A Bride for Christmas

Charlotte Grace

A Bride for Christmas Charlotte Grace

My fiancé cheated on me. With his PA.

So I did what any jilted bride would do...

The wedding might be cancelled but the luxury accommodation was still booked.

I decided I didn't need a man.

I'd marry myself, have the honeymoon, celebrate me.

I'm alone in the lodge in the Rocky Mountains I'd booked for our Christmas wedding.

But when I wake the next morning, there's a man in my kitchen.

It was his scent I noticed first, because I'd never forgotten it.

One look at him and my heart threatens to detonate in my chest.

It's Hunter.

My first crush.

My brother's best friend and business partner.

My ex-fiancé's cousin!

Turns out, not only does he own the house, but we're trapped by a snowstorm.

And I'm supposed to be healing my betrayed heart.

But Hunter looks at me like all his Christmases have come at once,

And since the best way to get over a man is to get under one...

It might be snowing outside, but inside, things are about to get very steamy.

My2CentsBookReviews says

A perfect story if you getting married for the sake of marriage or for love?

Saylor was ready to marry until the rug was pulled out from under her. Probably the Instagram following distracted her to focus on the wedding planning and not the groom. So potential to happen in this day n age. Hunter her fiance cousin and her brother best friend and business partner didn't risk going after Saylor because of his best friend. The journey Saylor take's is trying to empower herself and shake off ex fiances abuse, abandon and controls. Violence1, sex2

A Bride for Christmas

When one door opens to a cheating fiancée you close it and open another. That is what she does. She moved on and if her luck gets better she will find the one who should have been there for her. She could get a second chance with the one who should have been there for her. But will the Chester get his second chance with her? Or will she stand fast and keep him away? Once a cheater always a cheater.

MJM says

Oh what a lovely seasonal read. It was fast paced and captured my imagination at page one and retained it to the end. Charlotte Grace has really made a great success with this, her first novella, Yes, it is a short story but that doesn't negate from it being a fun read. The story takes place over a few weeks, when Saylor, our young beautiful heroine, catches her cheating fiancée so she dumps him immediately and decides to still go on their honeymoon trip at Aspen in the mountains. She doesn't need a man, does she? So after a night in the wonderful surrounds she wakes up in the cabin to the smell of something that wasn't there last night! Imagine how she feels when she discovers Hunter [stud muffin, handsome, all round good guy whom she had a crush on when she was a teenager] her brother's best friend/business partner and Rex's cousin [Rex is her ex] to boot. Well one thing leads to another and past crushes come to fruition in ways they never dreamed of as they are snow bound together in the cabin that Hunter owns. The rest you're going to have to get your own copy as I have. A very enjoyable read from this new author and I will definitely be looking out for her next literary publication. I voluntarily reviewed an advance reader copy of this book.
DEFINITELY RECOMMENDED.

Sharon Woodward says

This is the first book I've read by this author and I am very impressed. Saylor is only a month away from her wedding when she catches her fiance cheating with his PA. She decides to go on her wedding trip alone. Her solitude is interrupted by Hunter, her childhood crush. Saylor's brother is Hunter's best friend and business partner and the reason he never acted on his feelings for her. Their chemistry is off the charts and the love scenes are smoking hot. I loved Saylor and Hunter's journey and will be checking out more of this author's books.

2,5 Stars

Short cute Christmas story!

Kendra Arnold-harvey says

??? A Seriously Hot Christmas Romance ???

The characters are enjoyable. They have chemistry between them that had always been there just others wouldn't let them be them explore it and both of them were thinking anything more than friendship is forbidden.

Hunter and Saylor have known each other for years. She has had a crush on him since she was young and he had feelings for her. But they both try to move forward with their lives. Saylor is due to get married on Christmas day to Hunters cousin who cheats on Saylor. But Saylor doesn't that stop her from taking a different approach on this time in her life and posts about being a single woman and sharing what she learns with her online followers what she is learning. She wasn't on Hunter being there also who is distracting her from her goal.

Tpagirl says

A Bride for Christmas was a standalone by Charlotte Grace. It was my first book by the author.

Hunter was Saylor's brother's best friend and business partner. They had known each other since childhood and always crushed on each other. Hunter also happened to be Saylor's fiancé's cousin. Well that was until she caught him cheating, then he became the ex-fiancé.

Saylor decided to go on her wedding trip anyway and hold a sologamy ceremony, which was in a skiing lodge in the Rocky Mountains. What she didn't count on was the owner, Hunter, to be present. Since the wedding was off, Hunter had no idea Saylor was still coming. The quick story progressed as expected.

