Compulsion K.B. Miller , Donnell Wallace (Illustrator)

A family secret kept hidden has been exposed, and the consequences could be deadly.

After Lilyann Moon's beloved grandmother dies shrouded by a veil of mystery, she and her young family members are yanked from their completely normal lives and catapulted directly into the supernatural world of witchcraft. A world they know absolutely nothing about.

The town of Hampstead, Maryland has no idea of the monsters that lurk in their midst. Or, of the dangers they will face if the Moon Coven doesn't figure out how to embrace the magick within each of them, especially Lily.

She's suddenly up to her little pointy black hat in magickal problems. Destiny presented her with one more, and it's a big one - vampires.

The only bright spot in this nightmare was meeting Mason. But, is she in love with the enemy? Lilyann is in a race against time to save her town and coven. Will she survive the coming dangers, with her heart and neck intact?

It all comes down to this one night...

All Hallows Eve.

K. B. Miller has done it again! Wow!!!!!! I fell in love with her writing while reading Haunted Moon (A Moon Coven novella), & I've been anticipating the re-release of this novel every since! Miller's a mastermind at drawing us in & refusing to let us go! I loved every bit of it...the characters, the jokes, the relationships, the action packed stake throw downs, & especially the flame throwing! :) Honestly, once I opened it up I could not put it down! And...I think I may have a slight crush on Mason! ;•}

Compulsion is 5 Star!!!! *****

Now I need MORE!!! :) Eagerly awaiting your next release, KB!! <3

I enjoyed reading Compulsion very much. I finished it in about 3 hours. I found all of the characters to be engaging and interesting particularly Lily. I understood why she got angry with Mason but when she finally forgave him I cheered. Dax and his brother were so wicked but they served their purpose of making the story exciting for the reader. I am seriously hoping that there will be a sequel so I can get more of Mason and the rest of the Moon clan. I also want to see what Dax has planned next.

I really enjoyed the Wiccan facts and rituals that Kymberlee weaved throughout this fast paced story. They were accurate and had me wanting to be a part of the Moon Coven! :)

I can't wait to see this story continue!

Joann Buchanan says

Compulsion is a simple read in that you don't have to have a dictionary next to you to understand it. That makes it easy to sink into it with ease and allows the reader to experience the different layers of the characters.

The story opens with Lily losing her grandma and from there she is whisked into a world of magic she doesn't quite fully understand. The entire levity of the opening scene really pulled at my heart strings and made me appreciate the depth Lilly had, from the start.

I love the way author Kymberlee Burks-Miller added the details of the characters and the surroundings and the many layers she added to not just one but all her characters, thus making it easy to know who was speaking and able to actually picture them.

The world of magic mixed with vampires is not a new concept, however she was able to bring fresh life to

that world and make it her own. Bravo on that.

The one thing I loved most about this book was the message of family unity and how it never seemed to be the last thing on the characters minds and hearts. In a society filled with brother against brother and sister against sister, it is nice to see that the main theme of this novel for the YA crowd is all about maintaining the unity of the family.

I look forward to allowing my daughter to read this book and can't wait to read what she has coming in the future. Bravo on your debut novel!! It is amazing!!

Lynn Worton says

Lily's grandmother dies in suspicious circumstances, and Lily's world is turned upside down when she finds out that she is from a long line of witches. Along with her eleven young family members, Lily will have to learn how to wield this new found power, and learn fast. Lily is the most powerful witch in over five centuries, but she is untrained and uninitiated. The vampires have found out about Lily and her family, and they are coming to claim the Moon's blood. Lily's only saving grace is when she meets Mason, but has she fallen in love with the enemy? Can Lily save her coven? And can she survive with her heart and neck intact?

As I began to read this story, I was surprised to find out that Lily was 21. I had her "voice" in my head as a teenager. She came across as a bit flighty (in my opinion), and used too many exclamation marks in her thoughts and words. However, Lily undergoes a life changing event with the death of her Grandmother. As I read further into the story, she begins to mature and become more adult. By the end of the book, she had truly become a force to be reckoned with! Mason is a great character. I think I've fallen for his green eyes! The rest of the cast of characters are well written too - the vampires scare me! There is a lot of action that will keep you glued to the pages. The ending sent chills up my back, and now I'm wondering when the sequel will be released, as I would like to know what's going to happen next! This book seems to be aimed at the teen reader, but I recommend this book if you like reading about witches and vampires.

I am pleased with how *Compulsion* turned out. I'm proud of my achievements thus far. However, don't mistake that for, "WooHoo. I'm in love with this masterpiece that I have written!"

That's not the case. *Compulsion* is my debut novel, and I'm very pleased with my progress as a writer. I love the fact that daily, I learn something new from another author. A new technique on how to make my stories flow with more ease, or an awesome tip about how to explain to the reader EXACTLY what I see in my head.

My development as a writer and this particular story's growth is something that astounds and amazes me daily.

