## **Celeb Crush** Nicole Christie

Twenty year old Anderson "Andi" Kelly curses the day she got roped into helping plan the wedding of her cousin to her cheating ex-boyfriend. To save face, she tells everyone her boyfriend is megastar, Lucas Greyson--currently Hollywood's hottest actor. In reality, Luke is Andi's boss and a good friend--and vacationing out of the country at the moment. It's the perfect lie; what could go wrong?

She finds out the hard way when Luke unexpectedly shows up at her family's front door. Caught, Andi is forced to tell him about her little white lie--and to her horror, Luke decides he wants to maintain the charade. Left with no choice, she assumes the enviable role of Lucas Greyson's besotted girlfriend.

And that's when things start to get really complicated. As they help each other navigate through ex-boyfriends and conniving co-stars, Andi begins to look at her famous boss in a new light. Soon the line between real and make believe gets blurred, and she finds herself with a difficult choice to make: keep her heart safe and grounded...or shoot for the stars.

## From Reader Review Celeb Crush for online ebook

### Ana says

I liked Andi a lot. Her murderous thoughts were so attuned to mine I actually thought I'd somehow projected it into her character. Luke, on the other hand, never did much for me. Maybe because Andi's so loud you kinda forget about him. Maybe because there's a lot of talk of how hot he is but not that much about his personality. I don't know but, the truth is, I never noticed him much. I mean, he's the other main character and pretty much all Andi talks about but Andi's voice is so strong he ends up fading into the background and...that was actually ok. Amazingly enough I read this book solely for Andi. After reading a couple chapters I honestly thought I was going to end up getting frustrated with her and start hating her. It didn't happen. Not a single time. She and I have a lot in common personality-wise. I am often inconsiderate. I'm called a crazy bitch at least once a week. I hate socializing and I'll leave in the middle of a conversation if you piss me off. But I'm also a f\*cking loyal bitch. I will defend a friend in just about anything. Unlike Andi, I didn't have a bad childhood. Or I can't really claim I did because I was never abused and my parents weren't murdered either. They're still very much alive and happy (or so they claim). The happy part. Not the other. Anyway when I was getting into my teens...my father cheated on my mother with a work colleague. He got caught with her in his car about to have sex. Not the first time either. Everyone knew but my mom. She ended up dragging the woman out of the car by her hair and punched my father. Lucky shot. They came home yelling at each other. I was home alone. I don't know how it started but when it's over my mom is on the ground with a bruise in one arm and my father is sporting a bite mark in another. He slept on the couch that week. They stopped talking to each other. More than 5 years would be my guess. The silence was horrible. They never divorced and lived completely separate lives while still sleeping in the same bed. F\*cked up right? Doesn't really matter. The past and all that. My point being that being a teenager in that kind of environment wasn't exactly healthy. Formative years they call it. I don't do relationships. Hell, I don't think I even do proper friendships. And I can hide a world of hurt behind a nice smile or a show of anger. It's not even remotely healthy but that's my way. So I understood Andi and saw a lot of myself in her. Her insecurities. Her fears. Her trust issues. Luckily there was Nate. Comic relief. And a good one too. I actually ended up liking him better than Luke. I still don't understand why he liked Andi. So sue me.

---

### Nadine says

**dnf ~ 50 %**

This is a dnf for for no other reason than the h, Andie.

I liked the setting, I liked the humor, I really liked the H, Luke.

I wanted to give up a couple of times but Luke and the secondary characters were all so charming and funny that I made it to the 50% mark. But I have to give up now. I've suffered enough.

Andie is such an idiotic, self centered bitch that I don't want to read how she gets the guy in the end.

Has anyone read this book? If this doesn't have a HEA, I might want to pick it up again only to see how Luke leaves Andie and the mess she is behind.

The second star is for you, Luke. Please run for your life and find another girl!