A Bride for Christmas was told in a dual POV. It was a fast read with the time frame spanning a few weeks. I had to admit, the sologamy idea was a little weird to me, but the story itself was sweet and sexy. I would have preferred a longer version so depth, complexity and dimension could have been added to the storyline, but all in all, it served the purpose. As a novella, I gave it a 3.5 rating, which rounds out to a 4 on this review site.

Although A Bride for Christmas was a standalone, Grace could easily make it a novella series by creating stories for Saylor's besties, Casey and Dani...hint hint.

Patricia Lopes says

I liked this short story a lot!

Girl gets cheated and decides to break off the wedding even though it would probably make her lose her regular paycheck and future opportunities. She also decides to still go on her honeymoon, alone, to rediscover herself.

Unexpectedly a long ago crush, her older brother best friend, "crashes" her "honeymoon" and she discovers that perhaps the crush had been both sided...

It's a fast paced insta love, or not really because of all the teenage years of crushing, that ends up with the best Christmas present!!

And a villain trying to keep them apart!!

Becky says

Best Christmas Romance read yet!

This is by far the best Christmas romance book I've read this season! I'm In a Christmas romance reading binge at the moment and this one rocked! I loved the characters, the sexy times and the story. I'm a super fan of second chance romance and this fit the bill.

Only downside to all the Christmas books I've noticed is it begins with cheating boyfriend/fiancee's and then long time crushes =second chance romance and hea. I wish it was more realistic in the stories. Because there isn't anyway 1month from your wedding you find your cheating partner call off your wedding and are ready to move on. Even if you were settling with said ex!! A little realism here please!

Other than that this is an awesome, hot, lazy day Christmas read!

?

This was a fantastic book. Hated the cheating bastard Rex he sounded awful probably had a small cock too. Some of what she said he didn't want her to do would have made me leave him. Good thing she didn't sleep with him for months he sounded like a disappointment to me. Now Hunter my God. He sounded perfect. But dumb for wanting to go after what he wanted but apparently the wait was fantastic. Well was for both them and me. Really enjoyed how things turned out. Loved this book.

Gladys says

A Bride for Christmas: Brother's Best Friend Romance by Charlotte Grace is a good read. A fun read about Saylor, a woman that discovers her fiancé is cheating. She decides to use the accommodations that are booked anyway. She is very surprised when Hunter, her brother's best friend shows up and they get snowed in together. A very entertaining read that is quite enjoyable. I'm voluntarily posting a review after reading an ARC copy of this book.

Debbie K. says

This book was okay. I know the Saylor and Hunter had a past but it really was a case of insta-love and I'm not big on that. People change over time and crushes don't necessarily grow into love. I didn't relate to Saylor and her need to put her whole life on social media. Overall, the book was fine for afternoon of reading but I'm not likely to re-read.

Merry Jelks-Emmanuel says

Saylor gets the surprise of her life when she walks in on her ex in his office receiving sexual services from his PA. Befittingly Saylor goes to his bathroom in his office and flushes her engagement ring down the toilet announcing an end to their up coming nuptials for Christmas. Rex trying to please his father tries to reconcile with Saylor who is adamant about not marrying him. His father has her followed and finds Hunter with Saylor and threatens to pull his funding from his company if he does not stay away from Saylor. Will they find away to save Saylor's special day? A really good story.

Stephanie says

4 Stars

This book was very different and very sweet. It was much different than I expected, but I wasn't at all disappointed. There was unique subject matter, and several things were handled in ways I agree with, and these specific things are usually handled differently in books, so I was very pleasantly surprised. This is the first book I've read by Charlotte Grace, and I look forward to more of her books. Lastly, I just want to say that we all need friends like Dani and Casey, not just for what they helped do, but for how wonderful and supportive they were.

Judy says

This story is about Saylor who is living her life on her social media account while earning a living and sponsors as she is getting ready to marry Rex the most eligible bachelor. Lets say the engagement ends due to Rex cheating on her and she walks out with her head held up. With the honeymoon resort still book Saylor takes off to relax, enjoy herself and to find peace. After her first night she finds herself in the kitchen and

another person is there, Hunter her brother's business party, best friend, her teenage crush and Rex's cousin wearing only a small t-shirt. The sexual tension between them is unbearable and how they come together is very interesting! Hunter has proven to be a sexy gentleman who shows he really cares about Saylor. As Hunter and Saylor get closer the outside world starts to crept in causing several issues for Hunter to deal with before his world comes tumbling down. Can Hunter get all his issues worked out and will Saylor like his surprise he has planned for Saylor. Can Saylor give up on her plan to be alone as her heart is telling her something different? I voluntarily reviewed an Advanced Reader Copy of this book.