Thank you for joining me on Lilyann's adventure. Thank you to all of the reviewers. I have been lucky enough to have wonderful people that are honest about my writing. I hope that you enjoy the

Compulsion by K.B. Miller

WOW this is the second book I have read by KB and her writing keeps getting better with each book I read. I love her writing style and love the characters. I think my favorite is Declan and Lily. I had a hard time putting this book down and when had to do motherly duties I kept thinking about the story that had me so enamored. The ending is left at a climax and I with the Lily when she is thinking WHO? WHAT? I'm excited to read the next installment to this fabulous witchy series Harvest Moon! I love how the characters grow in maturity and in powers right before your eyes and you can connect with the characters. This is such a great read!!

When Lily's grandmother dies unexpectedly, her grandmother leaves clues everywhere to uncover a family secret that will unlock the past and send them into a better future. Lily is thrust in the world of the supernatural without a moments notice and is barely hanging on trying to cope with her new witchy powers and the vampires that are out to eat her. With the help of her new coven, can she protect them and defeat the oncoming enemy? I give this a very witchy 5 star review~~!

ARC for Review. I LOVE THIS BOOK!! An awesome tale of self-discovery and young love!

I was given the opportunity to Read~N~Review this book... OMGosh I loved this amazing self-discovery read!

Vampires, Witches' and Ghosts ~ OMy! Lily Moon's family has a secret ~ one that could get her killed!

WOW! What a wonderful story. Lily Moon has a destiny to fulfill, one that is unknown to her until a beloved family member passes. I really identified with this character in that, I lost my mom at age 12. The physical pain she feels, just made me love her more.

Kymberlee has created a compelling world of self-discovery, self-confidence, first love, family secrets, and coming to terms with responsibility and one's own destiny.

The characters are well developed, believable, lovable and yes, even some I love to hate! Imagine yourself surrounded by vampires out for your blood! Would you stay and fight?

Suspense and mystery kept me flipping pages on my phone, I had to know what was gunna happen next. Her twist on vampires is refreshing and the way she describes Mason, M~M~M!!!
The humor within had me smiling to myself a lot!

I recommend this for all YA Readers out there, this is an awesome twist to the Paranormal Read.

Mera's YA Book List

(www.merasyabooklist.blogspot.com)

Compulsion is a novel enchanted by the imagination of a wonderfully magical author. There are many good things I could tell you about both this author and about this paranormal romance. But because there is only so much time in the world, I will stick with my top three reasons for loving this novel. And as I am a list girl (just look at the title of my blog and page) I've compiled a list.

1: This one is simple. My main reason for liking this novel is the characters that Miller has created. Lily is a fun character with quite a fierce personality. She has character flaws, as a good character should, but she is also very lovable. Mainly, she as well as the other characters in this story are realistic, and far from the idealized perception of perfection. She's selfless, gorgeous, overly loving and outspoken at times. But she is also extremely stubborn, unaware of her own potential, and to a point, her selflessness and strong will could potentially hinder her. These qualities will only make you love her more.

Throughout the novel we get to see this 21 year old grow into herself and into her capabilities. And she isn't the only one. Reading about the Moon family was an experience that make me laugh, gasp, and read the story page after page. From Ciaran to Rionna, the twelve young people of the Moon clan will draw you in. Besides her family, the events that occur with Lily's best friend Cam turned out to be a shocker, and Mason, the handsome paranormal in Lily's life, will make you salivate and daydream about someone like him being destined for you. I did, and for those of you that happen to live on the Eastern shore of Maryland, as I do, the story will entice you even more as Lily's adventures take her in locations recognizable, much like many of David Levithan and Rachel Cohn's books do for New Yorkers. Few books have done this for me- in fact I have a four book list of books I've read set in my location.

Rambling over (which is a quality I happen to share with Compulsion's heroine), I'll move onto the 2nd reason I loved reading Compulsion.

2: The writing. I mean this seriously, and I'll be brief but my number two reason for liking Compulsion is the style with which Kymberlee writes. The writing is light and fun. It is written in Lily's POV, and it makes me think of her actually telling us the story of what happens in her life piece by piece. So as days pass it seems to me like she is describing the events of her day all at one time, day by day. This is actually amazingly effective because Miller's way of making it seem like Lily is talking to the reader made me feel like an unspoken character in her journey. She writes Lily's words the way a young female would talk to someone close. This made me feel the happiness Lily felt, the sadness she felt, and understand her decisions even if they were decisions I wouldn't agree with.

3. The last of my top three reasons for loving Compulsion is the plot and the way in which the storyline played out. Seems simple, right? Every book has a plot. The difference is how it is written. Now I obviously

can't tell you guys the plot. That would spoil the story, but just know it is a story filled with intrigue, twists, and an underlying humor. There is love that is both unfamiliar and familiar to us, the paranormal romance that we'll not be able to experience (unless, you know something I don't) and the familial love we feel for those we care most for. There is anger, and resentment, sadness and hate, happiness and forgiveness. This story is one filled with the magical aspects many humans don't believe in but also filled with the huge range of feelings many of us believe make a person human. I am hoping for a second to this novel as the first hinted that another could come.