---

## Bella says

### 3.5 Stars

This book was a bit of a rollercoaster for me. For the most part, I was totally in to it! But I was frustrated at what was happening on more than one occasion, which brought down my enjoyment factor.

Things were actually going really well, until just before the 50% mark. Luke was flirty and fun, and obviously in to Andi. Andi was stubborn and blind to Luke's feelings, even though he was clearly into her. Luke did something around the 40% mark that I couldn't stop thinking about. I couldn't forgive him for it and it put a real dampener on the whole story for me. Andi had been through her share of shit already, she didn't need to be shat on again. And the way she moved on from her past betrayals, wasn't in keeping with her strong personality. I hated the way she rolled over for her ex, her cousin and at times Luke.

I also didn't like the way excuses started to be made in regards to her past relationship with her ex, almost like him cheating on her was her fault. It doesn't matter how lacking she was with her affections toward him, it doesn't excuse him cheating. It really honestly pissed me off that what happened was continually rubbed in her face and she started almost feeling guilty about it in the end. Whatthefuckever.

Anyway, I did love the romance of the story when it was happening. These two had their share of ups and downs in a short amount of time though, and as I've stated, that ruined the flow of the story for me. I would have liked more steam instead of the blink and you'll miss it sex scenes that featured. They could have been spectacular because their chemistry was strong.

I have more to complain about, like that bitch Kat and Jessica (how many passive aggressive assholes needed to mess with poor Andi, geez?!) and I hated the end in regards to Nate and Amber Lynn - WHAT. THE. FUCK. EWWW. No.

There were things that worked for me and things that didn't. There were things that made me laugh and things that made me wanna punch a bitch. But for the most part, despite what it may seem, I did enjoy this book. It just infuriated me. But I guess sometimes when a story gets you so riled up, it's a good thing.

## Alba M. says

*«— Pero confío en ti, Andi. Confío en que me conozcas mejor que nadie y que me patees el culo cuando lo necesite. Me dices la verdad sin tapujos cuando todo el mundo a mí alrededor me está besando el culo. A veces siento que me estoy asfixiando, y luego miro a mi alrededor y me doy cuenta de que es porque no estás allí. Cuando estoy contigo, estoy más feliz de lo que he estado. Incluso cuando me estás destrozando.»*

*« — (...) Piensas que te estarías perdiendo algo si tomaras un enfoque más cauteloso. Pero ¿sabes qué? Una vida plena no es acerca de la emoción y la adrenalina. Es sobre la gente que te ama y se preocupa por ti, a los que tú dejas atrás cuando te das cuenta de que no puedes volar, y vuelves derrumbándote a la tierra. Puedes arriesgar todo y decirte que estás siendo libre... pero en realidad estás siendo egoísta.*

(...)

— *¿Me amas? – me pregunta, su voz sorprendentemente suave.*

— *Mi corazón duele sin ti – admito malhumoradamente –. Debe ser amor.*

— *Necesito oír que lo dices.*

— *Bien. – lo fulmino agresivamente con la mirada –. Te amo, ¡y lo odio! Es la mejor peor sensación del mundo. ¿¡Contento!?*

*Una hermosa sonrisa irrumpe en el rostro de Luke, tan deslumbrante como el sol saliendo entre las nubes.*

— *Es todo lo que necesito, nena. Que se joda todo lo demás: tú eres mi golpe de adrenalina.»*

3,5.

Tengo que reconocer que este libro me volvió un poco loca.

