Another great read by Lauren Wood about a playboy billionaire, Chris, who doesn't understand why his good friend, Keenan, changed for a woman until he meets Stacy. Stacy is Keenan's assistant and she completely ignores Chris's advances and he is stumped but Stacy is strong and doesn't fall for his charms. But he wears her down and after their steamy night she disappears and no one knows where she went except her aunt who refuses to tell Chris since she knows him and what he is like.

A great read with steamy scenes and I loved how strong Stacy was throughout it all and didn't give in until she was ready and how Chris changed. I didn't agree too much with the aunt and Chris's history and I was hoping for an epilogue but otherwise a great read that I couldn't put down because I wanted to read all the different times she refused Chris...which I LOVED.

A very well written story. Lauren Wood does not disappoint with this sweet romance.

The story is filled with emotions, chemistry and a bit drama.

Chris is a Billionaire that is hooked on the virgin Stacy. She is the first ever to decline him. That makes him more interested and he tries everything to get her to say yes.

It is a predictable sweet romance between two main characters that has a lot to struggle with before they can let themselves have their HEA.

A very nice read and I read it all in one evening. Just had to see how it ended.

I can only recommend it if you are into romance stories.

I am volunteering to leave a review for an ARC of this book

Chris is a player - he can't quite understand what all this fuss is about "settling" down -especially when he watches as his best friend Keenan, previously his wing man, who now seems to have been completely whipped .if not a bit absent minded even, since he found his "one" and only - Yeah so not going to happen to him (cue evil laugh)

"Let me introduce you to Stacey, my assistant," says Keenan - as Chris suddenly feels his world slowly tilt on its axes - yeah he is in trouble and he knows it

This is a great short read that will only leave you wanting more!

I voluntarily read an Advanced Readers Copy of this? book. This is a great book to read. I read it in a couple of hours. Lauren Wood did it again with this book. Stacy is the perfect good girl, she is beautiful and smart. Because of her looks she's been protected by her aunt, who gets her a job with a reformed Playboy. This was where she meets Chris, a confirmed bachelor and her boss's best friend. Stacy goes out of town on business

and meets a stranger on the beach who's completely rude. She dislikes him instantly. Later she finds out it's Chris. Her boss has to go home leaving her with Chris. This is where things start heating up. You must read.

\*\*\*I voluntarily read this ARC to give an honest review\*\*\* Chris was a self-made billionaire. He and Keenan had been roomies in college and were man-whores for years. That is until Keenan fell in love and got married. From then on he only had eyes for his wife. Chris couldn't stand to see his friend so whipped. But Keenan told him he should grow up and settle down; which he said he never would. Then he meets Stacy who is working as Keenan's assistant while she's on summer break. He's after her like a dog goes after a bone. But she's giving him NOTHING because she's a good girl and doesn't feel he wants nothing but a one night stand. A great read, couldn't put it down!

I enjoyed the latest from Lauren Wood. Chris is the ultimate playboy and is happy with his life, until the one woman who could change it all comes in to his life and challenges him every step of the way. Stacy is that woman who her first impression of Chris isn't a good one when they meet for the first time on the beaches of Jamaica. Chris puts his foot in his mouth every step of the way with Stacy and yet he knows from the start she is the one thing that can change everything. I loved Stacy and Chris and had to laugh at some of the ways Chris trips over himself in his attempts to win Stacy over. I voluntarily reviewed an Advanced Reader Copy of this book.

### **Maria Di Pasqua says**

This book should not be read only because it is a sexy story. The reader must go beyond the facade and realize that actually there's a clear message coming from the author that is, even the person less dependable can unconsciously fall in love. Chris is a confirmed playboy and runs away from any situation regarding love. His friend from college is a fresh newlywed and Chris is absolutely surprised by his friend's devotion to his wife. When he meets his personal assistant on a business trip, incomprehensibly will fall head over heels for Stacy who will resist him until both will come to terms that their only solution is to yield and be together. An enjoyable read with a fast paced story. A positive message for those that have been turned down by love owing to bad relationships

First off, this was a five star read until the end. That alone made me want to give it 4 stars, but I enjoyed the rest of it too much.

Moving on, I really enjoyed this book. Chris and Stacy had great chemistry from the beginning. They met in Jamaica and while Chris was a player, he couldn't stop thinking about Stacy, the one woman who rejected his advances. Game on!!

I felt the ending needed more to it for it to feel like the story was complete. It almost felt like she just stopped writing. But besides that, it was a really great read.

### **Rebecca Johns says**

Another wonderfully written book by Lauren Wood. She is quickly becoming one of my favorites. Stacy needs this job for the summer, so when her first experience is dealing with a drunk person on the beach, she starts to rethink things. The next morning she finds out that the drunk is her boss's friend and the person they were supposed to have breakfast with. Chris is a one and done kind of guy, but when he sees that Stacy is going to be different, his way of thinking soon changes too. All weekend feelings, and thoughts change but they both know nothing will happen after this weekend. Then he starts showing up everywhere she is, and she has no choice but to give in to her feelings. One perfect night of passion, and she leaves the state for the next two months. When she comes back with a baby growing inside of her, he has to prove that he won't be going anywhere and that he really does love her. I really didn't like her aunt getting in the way and keeping them apart though. I absolutely loved this book. I voluntarily read an Advanced Reader Copy of this book.

This story is hot, sexy, and steamy! The story held my attention and was exciting, but also was heartwarming and emotional. I was enthralled with the characters of Chris and Stacy and the banter between the two. Stacy is smart, innocent, and a virgin but she was not naïve. Although this was an older man, younger woman, I liked how Stacy was not intimidated with Chris and his playboy billionaire status. The scenes are well written, fast-paced and flow smoothly from one scene to the next. The book will pique your interest and draw you in from the beginning to the very end.

Be My Princess by Lauren Wood.

Standalone.

3.5 estrelas.

Bom, a estória é divertida mas, achei que faltava alguma coisa para ser aquele tipo de livro incrível, faltou mais desenrolar da estória, principalmente no final, acabou tudo muito corrido, o final foi tudo muito rápido, acho que tinha que ter pelo menos um epílogo sobre a continuação ou talvez somente algumas informações a mais para trazer um closer melhor para toda a trama.

Mas, tirando isso, o livro é bom de ler.. Achei alguns erros de escrita, mas como é arc, faz parte porque a escritora ainda vai editar tudo antes de lançar.

Enfim, 3.5 estrelas porque faltou aquele toque especial para fazer o livro inesquecível.

### **Bunny says**

This was an entertaining billionaire romance but I must say that I was not won't over by the male lead Chris, he just wasn't quite right, I don't want to give away plot so that is all I will say on him, the lead female was sweet and endearing and the overall story was good, but as I felt the dynamic to be off between the lead characters I only gave 4 stars. You might read this and think it is great, there are lots of great reviews and if you enjoy a billionaire romance then I am sure you will enjoy this book. If you have read other books in this series and enjoyed them then give it a try.

I received a copy of this book and voluntarily decided to review.