There you have it. That's my list. I think it's obvious that in my opinion this captivating novel is a must read. In the end, one of the best things I can say about *Compulsion* is that it will indeed compel you. So, brava to Kymberlee Burks-Miller. She not only weaved a completely lovable novel, but she picked the perfect title for the book. Who knows? Maybe the person meant to be compelled WAS in fact the reader.

Happy Reading everyone.

I give *Compulsion* a 4.5/ 5 stars.

and to end with the witch's greeting,

Merry part and Merry meet again.

Although the new cover of “*Compulsion*” isn’t really my taste, the blurb did entice me to sit down and see what the story is all about.

I finished the book in no time, as the author’s writing is very simplistic and uncomplicated. She takes you into the lives of likeable characters who each discover their powers, grow as persons through out the book; and a family whose bonds strengthen as they work together to face the dangers that threaten their lives and their very existence as a coven.

The author isn’t sparse with details on the characters’ every move, emotions and their surroundings which allow the reader to experience the warmth and closeness of the Moon clan firsthand. Lily, the main character, has a personality perfectly suited for the role she is given to defend her coven. She is strong, assertive and brave, but at times also emotionally vulnerable. Mason, who would give his life in a heartbeat to protect Lily, is every girl’s dream guy, and by himself a great reason to grab and devour this book. My favourite of course was Izzy the cat!

“*Compulsion*” is Kymberlee Burkes-Miller’s debut novel and is an enjoyable, easy read which will appeal to the imagination of young adults across the spectrum. After finishing the last chapter of this magical book, the reader is left eagerly anticipating the release of the author’s next novel in this series.

Tonia Harris says

I first met author KB Miller online last year. Her vivacious personality and the relationship she shares with her readers drew me in. I recently re-read *Compulsion*, the first in The Moon Coven series, and *Haunted Moon*, a novella. Again, the Moon family's core values resonated with me. I enjoyed KB Miller's light writing style and her presentation of strong, family oriented cast of characters. Lilyann Moon, the main character, discovers her witchy-twitchy heritage and meets her love interest, Mason. I love that these stories are ones I'm comfortable sharing with my daughters- the battle scenes provide emotional impact without unnecessary gore, and though the couple shares lots of kisses, the author leaves a lot behind closed doors(and thus, lots to the imagination!).

I recommend this series to the paranormal-loving set that enjoys a frothy, romantic read. All the better if you curl up with some of Paula Deen's Pumpkin Bars(recipe here) and a cup of java. (Warning: Lilyann's love for all thing caffeinated will have you jonesing for your favorite beverage)

I absolutely LOVED this book! It kept my attention on page one and I couldn't put it down!! A witch and a vampire...Who would a thought!! This book is full of suspense, magic, vampires, witches, love, loss, family ties to the past and present, protection, secrets, and kids just trying to be kids in a supernatural world!! I give *Compulsion* by Kymberlee Burks-Miller 5 out of 5* for this fantastic book and I suggest it be a MUST read!!

Just finished re-reading *Compulsion* and it's just as good the 2nd time as it was the 1st!!

This book has Witches, Vampires, Ghosts, and a family secret. All of which make for fun and page turning ride.

Lily Moon has just lost her grandmother and soon afterwards finds out she is a witch along with all her cousins. Not only that but they are the most powerful Coven around. They have to learn the craft fast before the vampires close in and kill them all. But with the help of the sexy vampire Mason they just might be able to handle their new destiny and prove to everyone why the Moon Coven is so powerful.

Kymberlee writes an amazing world that will have you falling in love with all the characters even the bad ones. The details in this book are so good. You are never lost with any of the characters and what they are going through. We are left with unanswered questions and I can't wait to see how they play out. I love all the characters especially Lily, Mason, and Izzy the cat. I can not wait for the next book to see what happens with the Coven and the Vampires.

Through first love, family secrets, destiny, self confidence, and everything that ties a strong family together. *Compulsion* will leave you wanting more.

Compulsion is the first novel by writer Kymberlee Burks-Miller. This book is filled with witch craft, vampires, romance and family unity. The novel follows Lilyann Moon as through a tragedy she is forced a destiny she is completely uncertain of. Through her family, friends, and a surprise love she finds her way and saves more than herself. I love the way the book was written and fell in love with the characters. I had a hard time putting this book down. It was a great read. I felt a personal connection with the novel because of my own closeness to my cousins. I also love that the end was left open for another novel and the possibility of a series. I can't wait to read more about Lilyann, Mason and the entire Moon Coven. I also can't wait to read more from the amazing Kymberlee Burks-Miller. I would defiantly recommend the book and give it 5 of 5 stars.