Al principio me gustó mucho que por una vez la protagonista fuese un poco... ruda, algo pueblerina. Estamos acostumbradas a ver a las protagonistas siempre de lo más educadas y femeninas y aquí nos encontramos a Andi que es un poco machorra y maldice mejor que un camionero veterano. Me gustan estos libros tan clichés que todo empieza con una amistad, que resulta difícil siempre llevar un paso más. Pero es que hay unas cuantas cosas que se me hicieron difíciles en el libro: así como al principio la actitud ruda y algo violenta de Andi se me hizo novedosa y divertida, llegó a un punto que también me acabó cansando. Había ciertas situaciones que requerían algo de sentimentalismo y calma y te encontrabas con el trato rudo y malhablado de Andi que te frustraba hasta los límites y te daban ganas de enseñarle algo de educación. Tampoco me gustó que en realidad no me acabé de creer del todo el progreso de los sentimientos de Andi. Ese es el problema de hacer a una protagonista tan... cerrada y ruda, que cuando quieres hacerla sentimental no cuaja. Y a esta chica no le cuajaba por ninguna esquina. Los únicos sentimientos que era capaz de sentir eran la ira y el odio. Se pasó todo el libro discutiendo con Luke, no exagero, capítulo que empezabas, capítulo que estaba discutiendo con Luke. Yo es que llegué al momento de que yo siendo él la mandaba a tomar por culo, demasiado esfuerzo para no recibir nada a cambio.

Pero bueno, entonces así como pudo, la autora cambio a Andi por una Andi un poco menos bruta y algo más normal. Que tampoco os creáis que mucho eh... le dio una pizca de celos por aquí, y un poquitín de amorcito por allá y parecía hacerle efecto. No es que le diera mucha tensión y drama al libro, a ver había pequeños dramas a lo largo de la historia pero nada que digas: AQUÍ VIENE LO GORDO. Lo gordo vino justo al final, y ahí es cuando se pone interesante, cuando viene lo bueno y la autora se lo fuma un poco rápido. Que la historia está bien, para pasar el ratito, pero hay mucha paja por medio, y si hubiera hecho cosas antes hubiera sido mucho mejor pero...

P.D: ¿Por cierto que tan jodido es que la autora haya liado a Nate con Amber? Y no voy a explicar quién es cada uno porque es spoiler, pero si alguien se lo ha leído entenderá el puñetero repelus que da esa relación ?

---

## Lady E says

Andi, what can I say! Bold, funny, brash, violent, inappropriate, blunt and emotionally stunted. I love her! Luke, well he evenly matched Andi for sure. I will say I was disappointed that Andi didn't spen more time with Kat....REALLY disappointed!

---

## Lady Gabriella of Awesomeness (On Hiatus) says

### 3.5 One-time-read stars

A very *reluctant* 3.5 stars for the second half of the book..

A *minus* point five (-0.5) ,for the slow and unnecessary first half.Instead of watching the romance develop these two..All i got was fighting and stubbornness..The author just took out the complications of a **Friends with benefit idea** , and literally just applied it to their situation....MINUS the sex :/ Though they were fun at times...

*I paste on my most diplomatic smile, but Luke isn't buying it. He shakes his head at me. "Oh, you're not getting off that easy. Talk to me, Andi. You're the most brutally honest and straightforward person I know. Why would you feel like you had to save face?"*

*I cross my arms and glare at him mutinously. Maybe he'll take the hint, and just leave.*

*Yeah, right.*

*I watch with trepidation as a sly gleam brightens his eyes. "So you're grandma probably thinks we're in here having a quickie," he says casually. "Is your room right above the kitchen, do you think?"*

*To my horror, he starts bouncing up and down on my bed, making the springs in my mattress squeak rhythmically, and the bed frame loudly slides around on the floor. It totally sounds like we're having sex up in here.*

*"Alright!" I shout when Luke starts with the sexy groaning and the "oh, yeahs!" He stops mid-bounce, and looks at me expectantly."*

And a *Minus 1 star*, because I hated the fact that *Audi* forgave the hero in less than 5 minutes when he should have groveled for his mistakes atleast a week :/ I still can't believe, he pulled out a '**Its not YOU,its me !'**,to **explain everything**. .\*Cue eye-roll\*

As in me and the heroine...Seriously the heart-ache he put us both through.(Even though the heroine was one crazy and possessive woman who screamt at him 24/7...Lol seriously,I'm pretty sure she enjoyed mind-f\*\*\*ing the shit out of him at times.)

