was her take on love & olfactory sense. I've thought long & hard about how our sense of smell & pheromones effect our hearts.... and I came to the conclusion that love, smell & pheromones are all tied up together and mostly we fall in love due to the pheromones of that main squeeze. I was surprised to find out that she concurred with my assessment, which in turn made me sigh with relief that I'm not so crazy-thinking after all!

*****Quotes*****

"Because lemme tell you something else I learned the very hard way: Every potential husband is a potential ex-husband or even a potential dead husband, and you need a plan just in case either scenario develops down the road."

"What if a whole bunch of guys got together and just started hollering at the top of their lungs that there was a really great sexual opportunity *right here* for any interested females? Sounds like any bar I've been in actually."

This is a fun summertime read, being from the south I can absolutely identify with a lot of it and there are some really funny situations. I have read some intense, serious and sad books this year so a silly read that made me laugh was a nice break!

The audio version is fantastic and truly a great performance by the author. I laughed and cried and enjoyed it the whole time. I highly recommend it. You'll appreciate her books much more if you're Southern or middle-aged, but I think anyone could find the humor in them.

This book was my introduction to my now beloved Sweet Potato Queens. Stumbled upon during a library search for wedding guides for a marriage that never took place, this book made me laugh so hard... With Browne's trademark tounge-in-cheek southern humor mixed in with nuggets of wisdom and some great recipes....what true flower of Southern womanhood wouldn't love it?

One of my all time favorite laugh out loud books. LOVE LOVE LOVE!
