## From Reader Review Betrayed for online ebook

### Cyndi Goodgame says

Cute book. Great for teens.

Lucas has a few surprises in store and I hope to see more of what that is in the next book.

Sophie is 18, but sometimes acts like she is 13. She makes unsound decisions on "going for it" with the involvement with these two guys, vampire or not. While if one is reading it bc they like vampires, it is said that any girl should be a little more weary of who they go off with or walk the city alone.

Overall, it was a cute book though well discovered after the days of Twilight and fans of will enjoy. I like the twists with the goblins and anxious to see how Emily fits into the picture.

And great ending...

### Sandra (Rather Barefoot than Bookless) says

So, over all I really liked this book but I have some mixed emotions. It had a lot of twists and turns that I at first did not expect but the deeper the story got the easier it was to guess how it would turn out.

I really liked the way Lauree writes and how she developed the characters and it always made me want more. Sophie was easy to like and I really felt for her which I think is very important when reading. If I don't like the main character I will not continue.

Lucas-The good vampire. A total babe who really liked Sophie and was her best friend even if she wanted more. Maybe he did too.

Daire-The Bad boy vampire. Love love! He just pops in whenever and calls Sophie "blondie" and is kind of obnoxious in an awesome kind of way. Oh, there is some nice tension there!

So to the things I did not like. I'm not sure how to describe it but I think that the way Sophie accepted that vampires existed was way to easy. I mean if it was me I would need a little bit more persuasion. Also the way she met Daire was kind of weird. Maybe I just didn't get it.

The story was building up to this final combat/turnout during the whole book and then kind of fell flat in my eyes. I'm sorry but it really did. The "big" battle was way to short and was over in like one second it felt like. It is really sad since I really loved the characters and the idea of this book. I really hope that Lauree will make it better in the next book and I will absolutely look forward to it since I think that this story has got some potential.

### Jamie Norton says

I loved this book!

You instantly love Sophie. And her BFF Nora was funny and straight forward.

Sophie has some choices to make and like most girls it's about boys... But these aren't just boys they are vampires.

Lucas is a sweet heart and I instantly wanted them together.

But when Sophie is attacked again it's Daire who saves her, he's dark, tall and a yummy bad boy. He's straightforward (well sort of) he gives off the a-hole vibe.

The fight with Cassian fell a little short (I was expecting a big battle) but the meaning behind it made me

love the book so much more!

Betrayed is full of twist and turns that will keep you confused (in a good way)

I cannot wait for the next one :)

Good going Lauree Waldrop keep up the great work!!