She should come with a sign-board that says..

NO.JOKE.Though i did enjoy her sarcasm and craziness every few pages.

*"No, I can't trip him going down the stairs. I can't. I mean I could, but I won't. I watch him skillfully navigate the steps, but then I have to walk away to avoid temptation. I can't believe how he still looks the same.*

**Would I recommend the read ?**

Not really.

**Will I willing to read another book by this author ?**

Probably not now...but maybe in the distant future some-time. :P

---

**Joseph Santiago says**

2.5 Stars (Barely)

Okay, so the only good aspect of the book was Andie as a character and the funny sarcastic tone of her POV. That said I only loved her about 75% of the time. Most of the time she was this strong and slightly cray-cray character but then came Lucas. Whenever I thought that there was going to be a development in either character to make their relationship work, what happens? Sex and then everything is forgiven or forgotten. This weakness account for the 25% of my hate because Andie just gives in.

So I got the feeling that the author was trying to make Lucas sexy yet relate-able and likable. It didn't work for me. I thought he was a selfish cocky undeveloped man-whore. This would have been fine if he developed at all during the book but NOPE. That never happened. SO YEAH STILL THE SAME MAN CHILD!

LAST BUT NOT LEAST: The fact that Andie was practically a virgin compared to Lucas who stuck it in ever hole available (while by the way claiming to be in love with Andie for years) pissed me off. Why? Well because why should Lucas get tons of sex but Andie get none? There isn't even a reason given why Andie hadn't had sex in years, meanwhile Lucas turned it into a team sport and most likely was a walking STD.

SOUND FAMILIAR?: So the author basically does this with the characters in all her books. Does she not believe that women deserve to have as much as men? Does she believe that a guy gets to plow everything and say "It's in the past, can't be helped" and move on?

Frankly, I've read 2 of her books (didn't know they were both by her) and they both seem the same at the core to me. Write a new story would you!

---

**Sbell says**

4.5 CELEBRITY CRUSH STARS!!! WOW! I really enjoyed this book, it just really worked for me. I love how the author really knew her characters, and she did not deviate from that. Luke was such a strong hero. He was not perfect and some of his actions in the beginning I did not like, but man did he redeem himself. He fought for what he had always wanted, Andi. Andi was a very unique heroine, she had anger issues, she was awkward, and man, was she hilarious. I loved being inside her head. She was so honest, and tried to be so strong. Luke and Andi were perfect together, they just fixed each other. I love angsty books, and boy this one was. I loved it because it wasn't overly dramatic, but it hit me hard, and I just loved it. I would have given this book a 5 but it had a small part where it dragged but overall I just devoured this book. I will definitely be reading more by this author!!!!

---

## Kristina says

Just....NO!

Luke is a douche who spends the 2 years he knows Andi screwing around with random women practically everyday, and leaves it to Andi to "get rid" of his sex partners (yeah classy guy).

So after banging chicks for 2 years in front of Andi he decides he now wants her. Ummm, after all of his sexcapades that she's had to cleanup I really hoped that she would stand up to him. But no, she's a doormat. He even gets away with screwing an old flame while making a play for Andi at the same time. And he then has the nerve to tell Andi he "loves" her. What a load of crap.

Ummm, Luke was just filth. No romantic lead, I would've kicked his sleazy (cheaty) ass to the curb without a second glance.

This was a VERY DISAPPOINTING READ.

I never bought the love story, it was just Luke trying to hookup. They were not engaging or together enough to be a couple. This was not some great little love story where you could feel their connection. Nope, it was just Luke trying to hookup with the last female he hasn't slept with yet. And Andi run from this sleazebag cause he's gonna cheat on you again and again, and blaim it on alcohol.

---

## Desi says

### 3.5 estrellas

Bueno para empezar, tengo que confesar que el libro me sorprendió... lo empecé creyendo que no me iba a gustar, que iba a ser malísimo (ya tenía la experiencia con otro libro que trata algo similar y no me gustó) Entonces ya de entrada vine con expectativas: CERO.... y creo que eso dio paso a que al final me agradara la historia y no es que fuera lo mejor ni nada por el estilo, esta full de cliché, personajes y situaciones molestas... pero la historia de verdad que entretiene bastante. Si hubiera tenido más tiempo libre lo hubiera leído en un día, a pesar de lo LARGO que es.

La protagonista, Andi, me pareció muy diferente y al comienzo me agradó que fuera así. Sus pensamientos fueron absolutamente divertidos (Aunque algunas veces daba miedo jajaja)... pero ya después como que fastidiaba su actitud.... uno quería ver como un crecimiento en su personaje... que madurara por ejemplo, porque me pareció muy inmadura y ya debía de pasar los 20 (aunque en el libro no lo mencionan) Muchas veces se volvió molesta y se me hizo muy difícil entender como Luke la aguantaba y seguía detrás de ella, queriéndola... **yo como él, le hubiera dado senda patada por ese trasero y chao contigo**

Ahora Luke, fue extraño, lo ponen que tiene 23 años pero en muchas partes daba la impresión que tuviera más, parecía más maduro.... EN ALGUNAS PARTES DEL LIBRO!! y hasta casi el final me había agradado, no me gustaron algunas cositas que hizo pero en general me había parecido chévere, muy dulce y paciente.. y, buen DIOS, perseverante.... con esta chica lo fue hasta el final....

Y aquí viene la parte confusa para mí, porque sé que la cagó unos capítulos antes del final y la excusa que le dio a ella para que lo perdonara me pareció: UNA EXCUSA DE MIERDA!! de verdad, no tuvo sentido y como ella no lo hubiera perdonado NADA... pero, esta tipa era muy exasperante y creo que para él esa fue su manera de sacar todo lo que tenía guardado y no le había podido decir en todo el libro, me parece... y lo entiendo pobre jajajajaja ..... no mentira, sí se paso un poco y si era cierto todo lo que decía (de que la amaba) no debió de tratarla así, pero Andi no era un caramelito tampoco entonces creo que estaban a la par.... o como decían por ahí en el libro eran el uno para el otro...

El libro en general parecía una telenovela eso fue drama tras drama tras drama... pero igual fue entretenido y divertido leerla y por eso le doy ese puntaje.

Ahora lo que no me gustó o me pareció extraño fue:

1.No me gustó que lo de Andi, Bran y la prima (ya ni me acuerdo el nombre) se haya resuelto tan pero taaaan facil... como si lo que una le hizo a la otra fue robarle un vestido o algo así... por mucha familia que fueran lo que le hicieron a Andi no estuvo nada bien y nunca vi una disculpa hacia ella por ello.... porque la disculpa que dieron no me pareció sincera para nada, me pareció por completo una burla y luego al final como si nada.... amiguitas otra vez??.... WTF???? No sé ahí como que le faltó a la autora.... (O es que yo soy muy rencorosa??) jajaja

2.Igual va con Jessica, como es eso que al final hasta quería que Andi trabajara para ella, después de todo lo que le hizo???

¿QUE ME PERDÍ?

3.Y lo de Nate y Amber Lynn Carver.... osea.... sin comentario!!

Bueno, creo que esto es todo!!

---

## **TSN says**

Re-read Marts 2018

**Wow, just wow.**

Meet Andi, She is my new favorite person!  
She is fearless, blunt, annoying and oh so angry.

*"I jump up and march off. Then I turn back. I grab the crutches that are resting next to Bran, and toss them several feet away. Now I can leave."*

Andi is what makes this book so great.  
Her bluntness and the fact that some of her fantasies are probably illegal and that she is a "little" bit crazy made me fall completely in love with her. She is just the shit!

I laughed, I cried, I laughed again. It's an awesome book. I haven't laughed this hard in a long time.

If you like a funny romance this is the book for you!

This book is bloody brilliant. Totally recommend it to everyone. It's hilarious! Honestly, read it, you won't be disappointed.

### **seton says**

[ they are still not together at the halfway pt so H gets drunk and he sleeps with OW. (hide spoiler)]

---

### **Vanesa says**

Hacer un review de este libro va a ser una tortura tan grande como leerlo. La protagonista al principio me gustó su actitud de badass y luego ya solo le faltaba la tarima porque bastante payasa la muchacha. Luke, es un tipo tierno y bla bla o sea, ni fu ni fa con el.

Este libro contiene todos los clichés

- \* Crush con una mega celebridad
- \* Engaño de ex novio
- \* Embarazo ficticio
- \* Pasado oscuro
- \* Mama drogadicta aparece en escena
- \* Embarazo con el tipo con el que terminaste
- \* Final perfecto

Y tiene de bonus que la prima se acostó con el ex novio y tienen un bebé.

Fue terrible.

---

### **Suzy says**

OMG, again, I totally loved this book from Nicole Christie. There is something about her writing that makes you turn the pages so quick, it is almost impossible to put it down. For her previous two novels they took over my life, became an obsession for a short while. This book was no different. READING THIS BOOK I HAD NO LIFE. I couldn't even eat my lunch and dinner without reading it.

Full of witty lines, humorous plot lines and sexy blokes. The heroine, Andi, is very different from the usual leading lady. She is a little more than feisty. She is quite bitchy, nasty, violent, crazy - if you met her, her outspokenness and tendencies to set your bed on fire would put you on edge. Throughout the book people keep saying they don't know what hot Hollywood actor Lucas Greyson sees in her and with all honesty, I can understand this observation. However, there is quite a lot of depth to her character. She is messed up and pushes people away who get too close. As you read on you can get to understand her. A lot of the time you want to slap some sense into her, so my first reservations were short-lived as Andi quickly became loveable.

Lucas Greyson = another dream book boyfriend. Do yourself a favour, check out this book.

---

## Kenni Santiago says

\*\*\*2.5 stars\*\*\*

Un libro difícil de leer, y no porque tenga una historia tan compleja que te da dolores de cabeza, si no porque es tan aburrido y molesto que me tuve que obligar a terminarlo. Masoquista, lo sé.

Había estado leyendo el libro de Cinder & Ella de Kelly Oram (el cuál adoro) y quise seguir por la misma línea de historia.

Chico o chica famoso, se enamora de chico o chica no famosa. La fama y las celebridades se meten en la relación, bla bla bla...

Entonces, gracias a mis grandes amigas de K.K., encuentro este libro.

Tenia grandes expectativas acerca de el. Mala idea.

Lo primero que noté fue que teníamos una protagonista fuera de lo común. Antipática, poco delicada, sarcástica y en general un dolor en el culo. Y eso esta bien. Es bueno salir de la rutina de protas perfectas con síndrome "damisela en apuro". Así que lo encontré refrescante. Diferente. Hasta que la autora se lo llevo a pecho. Y más cuando pasa de hacerse la difícil con Luke a ser prácticamente imposible de tratar.

Luke, quien, a mi pensar fue inspirado en Nick Bateman, es todo un galán y hasta adorable. Al principio da a entender que tiene un trauma de niñez grandísimo pero realmente es solo un chico más que resulto ser una promesa en el mundo de la actuación. También lo encuentro bobo al soportar y enamorarse de una tipa como Andi.

Me gusto el personaje de Nate. Fue un excelente personaje secundario dando un toque de humor necesario.

No entendí ni la función de la madre de Luke, ni la animosidad de Jessica. Personajes totalmente innecesarios y con escenas aburridísimas.

Consideré el libro demasiado largo. Creo que fue hasta las últimas 45 páginas que por fin se puso interesante. En fin. Libro de una sola vez. Repetirlo sería tortura.

Kenni
